WILSON'S MEDIATORS BELIEVED TO HAVE ARRANGED FOR SETTLEMENT OF R. R. STRIKE

SCHOOL BOND ISSUE IS MET BY WARNING

City Finance Commissioner Says Careful Thought Must Be Used.

CITY FINANCES INCREASING

Board Answers With Statement Showing Congested Condition of Schools.

Municipal events of last week were featured by the announcement that members of Waco's school board would ask the city commissioners for $150,000, the same to be secured through a bond issue if voted upon favorably at a called election, to be used to relieve congestion of city schools.

That the question of issuing bonds for this purpose is to get a thorough airing prior to any election which may be called appears anticipated through the fact that Finance Commissioner Harlow urged "care and thought" in the matter in a statement issued to The News last night, while at the same time members of the school board placed in the hands of the city commission a further argument for the need of this sum. Both follow:

SCHOOL INCKEASE FIGURES.

Figures showing the growth of the Waco public schools for the past five years have been placed in the hands of the city commission. These figures were given in connection with the bond issue for $150,000 which is sought by the schools for betterments in buildings, the need for room being urgent according to the school board. The following figures have been given:

Enrollment Past Five Years.

1911-2	1912-3	1913-4	1914-5	1915-6	1916-7
5609	6310	6914	7286	7607	8149

"Total increase for five years, 2,540, an average increase of 508 per year. To care for this increase an average of fourteen additional rooms would be needed annually.

High School Enrollment.

1911-2	1912-3	1913-4	1914-5	1915-6	1916-7
624	763	880	975	1151	1252

"This shows a total increase of 628 for five years, an average increase of 105 annually.

"In June about 180 pupils will be promoted to high school, about 240 more will come up next January.

"About 140 will be graduated in June and probably eighty will graduate in January, 1918. This means that a year from now there will be approximately 200 more pupils in high school than are now enrolled."

HARLOW'S STATEMENT.

An interesting and informing statement of the bond limit of Waco was yesterday given by Finance Commissioner J. D. Harlow. He said:

"Our bond limit at present is $222,919, according to figures just given me by City Secretary John C. Davis.

"A proposition will be voted on early in April for $35,000 with which to meet requirements in the fire department section of the city.

"The question of a sewage disposal plant for Waco is liable to become acute at any moment. The state has the right to enjoin the city from using the Brazos river at any time, while the national government right now is completing a lock and dam below the city, and may also refuse to allow the city to use the river at any time.

"If we grant the request of the Waco school board for $150,000 bonds —and I am sure the schools need the [illegible] oney—it will put us in an awkward [illegible]tion. Should that amount of [illegible]ol bonds be voted, and the demand [illegible] for the sewage disposal plant, Vins[illegible] will cost around $150,000, we [illegible]9, have to levy a special tax on [illegible] Saturday to meet the situation, es[illegible]9:15, with the fire department issue [illegible]9:45, [illegible]10, co[illegible] strictly in favor of meeting [illegible]ities in s[illegible] of the schools, where possi[illegible]Miss Ma[illegible] situation is one demand[illegible]"Mission [illegible] thought. NEWS PLANS AID TO WACO'S SUNDAY SCHOOL ATTENDANCE

DONATIONS TO BE GIVEN FOLLOWING EASTER SUNDAY FOR BEST AVERAGE INCREASE.

The News staff the other day was asked in what way The News could best aid the "go-to-church-on-Sunday" idea. The plan was suggested of offering four donations totalling $20 to the Sunday schools showing the largest average percentage in gain in attendance during the period ending with Easter. After consultation with several pastors, this detailed plan was outlined.

The donations are $10, $5, $3 and $2. The Sunday schools receiving them will use the money as they see fit. The first idea of giving banners was abandoned when it was decided that the individual Sunday school will make a better use of the donation.

Each Sunday school will be graded on the basis of its attendance today. The average of the attendance for the next three Sundays will determine the percentage of gain over the attendance today. For instance, if the Austin Avenue Sunday school has an attendance today of 300, and the average attendance for the three Sundays following is 375, the percentage of gain will be 25 per cent. Under The News' plan another Sunday school which may have a 200 attendance today and an average of 260 for the following three Sundays will show a gain of 30 per cent.

Each Monday the attendance of the various Sunday schools will be given and the percentage of gain to that time will be figured. The church editor will be pleased to hear from the superintendents of Sunday schools as to their attendance. In each case the attendance will be figured from the statement of the superintendent.

Champ Clark Says War Not Likely to Come

By Associated Press.

Chicago, March 17.—Champ Clark, speaker of the house of representatives, speaking tonight at a banquet of the Irish Fellowship club, said that in his opinion the United States would not become involved in war with Germany. He thought German submarines would not recklessly sink American ships.

MRS. ALICE HUGHES DIES.

Mrs. Alice Hughes, age 46, wife of L. A. Hughes, died last night at 10 o'clock in a local sanitarium. Besides her husband, the deceased is survived by four children, a mother, Mrs. M. V. Blackburn; two brothers, Joe and Othello Blackburn of Stanford, and a sister, Mrs. Arthur Marshall of Mound. Funeral arrangements have not yet been completed.

RUMOR COMES OF DISSENSION IN GERMANY

Debate in Prussian Diet Bitterly Denounces "Junkerism" of Autocracy.

SOCIALISTS RIDICULE VICTORY

Cheers Greet Leaders' Scathing Denunciation of Militarism and Barbarism

The Hague, via London, March 17.—The debate in the Prussian diet on Wednesday, after the address by the imperial chancellor, Dr. von Bethmann Hollweg, was remarkable for its slashing attacks on "junkerism" by both socialist factions.

Herr Leinert, a socialist democrat, according to the Berlin Vorwaerts of Thursday, denounced the upper chamber of the diet, which he said regarded the government as the mere caretaker of their own selfish interests and where nothing counted but shameless profiting. Declaring that the reorganization of that body as suggested by the national liberals was useless, he cried:

"We must abolish the Herrenhaus, which is a millstone around the neck of any progressive development in Prussia."

Deputy Leinert also upbraided Count Yorck, who had attacked the socialist leader, Carl Legien, because, the reports add, after the break between Germany and the United States, the latter had promised the American Federation of Labor that he would bring the influence of the German workmen's unions to bear upon the government.

"Such influence," Herr Leinert is reported to have said," the Herrenhaus regards as its own special prerogative. It wants the people to be commandeered into war and out of it and that things afterward should remain as they were. That is impossible. The people demand peace at the soonest possible moment.

Denounces "Serfdom."

"We are no longer serfs whom the king can buy and sell or order us to bleed and die at the word of command. We are a nation that has reached political manhood."

Amid intermittent cheers Herr Leinert hinted at a time coming when the whole nation would rise and sweep "junkerism" off the earth.

Adolf Hoffman, of the socialistic workingmen's union, in supporting the desire for peace, is

Germans Seek Armistice; French Cabinet Quits; British Take Bapaume

FRENCH CABINET RESIGNS, LED BY PREMIER BRIAND

By Associated Press.

Paris, March 18, 12:45 a. m.—The French cabinet, headed by Premier Briand, has resigned.

An official note given out after the cabinet meeting says:

"The council of ministers met tonight at Elysee palace. The premier reported on various consultations he had had with a view to completing the cabinet so it could present itself to the chamber. After hearing him the cabinet decided that circumstances compelled it to leave to the president of the republic complete liberty to interpret the situation in the best interests of national defense. Consequently, the president of the council put into the hands of the president of the republic the resignation of the cabinet."

The Briand ministry had been attacked in the French parliament repeatedly during the last few weeks because of its economic policy. It succeeded the Viviani cabinet in October, 1915, and was reorganized last December when the number of ministerial portfolios was decreased and a war council appointed. The war council included Premier Briand, M. Ribot, minister of finance; General Lyautey, minister of war; Rear Admiral Lacaze, minister of marine, and M. Thomas, minister of national manufactures.

Internal Dissension.

Attacks by the opposition in parliament resulted on Wednesday in the sudden resignation of General Lyautey as minister of war. The chamber of deputies had held a secret session Wednesday in which the French aviation service was discussed. No specific attack was made on General Lyautey and it was explained that his resignation resulted from his ignorance of parliamentary procedure. Admiral Lacaze was given the war portfolio temporarily. Premier Briand, a dispatch from Paris on Friday said, had decided to reconstruct the cabinet and the resultant ministry was expected to be approved by President Poincare Saturday night.

Aristide Briand was premier during most of 1909, 1910 and 1911 and again for two months in 1913.

M'LENNAN COUNTY ROAD BILL PASSES

WILL ENABLE COUNTY TO ASSUME PRESENT PRECINCT ROAD ISSUE.

Special to the News.

Austin, March 17.—Senator A. R. McCollum of Waco succeeded in getting bill 370, known as the McLennan county road bond bill, through the senate tonight. This bill will enable McLennan county as a whole to assume the present precinct road bond issues, and to issue additional bonds for the building of roads throughout the county. The bill was introduced at the request of the county judge, county commissioners and County Engineer Windrow.

Other counties throughout the state will be enabled to follow the pace of McLennan county under the provisions of this bill.

It is expected to be passed in the house on Monday through the aid of Representatives Poage, Williams and Fitzpatrick, all of whom hail from Waco.

ARMISTICE TO BE SOUGHT BY GERMANS TO RUSS

By Associated Press.

London, March 17.—The Russian constituent assembly, says a dispatch from Petrograd, will be convened at the winter palace, which has been proclaimed national property.

By Associated Press.

London, March 17.—Dispatches from Vienna, according to the Exchange Telegraph company's correspondent at The Hague, say that the German chancellor was received this morning by the Austrian emperor and empress at the Luxemburg castle, near Vienna.

Chancellor von Bethmann-Hollweg had a long conference with Emperor Charles jointly with Count Czernin, Austro-Hungarian foreign minister, chiefly with reference to the Russian situation.

Political circles in Vienna, the dispatch adds, are considering the possibility of entering into negotiations with the Russian cabinet with a view to an armistice. The German chancellor will leave Saturday night for Berlin and will immediately visit the German emperor at headquarters.

HOW NICHOLAS QUIT.

By Associated Press.

Petrograd, via London, March 17.—The abdication of Emperor Nicholas was signed at the town of Pskoff, where the train on which he was traveling toward Petrograd was halted early in the week. It is said that he had arrived on Wednesday at a point close to Petrograd and then turned back toward Pskoff, but this report has not been confirmed.

From Pskoff, according to accounts now available, the emperor communicated with members of the executive committee of the duma, who informed him that they were sending emissaries to meet him there. Accordingly, a member of the duma committee and a minister of the new cabinet proceeded to Pskoff and had an interview with the emperor in the presence of General Nicholas Vruzsky, a member of the council of the empire and of the supreme military council; Baron W. Fredericks, minister of the court; Count Narishkin and others.

After relating to the emperor the latest developments in the revolution, the emissaries advised him not to send any troops from the front to Petrograd, since all the troops were going over to the revolutionists as fast as they arrived.

"What is desired that I should do?" the emperor asked.

"Abdicate the throne," was the reply.

After devoting some time to deliberation, Emperor Nicholas said:

"It would be very hard to be separated from my son. Therefore I will abdicate in favor of my brother, in behalf of myself and my son."

The document, which had been prepared in advance, was handed to the emperor and he signed it at once.

GRAND DUKE'S MANIFESTO.

(By Associated Press.)

Decision whether Grand Duke Michael Alexandrovitch shall occupy the Russian throne is left to a plebiscite of the Russian people, according to a manifesto issued by the Grand Duke. This is taken in some quarters to mean that Grand Duke Michael does not intend to accept the regency temporarily, but only after the holding of elections.

The whereabouts of former Emperor Nicholas is made doubtful by conflicting advices, one of which asserts that he is held a prisoner in the house of parliament, and another that he is in a monastery at Pskoff, where he signed his abdication of the throne at the demand of a committee of the duma. The Russian empress and crown prince are reported safe in Finland.

The Russian garrison at the fortress of Sveabork, which defends Helsingfors, is reported to have mutinied and refused to join the revolution.

WILL FREE JEWS.

London, March 18.—2:36 a. m.—The Weekly Dispatch says it learns on excellent authority that the first executive act of the new Russian government will be to assure the freedom of action of all Russian Jews.

"The action of the revolutionary government on the subject," it says, "will be guided by the leading principle of equal rights for all, irrespective of race or religious opinion. The reason why Jewish freedom is to be granted so soon is that it is a mark of appreciation by the duma for the praiseworthy attitude of the Russian Jews when tempted by the bureaucracy to desert the popular cause."

ARMY ATTITUDE UNKNOWN.

Petrograd, March 17.—After his abdication Emperor Nicholas returned to general staff headquarters.

The attitude of the armies at the front is not yet known in Petrograd. It is generally believed that the appointment of Grand Duke Nicholas as commander-in-chief will be received enthusiastically by the troops, with whom he is extremely popular.

BAPAUME FALLS BEFORE BRITISH IN THE SOMME

By the Associated Press.

After many months of hammering at the German lines in the Somme sector, the British have at last captured Bapaume, considered the first and perhaps the main objective in their long advance in that sector. At the same time the towns of Le Transloy and Achiet-Le-Petit also fell to the British. General Haig's troops entered Bapaume Saturday morning after severe fighting and found the town in flames, the Germans having fired it.

French troops north of the Avre river and between the Avre and the Oise have thrust forward to a depth of about two and a half miles along a thirteen-mile front.

Berlin admits the retirement of the German forces along a five-mile front between Beauxraignes and Lassigny in the Oise region, as well as between Sailly and St. Pierre Vaast wood on the Somme front.

Germans Pushed Back.

The British and French troops are sweeping forward in the Somme and Oise sectors in France and the German retreat which at first was slow on narrow fronts, seems to be gaining momentum.

The latest advance by the British was made over a front of 16 miles and by the French along a front of about 15 miles, and the entente allies have penetrated German positions in this new operation to a depth of from 2 to 4 miles.

From Bapaume the fortified lines newly acquired by the British extend to the western outskirts of Monchy-au-Bois. From south of Peronne, the British have drawn a new line as far as Fresnes. In all they have taken possession of fourteen villages in their new advance.

Held for Two Years.

The forces of Emperor William apparently have been compelled to give up positions that they have occupied for more than two years because of the terrific bombardments to which they have been subjected. The British forward movement on the Somme front began February 25, when Petit Miraumont, along the Ancre, was occupied and the French began pressing forward from the Andechy-Lassigny line on March 12.

$100,000 Pearl Necklace Found in Los Angeles

By Associated Press.

Los Angeles, Cal., March 17.—The pearl necklace of Mrs. Frank Sullivan Smith of New York, valued at approximately $100,000, was found in the corridor of a hotel here today by a youth who returned it to Mrs. Smith. The necklace was reported stolen yesterday.

Governors Three States Ask Guards Be Ready

By Associated Press.

Philadelphia, March 17.—Resolutions calling upon the war department at Washington to put the national guard organizations of New York, New Jersey, Delaware, Maryland and Pennsylvania on a war footing by providing them with adequate supplies and equipment and calling for state inventories of resources available in the event of military necessity, were adopted at a meeting here today of the governors of these states. Copies of the resolutions were sent to President Wilson.

48 HR. TRUCE FOLLOWED BY CLEARING SKY

"Amicable Settlement" Expected Says Lee, Brotherhood Spokesman.

HUNDREDS QUIT WORK AT 7 P. M.

Failing to Receive Notice of Truce, Brotherhoods in a Score of Cities Strike.

New York, March 17.—An official of the railroad brotherhoods who would not permit the use of his name, made the flat declaration tonight that there would be no strike and that the brotherhoods had won a complete victory.

New York, March 17.—After a forty-eight-hour truce between the four railroad brotherhoods and the railroads had been declared here late today, thus averting the great "progressive" strike that was to have begun at 7 o'clock tonight, W. G. Lee, chief of the trainmen and spokesman for the brotherhood chiefs, asserted that he believed an amicable settlement of all differences would be reached by Monday.

This was taken to mean that the efforts of the president's committee of mediators representing the council of national defense not only had been successful in halting the strike, but that with the resumption of conferences tomorrow and Monday, the whole situation probably would be cleared and the country again assured of normal transportation conditions.

Mr. Lee's reassuring statement came after he was informed that many members of the four brotherhoods in Ohio, West Virginia, Pennsylvania and Illinois, failing to receive word of the postponement of the strike, actually had quit work tonight. He said he was not surprised at this, inasmuch as there was so little time—less than three hours—in which to communicate with the men.

"That should be sufficient proof of the fact that we were not talking idly when we said all our members would obey the strike order," said Mr. Lee. "We knew they would—every one of them."

Wilson Mediators Win.

The decision late today to postpone the strike for forty-eight hours was reached only after three of the president's mediators—Secretary of the Interior Lane, Secretary of Labor Wilson and Daniel Willard—had labored almost incessantly since early last night with the four brotherhood chiefs and the conference committee of railroad managers.

Propositions of Settlement.

While it was generally understood that a tentative agreement had been reached, all who participated in the conferences maintained silence until Mr. Lee made his statement tonight. The head of the trainmen's brotherhood intimated that concessions had been made by the railroads that probably would be accepted by the employes. He declined to outline these, saying:

"I believe that by Monday we shall reach an agreement which will avert a strike."

From other sources regarded as authoritative, it was learned, however, that three important considerations entered into the negotiations. These were:

Pressure of public opinion against the strike.

The possibility of a decision Monday by the supreme court on

News Classified Page Meeting Business Need

Business men and women of Waco and surrounding communities are finding in the Morning News classified page the solution of a long-felt need. A number of customers are using the page daily, and according to their own statements are being rewarded wonderfully. Readers and users of these popular columns have been loud in their praise because of its convenient classification, making it possible to find at a single glance whatever is wanted.

Practically all classes of business are represented aside from business opportunities. It is a common ground where help is offered and wanted, articles for sale displayed and buyers found for them. The page is a business directory for busy people.

Maximum service is rendered at a maximum cost. Results are immediate. In many instances the thing has been accomplished over night. If it is worth money, it is worth advertising. You may get in touch with this business page where thousands of busy people come together daily by coming to the News office at 614 Franklin, or, if more convenient,

TELEPHONE 3465.

Anne Begins Spending $15 in Experiment for Family of Five

She Has Stocked Up With Supplies—Watch Her Progress

By Anne Austin.

My $15 a week plan is well under way—that is, I have something to eat for the whole family for Sunday. The menu is strikingly long, and it is served in only two courses, but I think it will sustain life very nicely. The Sunday dinner is combined with the Sunday supper, for my family is just "common folks" who eat dinner in the middle of the day. We shall eat for supper what is left from dinner.

SUNDAY MENU.

Breakfast

Coffee (with top of the milk)	.05
French toast (egg toast)	.13
Butter	.05
Bananas, with milk and sugar	.10
Total	.33

Dinner.

Hamburger steak	.35
Candied yams	.10
Corn muffins	.05
Gelatine desert with fruit	.12½
Butter (muffins and cooking)	.15
Total	.77½

Supper.

Hamburger steak warmed over.
Candied yams warmed over.
Fresh cornbread or biscuits (counted in dinner).
Tea, cost about 3 cents, as children do not drink it.

The following list of groceries were purchased today, in the hope that they would last until the week was up. Meat is not counted, as it will have to be purchased by the day. Fresh or canned vegetables are not on it, either, with the exception of potatoes. Cash prices were paid.

Two pounds lard	.33
Two dozen eggs	.50
Flour, 5c the pound	.30
Milk, a pint each day	.35
Butter milk	.10
Coffee	.30
Sugar	.25
Onions, one pound	.15
Sweet potatoes	.30
Irish potatoes	.40
Dried beans	.40
Total	$4.38

It will be remembered that we started out with $6 to spend. Will we have anything to eat the last day? We certainly will have to cut the corners closely. I think I shall weigh before and after. If I reduce I shall be tempted to repeat the experiment.

Army Can Operate Trains for Guardsmen

By Associated Press.

San Antonio, March 17.—Plans made by the southern department for the homeward movement of national guardsmen now under way do not contemplate any interruption in the event of a strike. Such a possibility has been considered and a canvass among regular army men has been made, developing that there are a sufficient number of trainmen to operate all trains necessary to move the guardsmen. Southern department officials do not contemplate such a step will be necessary, but they have made provision for it and will use the regulars if needed.

the constitutionality of the Adamson law.

A proposal that the railroads accept the brotherhoods' interpretitude of the brotherhoods and the its being upheld.

It was learned that the question uppermost for consideration tomorrow was to determine the attitude o fthe brotherhoods and the railroads in the event of the Adamson law not being upheld by the supreme court. In quarters close to both factions it was said a tentative agreement already had been reached and the conference tomorrow would be held to settle the details.

WALKOUTS SHOW MEN WERE READY FOR RAIL STRIKE

By Associated Press

Connellsville, Pa., March 17.—More than 800 employes of the Baltimore and Ohio and the Pittsburg and Lake Erie railroads quit work here at 7 o'clock tonight, no order having been received announcing a postponement of the general railroad strike. No trains are being operated out of this city and equipment is being returned to the roundhouses and shops.

NEWARK.

Newark, Ohio, March 17.—Eight hundred engineers, firemen, trainmen and freight train conductors employed by the Baltimore and Ohio railroad here struck at 6 o'clock, claiming they had received no word of the strike being postponed. At 7 o'clock the engineers returned to work on receipt of official word from the chiefs of the engineers' brotherhood. Baltimore and Ohio officials said the strike will have no effect on train service.

EAST ST. LOUIS.

East St. Louis, Ill., March 17.—Several hundred railway employes here walked out tonight, claiming that they had received no notice that the strike had been postponed. None of the employes of the Terminal Railway association, however, walked out, and early reports were that the movement was confined to employes of the Big Four and the Baltimore and Ohio.

COLUMBUS.

Columbus, Ohio, March 17.—More than fifty employes of the Chicago, Cincinnati, Cleveland and St. Louis and the Baltimore and Ohio railroads quit work tonight, stating they had no official notice that the strike had been postponed.

TOLEDO.

Toledo, Ohio, March 17.—Four hundred engineers, firemen and conductors in the employ of the Lake Shore railroad were returning to their work late tonight. They refused to tell from whence came the order to return to work.

FORT WAYNE.

Fort Wayne, Ind., March 17.—Receiving no official notification of the postponement of the railroad strike, brotherhood members employed on the Nickel Plate railroad here struck at 6 o'clock this evening.

PARKERSBURG.

Parkersburg, W. Va., March 17.—The instructions from the brotherhood heads rescinding the strike order were received late tonight and the men returned to work.

WHEELING.

Wheeling, W. Va., March 17.—Eight hundred Baltimore and Ohio railroad employes struck here tonight, but returned to work after receipt of the instructions rescinding the strike order.

BALTIMORE.

Baltimore, March 17.—A number of yard crews of the Baltimore and Ohio railway of this city, Cumberland, Brunswick and other points refused to go to work at 7 o'clock tonight, claiming not to have received the postponement orders.

Y. M. B. L. Will Have Important Meet Tuesday

Announcement of the personnel of standing committees, consideration of the best plan for raising money with which to erect the new coliseum at the Cotton Palace and laying plans for securing the Palestine-Waco railroad will engage attention Tuesday night at the meeting of the directors of the Y. M. B. L.

This will be the first meeting of directors under the new administration, and President William Edmond will preside. It is possible that a committee may be named in connection with the long-deferred Brazos celebration, the lock and dam having been practically completed below Waco.

Texas Guardsmen Are Tearing Down Barracks

By Associated Press.

Corpus Christi, March 17.—Orders to dismantle Camp Scurry were received today by the Texas guardsmen and the work of tearing down the several hundred frame buildings will be begun tomorrow morning. It is expected the work will be completed in four or five days.

The dates for the departure of the Texas guardsmen are: Second Texas infantry, March 23; field hospital corps, March 24; battery A, Texas field artillery, March 25, and Third Texas infantry, March 26.

UNWRITTEN LAW IS NOT AVAILABLE, SAYS HETH FAMILY

KIN OF DEAD MAN ANSWER VIRGINIA PROFESSOR'S STATEMENT OF YESTERDAY.

By Associated Press.

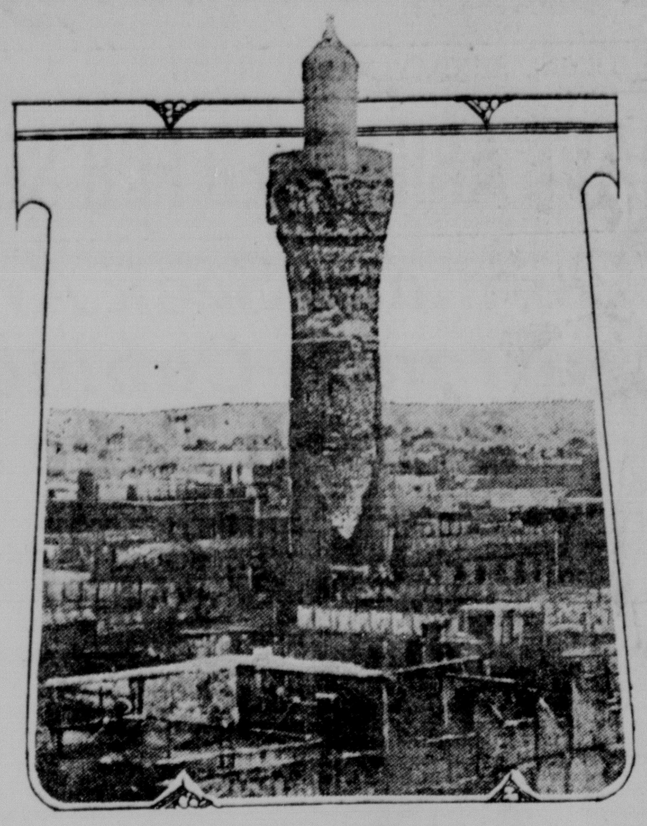

Radford, Va., March 17.—Members of the family of Stockton Heth Jr., who was fatally shot in the home of Prof. Charles B. Vawter at Blacksburg, early Tuesday morning, issued a statement tonight asserting that their investigation had shown nothing on which Vawter could base a plea of the "unwritten law."

"Inasmuch as Prof. Vawter's counsel has stated that Stockton Heth Jr. was guilty of a betrayal of friendship," the statement says, "the family feel it is only just and proper to state that from their investigations, the evidence shows Stockton was not guilty of such an offense, but there is nothing on which the accused can properly base a plea of the 'unwritten law.'"

The statement concluded with an announcement that members of Heth's family will prosecute the case.

Prof. Vawter, who was released on bond after waiving preliminary hearing, still maintained silence today, as did Mrs. Vawter.

BRITISH HOLD ON TO BAGDAD AND DRIVE FLEEING TURKS UP TIGRIS

A view of ancient Bagdad.

The British forces about Bagdad are so firmly entrenched that there appears no likelihood of the city's being recaptured by the Turks. The sultan's army is in full retreat, with the British in pursuit. There is talk in England of holding on to Bagdad and the surrounding Mesopotamian country after the war is over.

SEN. CUMMINS IN COLLAPSE AT NEW YORK

By Associated Press.

New York, March 17.—United States Senator Albert B. Cummins of Iowa was removed to a hospital this afternoon after he had collapsed during a speech he was making at the Republican club. While he protested that he did not need aid, his friends forced him to ride to a hospital, where information regarding the nature of his illness was temporarily withheld.

At the hospital it was announced that Senator Cummins' condition was not serious. His collapse was attributed to a fainting spell. He will be removed shortly to the home of a friend, it was stated.

Dallas Co. Comes Here for Good Roads Trip

Dallas county good road promoters visited Waco yesterday to investigate McLennan county roads, and to gain information for the purpose of modeling Dallas county roads in the near future. The delegation was composed of: O. D. Carley, county judge; G. W. Ledbetter, G. W. Miller, J. D. Burton, J. W. Patrick, county commissioners; J. F. Witt, county engineer; B. F. Collins, assistant city engineer, and W. H. Noble, superintendent of Texas company. A committee from the Y. M. B. L., composed of County Engineer Windrow, president of the Y. M. B. L., William Edmond, and chairman of the good roads committee, J. C. Killgore, met the Dallas delegation and carried them over McLennan county roads in autos.

"UNITED STATES OF RUSSIA."

New York, March 17.—Russians said here today that the duma is promulgating orders for the formation of a government to be known as the United States of Russia, with Prince Lvoff as president.

For cleaning flatirons an inventer has patented a honeycomb board, the opening in which are filled with beeswax.

YARROWDALERS COMING HOME

By Associated Press

Berne, Switz., via Paris, March 17.—The fifty-nine Americans who were taken to Germany on the prize ship Yarrowdale stopped for lunch in Berne today and left at 3 o'clock in the afternoon for Lyons, enroute to the United States by way of Spain.

The Italian government is experimenting with sericulture in Liyya, which produces many mulberry trees, on the leaves of which silk worms can be fed.

WHY WOMEN FADE.

This is for ladies only. Men should keep their eyes off it.

A million women today should be told what other millions have learned,—that they need one element in their blood far more than men, and that lack of it is the reason they are apt to fade many years before they should. The needed element is iron. Iron builds up the red corpuscles of the blood and sustains vitality and strength. Women need a constant supply of blood-making material, or their systems break down under the constant drain. The very moment there is a lack of blood, or when the blood is impoverished, the signal appears upon the face in sallowness of palor, and the remedy is McCroskey's Tonic, for it contains iron.

Nothing else meets this particular condition as well. Use of it has made thousands of women look many years younger and made them to feel even younger than they looked. It not only restores strength, energy and beauty, but it is a prompt and certain cure for all the ills peculiar to the sex. It cures because it removes the first cause. It supplies just what nature needs to bring health. It strengthens the debilitated organs and gives tone and elasticity to muscles and ligaments, rounds out wasted tissues and renews the vigor of the nervous system; it helps quickly and just as surely and permanently. It has been used and praised by both young and old women, and mothers should see that their daughters coming into womanhood take it. It will bring them through all right.

McCroskey's Tonic is made in Waco and sold everywhere. Ask your druggist.—Adv.

MERCHANT'S WIFE ADVISES WACO WOMEN

"I had stomach trouble so bad I could eat nothing but toast, fruit and hot water. Everything else soured and formed gas. Dieting did no good. I was miserable until I tried buckthorn bark, glycerine, etc., as mixed in Adler-i-ka. ONE SPOONFUL benefited me INSTANTLY." Because Adler-i-ka empties BOTH large and small intestines it relieves ANY CASE constipation, sour stomach or gas and prevents appendicitis. It has QUICKEST action of anything we ever sold. Powers-Kelly Drug Co.

RUMOR COMES OF DISSENSION IN GERMANY

CONTINUED FROM PAGE ONE.

reported to have ridiculed the idea of a complete German victory, saying:

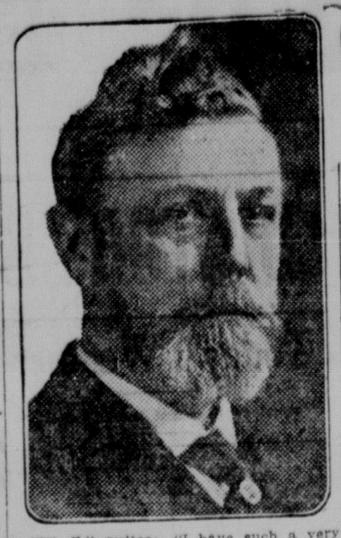

"When we attain this there will be no German soldier left alive."

"The German nation," said Hoffman, "is bleeding for the sins of those in power. It is high time (referring to the Herrenhaus) for an operation to relieve this appendix of the body politic. Absolutism has hurled Germany into the horrors of this war and turned the whole world against us. This feudalistic system of government must go."

Condemns Food Shortage.

The Koelnische Zeitung's account of the sensational debate in the Prussain diet Thursday adds details to the speech of the socialist leader, Adolf Hoffman, for which he was voted into silence. The paper says that Hoffman, amid noisy interruptions, accused highly placed functionaries of cornering food while the poorer classes of north Germany were falling ready victims to smallpox on account of enfeebled vitality.

The socialist deputy went on to declare that Germany was incurring the execration of the world through a policy of senseless provocation. The tumult increased when he denounced any idea of annexation as senseless and criminal, and the climax was reached when he stigmatized submarine warfare as a crime against international law. At this point he was shouted down and the house voted that he be no longer heard.

The DOCTOR'S ADVICE by Dr. Lewis Baker

The questions answered below are general in character, the symptoms or diseases are given and the answers will apply in any case of similar nature.

Those wishing further advice, free, may address Dr. Lewis Baker, College Bldg., College-Elwood streets, Dayton, Ohio, enclosing self-addressed stamped envelope for reply. Full name and address must be given, but only initials or fictitious names will be used in my answers. The prescriptions can be filled at any well-stocked drug store. Any druggist can order of wholesaler.

"W. Z." writes: "I have such a very severe cough and cold and have not been able to get anything to help me. It is weakening my system."

Answer: Use the following and your cold and cough will vanish and you will soon be strong again. Get a 2½ oz. bottle of concentrated essence mentholaxene and take every hour or two. This can be taken pure or made into a full pint of home-made syrup. Full directions as to use will be found on bottle. This is a mild laxative and will drive the cold from the system.

• • •

C. L. asks: "I have tried to cure dandruff, itching scalp, falling hair and baldness with numerous tonics, etc., but in vain. What do you recommend?"

Answer: I have been recommending plain yellow minyol for the past seven years, and scores of my patients are delighted with the quick, pleasant action of this remedy in stopping itching, falling hair, dandruff, etc. It gives the hair health, lustre and vigor as nothing else does. Obtain in 4-oz. jars with full directions.

• • •

H. M. B. writes: "Can you please prescribe medicine which will relieve me of such distressing symptoms of kidney and bladder, as the following: Pains in small of back, soreness in region of bladder, frequent calls at night but scanty flow with pain, burning and foul odor, puffing of limbs, etc.

Answer: Those seeking relief from kidney and bladder disorders should begin taking balmwort tablets, a very successful formula sold in sealed tubes with full directions.

• • •

Mrs. N. L. writes: "Last winter I was cured of a bad case of bronchitis by using your prescription containing mentholaxene and have been very grateful and confident of getting good advice. I wish to know of a good, safe medicine to reduce my abnormal weight about 30 pounds.

Answer: I thank you for your confidence and advise that five grain arbolone tablets is the reliable obesity medicine which I always prescribe. In sealed tubes with directions. Any druggist can supply you.

• • •

James J. asks: "For several months I have not been feeling well. My skin is sallow, my tongue is coated, have headache, am sleepless, nervous and bothered with chronic constipation. Please help me."

Answer: You need a laxative blood cleansing treatment in the form of three-grain sulpherb tablets (not sulphur). Overcome the tendency to constipation and gradually your good health and pure blood will return.

• • •

"Bloodless" writes: "I sign after my name "bloodless," because that seems to be my condition. I am pale, thin and chilly all the time. My appetite is fickle, but even when I eat a great deal I do not gain in weight."

Answer: I would advise plenty of exercise and a persistent use of three-grain hypo-nuclane tablets to increase your blood and flesh. They tend to improve digestion and the proper absorption of nourishment. A gain of a pound or two a week is not unusual.

• • •

Mrs. P. G. writes: "I hesitate to ask advice as my case is so unusual. In a word, I am tired and worn out all the time. Rest does not refresh me. I have been married over a year and formerly did not know what it was to be tired or nervous. Sometimes I feel hysterical. I fear I will become a nuisance to my husband if this continues."

Answer: Your nervous system has been depleted. You need a tonic invigorating medicine that will aid in supplying more food-enerby, to your nerves. Take three grain cadomene tablets regularly for several months.

NOTE: For many years Dr. Baker has been giving free advice and prescriptions to millions of people through the press columns, and doubtless has helped in relieving illness and distress more than any single individual in the world's history. Thousands have written him expressions of gratitude and confidence.

"TIZ" FOR TIRED AND SORE FEET

Use "Tiz" for puffed-up, burning, aching, calloused feet and corns.

Why go limping around with aching, puffed-up feet—feet so tired, chafed, sore and swollen you can hardly get your shoes on or off? Why don't you get a 25-cent box of "Tiz" from the drug store now and gladden your tortured feet?

"Tiz" makes your feet glow with comfort; takes down swellings and draws the soreness and misery right out of feet that chafe, smart and burn. "Tiz" instantly stops pain in corns, callouses and bunions. "Tiz" is glorious for tired, aching, sore feet. No more shoe tightness—no more foot troubles.

We Owe an Abundance of Thanks

To the ladies of Waco and vicinity who thronged our store during the week just passed, for the many appreciative remarks made of our big, new store, of our high quality stock, of our service, etc., and for the new business we have secured.

WE WILL MAKE EVERY EFFORT

In our power to maintain and, where possible, improve both our stock and service and ask you, who have not already done so, to

THE PRESCRIBING OF EYEGLASSES

Especially in overcoming frontal headache, neuralgia in the temples, pain in the back of head extending down into the shoulders and spine, cross eyes and eyestrain cannot be conducted on a mercantile basis for the reason that it requires more than a mere pair of glasses of the most ordinary make to subdue these troubles.

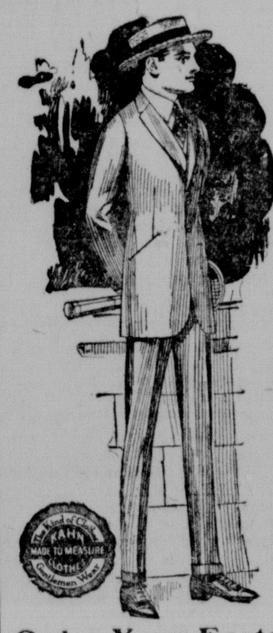

The optometrist who takes cases of this kind must necessarily not only know how to fit them properly, but must know what is required in the future in regard to making proper changes and how to advise the wearing of glasses for the many different defects, etc., etc.

Skilled labor cost a trifle more in the beginning, still it is much more satisfactory and cheaper in the end.

If your eyes are in need of attention have them examined at The Exclusive Optical Store, where science and skill prevail—At the Big Spectacle Sign.

Waco Morning News

WACO, TEXAS, SUNDAY, MARCH 18, 1917.

BAYLOR STUDENTS TO BEGIN TERM-- EXAMS LAST WEEK

HUMOR CONTEST TO FEATURE STUDENT ACTIVITIES IN NEAR FUTURE, IS ANNOUNCED.

Students at Baylor university spent the past week in taking examinations. The regular spring term begins tomorrow, as classification for studies was completed two weeks before examinations were held.

Information comes from the officials of the students' self-government association to the effect that Baylor students will have the privilege of entering a humor contest, open for students of Texas colleges.

For the best humorous story written by a Texas college student during the year 1917, a complete set of Mark Twain's works will be given as a prize. The prize is to be given by the editor of the Texas Journal, Dr. H. T. Musselman, through the Texas Intercollegiate Press association.

The award of the prize is to be in accordance with the following rules: "Contesting contributions must be in the hands of the corresponding secretary six weeks before the annual convention of the Intercollegiate Press association. Each contestant shall send five typewritten copies of his contribution. After the contest one copy shall be retained by the executive staff for publication. The other copies will be returned to the parties submitting them.

Work will begin in the immediate future on the large senior gate to be erected at the entrance of Carroll field, according to a report from a committee in charge of this activity for the seniors. This report was made at the last regular meeting of the seniors this week, and according to their plans work will probably start by the middle of the present week.

After this matter of business had been disposed of, quite the interesting program was rendered by members of the class. A quartette consisting of Al McGaughey, Charles Bridgman, Hardeman Poole and Joe Baines, sang "And They Called It Dixie Land." Miss Honora Silbert rendered a pleasing piano solo. After the program refreshments were served.

"Fish" at Baylor are eager for caps to distinguish them from ordinary students, according to report listed in the weekly Lariat at Baylor. The caps which they have chosen for this purpose will consist of a mixture of green, gold and gray. The committee from the class working on mounting the old Baylor bell report the bell now at the foundry where a broken part is being repaired.

Members of the sophomore class were in charge of the program at the Y. M. C. A. this week and rendered quite an interesting program. "Temptation" was the subject discussed under several main heads.

"What Temptation Really Is and How College Men Are Usually Tempted" was brought forth by R. E. Managan; "Causes of Temptation," Dewitt Byrom; "Why We Are Tempted," W. M. Read; "The Results of Yielding to Temptation," Hilton E. Howell; "The Happiness and Joy That Come to Us When We Overcome Our Temptations," Charles Culpepper. The program was closed with the reading of the poem, "Being a Man," by J. H. Wooters, the chairman.

One of the most interesting and enjoyable numbers on the program was a violin solo by E. F. Fisher.

Each of the speakers had a message to deliver, and the program was so carried out that it was a great source of inspiration to all those present.

The freshman class, with Herbert P. Gambrell as leader, will have charge of the program tomorrow night and all the men, especially freshmen, are urged to attend, for these class programs are proving especially helpful.

Miss Mae Cagle, student at Baylor university and president of the State Missionary Volunteer union, announces the program for the fourth state conference to be held at Austin, March 23 to 25. Baylor university will be represented with a large delegation, the committee in charge announce they hope to carry a half hundred students from Baylor.

The following is the program for the conference:

Friday evening, March 23—

7:30, song and devotional service.

8, announcements.

8:15, keynote address, Dr. Robert E. Vinson.

9, "Opportunity," Mrs. Franklin Ray.

Saturday morning, March 24—

9:15, song and devotional service.

9:45, appointment of committees.

10, conferences on missionary activities in student life; general discussion, Miss May George White, presiding; "Mission Study," Miss Margerite Stuart; "Missionary Literature," Miss May George White; reports from band leaders.

11:30, address, Rev. Harris Masterson.

12, prayer for missions, Charles G. Hounshell.

12:30, noon recess; luncheon, Y. W. and Y. M. C. A. as hosts.

Perhaps one of the most interesting speeches that has ever been given in the dining room of G. B. hall was made Monday evening by Rev. Mr. Barro of Tampico, Mex.

Rev. Mr. Barro is pastor of the First Baptist church of Tampico, coming to that city in 1905 from Spain. Previous to that date he worked at different times in Spain and Cuba. It is interesting to know that, although in his church in Mexico five nationalities are represented, Rev. Mr. Barro does not speak English at all. He has two daughters in school here, one of whom interpreted in a most interesting way the speech of her father.

Seven members of the Haney house at 720 Speight street, gave a dinner party at the Hotel Raleigh last Saturday evening in honor of C. N. Coleman who is leaving for his home at the close of the winter quarter. J. Lane Denson was the toastmaster for the occasion. Following the dinner, the party enjoyed a box party at the Auditorium theatre.

Those attending were C. N. Coleman, J. Lane Denson, H. K. Edwards, George Farrington, Walter Dossett, Paul Pierce and Robert Pool.

2, "The Call and Preparation of the Missionary," C. G. Hounshell.

2:30, business meeting, election of officers.

3, boat ride on Lake Austin.

Saturday Evening—

7:30, missionary musical program; special music, S. M. U. quartet.

8, address, "Foreign Missions and the World Situation at Present," O. D. Wannamaker.

8:45, address, "The Medical Missionaries' Opportunity," Dr. J. L. Kesler.

Sunday Morning, March 25—

9:30, Sunday school hour (delegates attending Sunday school class of their choice).

11, missionary sermons preached by pastors in various churches adjoining campus.

Sunday afternoon—

3, "Why I Am a Student Volunteer," students speaking.

4, address, "Calling Out the Called," Mrs. Franklin Ray.

7, groups of delegates in charge of various young people's societies.

8, farewell service for all delegates. Address, "The Surrendered Life," Chas. G. Hounshell.

In addition to the names which appear on the program there will be several returned missionaries, as well as other college men. Delegates will have an opportunity to have private conferences with these.

as against $4,824,000 in gold before the war.

Woodmen Convention.

Delegates and visitors to the number of 6,000 to 8,000 will be in Waco from March 26 to 30 inclusive; the accommodation committee requests that all hotels and boarding and lodging houses proprietors and all others who may wish to accommodate any number of the visitors communicate with them at once in writing with the following information: Name, street number, phone number, number of persons that can be accommodated with lodging only or lodging and board and rate per day per person, whether you prefer men or ladies or both.

Address S. J. Flood, chairman W. O. W. hotel and accommodation committee, 121 South Eighth street. No phone or personal requests will be acknowledged.—Adv.

Women are Enthusiastic Over Goldstein-Migel Fashions

—and Why Shouldn't They Be?

Goldstein-Migel fashions, as depicted in our present comprehensive showings, are exactly in line with the demands of the season. There isn't a jarring note anywhere. Correct style—accepted materials, becomingness, finish—all the requirements which you seek in your Spring apparel are combined with delightful cleverness in these charming garments.

The Coat Dress, introduced in the winter, holds its place of favor among the spring modes—and well it may, for nothing could be more attractive than the models we are showing in this style!

They are white, or in light and dark colors—Taffetas and Crepe de Chine, Khaki-Kool and Pongee, the latter two being stenciled in colors, which is the latest mode of all.

Then there are strictly tailored models, and Sport Dresses—oh, yes, just WONDERFUL Sport Dresses. Many of them are white—white, you know, is in particularly high favor now; the White Dresses with girdle and collar and cuffs in high colors are very effective—as are also those with the new Chinese Embroidery.

—Women will not wait until Easter to buy their Spring clothes; Easter is three weeks away, but SPRING is here now! And such wonderful garments are here, ready for you to put on and be in keeping with the season!

These Suits are Fashion's Favorites

—The Prices Range From $16.75 to $64.50

Many of these are of Tricotine, the season's favorite Woolen Suiting; it's a cross between Serge and Gabardine—and it is made up into smart Tailleurs, without trimming except as to pockets and belts, braid-bound and with buttons—styles which are more "severe" than any you've seen in several seasons.

Blue is a much-favored color, and Beige and Grey are very popular. The two-tone Jerseys and the Khaki-Kools and the Pongees—here you find the Sports influence at its height—gorgeous colors and striking styles.

This Week We Specialize on Lovely Dresses at $29.50

Grosgrain, Pussywillow and Satin-finish Taffetas, Crepe de Chine—the straight-line, "chemise" type is the most popular—and we have just "styles and styles and styles" of them, in all colors—remarkable values at the price.

A Truly Wonderful Showing of Tailleur Suits at $34.50

Much interest centers in this very popular "middle price"—and the splendid Suits we offer at this price are worthy of interest! A variety of styles which permits the widest range of choice—Serges, Gabardines, Velours and Wool Jerseys, with effective collars of fancy silk and bewitching touches of colored embroidery. The chief shades of color are Green, Grey and Blue, and there are also many smart models in checks.

Swagger Silk Sweaters

All the wanted Spring colors—and their name is legion. Many of these beautiful new Sweaters are in two-color combinations, and there are all sizes. Prices are ..$7.50 to $24.50

You Can't Help Liking These Petticoats

Taffetas, Tub Silks and Jersey-tops, made with clever touches of style which appeal to your love of the beautiful. The Tub Silk Petticoats have double panel front and back; prices are .....$5.00 to $11.50

This week we show a newly received collection of Taffeta and Jersey-top Petticoats, in all the shades and styles, at .....$3.98 to $12.50

Our Annual March Sale of Cut Glass

This is a sparkling collection of the newest designs in beautiful hand-made Crystal Cut Glass—very greatly underpriced. Buy now for the gifts you'll be making later on—and for your own use, too—for the values are wonderful.

Flower Vases, Compotes, Fern Dishes, Jelly Dishes, Fruit Bowls, Celery Trays, Ice Cream Trays, Sugar and Cream Sets, Water Pitchers, Mayonnaise Dishes, Orange Bowls, Flower Baskets, Salad Bowls, Fern Dishes, Nappies, Whipped Cream Bowls, Cake and Sandwich Plates.

You Can Choose Your Own Style in Coats This Spring

There are styles for every taste—and materials, too. Silk Pongee, Jersey Silks, Wool Jerseys, Taffetas, Gabardines—in varied lengths, trimmed in striking fashion—such as white stitching, large collars, fancy belts and buttons. Prices range from .....$14.50 to $39.50

Our assortment of Plaid Coats is very comprehensive, including every new check and mixture, in Green, Yellow, Gold, Red, Blue—prices range from .....$4.98 to $19.50

See These Skirts at $12.50

They're a Wonderful Achievement in Value-Giving.

They're the latest Spring models, in plaids, stripes and solid colors, including color-combinations; made with latest belt styles, with large buttons, also in the swagger "peg" models. They are a special leader at this price—when you see them you'll wonder how we are able to offer them at so low a figure.

The Goldstein-Migel collection of Spring Skirts features all the most wanted styles, including many which are not to be found anywhere else. Velours, Wool Knit Jerseys, Khaki-Kool, French Serges, Wool Poplins, Silk Taffetas and Shantungs—priced from .....$4.98 to $34.50

The Mother Who Wants Her Girls to Be Prettily Dressed—at Reasonable Cost—Should See Our Girls' Spring Dresses.

The New GOSSARD CORSETS for Spring

While retaining all thoses qualities that have characterized and famed Gossard corsets in past seasons, they strike a new note in corsetry—a subtle change that is reflected in a more delicately beautiful outline and in an even more graceful flat back.

Youth is the keynote in the style of these new Gossard models.

Without any undue pressure you are assured absolute comfort and freedom of movement because the Gossard secret of scientific boning assures the most perfect support where it is needed; proper breathing is induced and the whole body thrown into the healthful poise advocated by your physician.

The New Gossards for Spring and Summer

The new models vary in height of bust and length of skirt—as they should—to meet the individual requirements of the various figure types, but the general tendency is toward less corset, lower bust and shorter skirts with a smaller waistline indicated by skillful designing rather than actually expressed.

Be fitted today to one of the many models designed for your figure type at $2.00, $2.50, $3.50, $4.25, $5.00 and up. An expert corsetiere who understands your corset problems will deem it a pleasure to fit you without obligation.

Justrite Corsets $1.00-$5.00
BonTon Corsets $3.50-$8.50
Nemo and Warner Corsets

DARKEN YOUR GRAY HAIR

WITH LA CREOLE — NO DYE. HARMLESS.

Gray hair, prematurely gray, faded thin, wiry or falling hair, or gray in spots, or gray beard and mustache is a serious condition. It makes you look older and is a handicap to business or social success. So overcome this defect in your hair by applying (by easy directions on bottle) the famous La Creole Hair Dressing to your hair and scalp. In a few days you will be delighted to see every strand of your hair and all your gray hair gradually turn to even, beautiful dark shade, so perfectly that not even a trace of gray shows. Besides, all your hair becomes soft, radiant with beauty, health, flossy and lustrous, and evenly dark and handsome. Your thin hair becomes thick and new hair sprouts out all over your head. La Creole is pleasant to apply, is perfectly harmless and sold on a money-back guarantee by druggists or sent prepaid in a big bottle for $1. Address Van Vleet-Mansfield Co., Memphis, Tenn. Pay a fair price for the best hair dressing, which is La Creole.

SOCIAL NEEDLECRAFT WITH MRS. JACKSON.

The Social Needlecraft met Thursday with Mrs. J. M. Jackson of South Eighth street. After a short time spent with the needle work, which is one of the reasons for the club's existence, a very instructive demonstration in domestic science was given by Mrs. R. P. Teaff and Mrs. Jackson. A trout was baked most deliciously and served with tomato sauce and the best kind of corn bread muffins, in the presence of the whole club.

After the demonstration, a contest suggestive of St. Patrick was introduced and the first prize went to Mrs. T. J. Gross, while Mrs. E. Clements received the consolation. Shamrock favors were presented to each of the guests.

Misses Louise Head and Helen Havoshell entertained with vocal and instrumental selections. At the conclusion of the program an ice with cakes was served.

Guests other than club members were Mesdames A. Crutcher of Abilene, W. E. Compere, E. Clement, W. G. Moran; Misses Head and Havoshell.

Mrs. E. P. Houser of Clay street has the Social Needlecraft for the next time, the last day of the month.

STAG DINNER FOR MR. PROVENCE

Mrs. E. W. Provence invited thirteen of the Baylor faculty to call upon Mr. Provence in honor of his birthday on Thursday. When the gentlemen had arrived they were, to their surprise, conducted to the dining room, where a beautifully appointed table, with gorgeous birthday cake, awaited their approval.

The center piece of the table was of many colored sweet peas. The room was lavishly decorated with pot plants and all kinds, together with delicate cut flowers redolent of spring. The place cards were Japanese, hand painted, and very odd. A ten course dinner was exquisitely served. The gentlemen were delighted, and the general opinion was that Mr. Provence would confer a great favor upon the Epicurean Baylor faculty members if he could make it convenient to double up on birthdays. Mrs. Provence was voted unanimously the most charming of birthday surprise providers.

Those present were Dr. J. W. Downer, Dr. A. J. Armstrong, Dr. J. M. Wright, Prof. W. H. Pool, Dr. J. L. Kesler, F. M. Allen, Dr. A. J. Hall, John K. Strecker, J. D. Holcomb, H. Wells, Dr. S. P. Brooks, S. R. Spencer and Prof. Henry Trantham.

B'NAI B'RITH DAY

An evening of instruction, entertainment and of philanthropic endeavor will be had at the Temple at 8 o'clock this evening. The affair is under the auspices of the order B'nai B'rith. The order fosters and maintains a number of institutions. Chief among those institutions are the orphans' homes. On B'nai B'rith day an appeal is made for the support of these homes.

The program follows:

Organ prelude, Miss Amelia Lewin.

Violin solo, Mrs. Alexander H. Sanger.

Address, Dr. George Fox of Fort Worth.

Vocal duet, Mesdames P. J. Sanger and H. Sacks.

Owing to the fact that this meeting will begin promptly at 8 o'clock, the Y. M. H. A. will meet at 7 o'clock sharp. Dr. Fox of Fort Worth will speak.

LITERARY CLUB WITH MRS. NETTLES.

An important meeting of the Literary club took place on Thursday at the home of Mrs. B. C. Nettles at 3:15. Twenty-two members were present. The afternoon was given over to a reading of the program for the next year. The proposed program was enthusiastically accepted, a prospectus which shows a travelog of unusual interest. Many countries are to be visited, and the members are to study privately all appropriate books of travel which are available.

The following officers were elected: Mrs. W. M. Foster, president; Mrs. M. B. Willis, first vice president; Mrs. F. A. Winchell, recording secretary; Mrs G. B. Foscue, corresponding secretary; Mrs. J. B. Powell, treasurer.

Mrs. Nettles refreshed her guests with a salad course, followed by sweets. Potted plants with many hyacinths in bloom made the rooms very attractive.

MONTGOMERY-FARMER WEDDING ANNOUNCED

The following invitation has reached out-of-town relatives and friends of Miss Montgomery and Mr. Farmer:

Mr. and Mrs. R. E. L. Montgomery will give in marriage their daughter
Emily Louise
to
Charles Shuford Farmer
on Wednesday morning, the twenty-eighth of March
one thousand, nine hundred and seventeen
at eleven thirty
The First Presbyterian church
Waco, Texas.

The closest friends of the couple have been extended invitation by telephone. No formal invitations were issued in the city.

ORGAN RECITAL ST. PAUL'S.

Fred Eggert and Mrs. Christine McConnell Rousseau will appear in a recital at the St. Paul's Episcopal church tomorrow at 8 o'clock p. m. All interested in music are invited to be present:

In Paradisum .....Dubois
In Thee, O God, Do I Put My Trust .....Spicker
Mrs. Rousseau.
Toccata and Fugue in D minor...Bach
Cantilene Pastorale.....Guilmant
Echo Bells.....Brewer
Toccata in D.....Kinder

PAUL QUINN CHORAL CLUB BAYLOR CHAPEL MARCH 29

The Y. W. C. A. of Baylor university has secured the Paul Quinn choral club for an evening in the chapel on March 29. Folk songs, negro plantation melodies, and a number of good, new songs will be on the program, which will be announced later. Those who have heard the Paul Quinn singers know what a treat is in store for them, and those who haven't can never hear anything just like it anywhere else. The club consists of a large number of mixed voices, which have been well trained and are especially adapted to the kind of program which they are to render.

MRS. F. A. GILDERSLEEVE HAS MACCABEE BENEFIT

Anticipating the need of funds for the Maccabee convention, Mrs. F. A. Gildersleeve entertained on Friday afternoon, a free will offering being accepted for the good of the cause.

A color scheme of violet dominated the decorations and the good things to eat. Violets peeped out from everywhere. A huge bunch of violets was given to the lucky bunco player, and the grape juice was exactly the shade of the modest flower. Doughnuts made by Mrs. Gildersleeve herself made the grape punch a real feast. Six handed bunco was the diversion of the afternoon.

The revenue from the party is to go to the expense fund of the Maccabees, to be applied on traveling budget, when the convention is on.

THURSDAY BRIDGE WITH MRS. POWERS

St. Patrick has been the genial spirit of the week, especially in social affairs. The opportunity for novel decorations was gratefully seized by several hostesses, among them Mrs. J. J. Powers who entertained the Thursday Bridge. Favors and score cards carried reminders of the Emerald Isle's beloved saint.

In the games, Mrs. Jesse Penix won the club favor, a Boulton plate. The club members compete for a Boulton plate every Thursday. Miss Louise Groce won the consolation, a string of green beads. A salad and ice course was served, concluding a happy afternoon.

The next meeting is with Mrs. G. H. Pate, at the Crawford apartments.

TRAVEL PARTY REUNION WITH MRS. FITZHUGH

Mr. and Mrs. E. E. Fitzhugh were hosts recently to the members of the Travel Party. The party was conducted through Europe by Dr. A. J. Armstrong, and the reunion was for the sake of Auld Lang Syne. A daughter, Mrs. Arthur Slaten, whose husband teaches in the University of Wisconsin, is on a visit to her parents.

Those who lived over the days spent in Europe were Mr. and Mrs. E. E. Fitzhugh, Miss Zoe Fitzhugh, Mrs. Arthur Slaten, Mrs. Mary E. Manton, Mrs. Nannie Boggess, Miss Lily McIlroy, Miss Eschol Taylor and Dr. A. J. Armstrong.

MISS DECCA LAMAR WEST HAS MUSICAL EVENING

Miss Decca Lamar West of Dutton street invited a few friends for a musical evening this last week. Mrs. B. H. Schroeder gave several piano numbers and John de Heck and A. C. Upleger gave vocal selections.

JOLLY MATRONS WITH MRS. W. Y. HOTCHKISS

A delightful afternoon was spent with Mrs. W. Y. Hotchkiss at her home on Fort avenue on Thursday, by the Jolly Matrons, who met according to a custom of long standing. In the contest of skill which soon engrossed the bridge tables, Mrs. Alvin Strange came off victor. The hostess presented her with a hand bag of her own making. Mrs. Ethridge Woodward was awarded the consolation, a box of linen stationery. A dainty plate was passed after the game.

The club meets with Mrs. C. E. Lyons on Garland next Thursday.

MISS ETHEL FOSTER IN FORT WORTH.

As a duchess from Waco at the horse show at Fort Worth, Miss Ethel Foster was chaperoned by her mother, Mrs. W. M. Foster and Mr. and Mrs. Louis Stephens. The party was joined in Fort Worth by Miss Grace Herandon, Cress Eaton and Granville Smith of Kansas City.

Miss Foster, together with other members of the royal party, was entertained with dinners and luncheons at the clubs. Dances were frequent, and the entire affair was a signal success from a social viewpoint.

THURSDAY AUCTION WITH MRS. LOUIS STEPHENS

The Thursday Auction met with Mrs. Louis Stephens, of North Seventeenth street. Besides the regular three tables of club players, Mrs. Stephens had two tables of guests. Mrs. Luke Moore captured the guest prize, while Mrs. Little won the club prize.

An ice with cakes and sandwiches was served, and another good time went down as history in the annals of this congenial crowd.

Mrs. L. C. Alexander of 2217 Washington is named as the next hostess.

PRENUPTIAL COURTESIES FOR MISS MONTGOMERY.

Miss Emily Montgomery, who is to be married on March 28 to Charles S. Farmer, is to be the recipient of many social courtesies during the coming ten days. Miss Marion Dilworth has spoken for Miss Montgomery on Thursday for a luncheon, and Mrs. Joe Thompson has issued invitations for a bridge party on Tuesday. Mrs. Walter Rathell is to have a Majestic vaudeville party at the Auditorium Wednesday.

MRS. W. A. ALEXANDER FOR MRS. JOHN MASSON

On Wednesday Mrs. W. A. Alexander gave a farewell party for Mrs. John Masson who leaves soon for Austin, where she will make her home. The evening was spent at the bunco tables, Mrs. Grier taking first prize.

Those who enjoyed Mrs. Alexander's hospitality were Mesdames Masson, Hollon, Hammons, Fuston, Lee, Lyons, Koch, Grier, Darrow, Misses Kate Mooney and Willie Mae Wiggin.

CALL MEETING OF SACRED HEART ALUMNI

Miss Beer announces a called meeting of the Sacred Heart Alumni association for this afternoon at 3:30 o'clock at the convent. Very important business makes the meeting urgent, and all members are earnestly requested to attend.

MRS. R. B. DUPREE DINNER HOSTESS

Mrs. R. B. Dupree was dinner hostess to quite a large number of guests on Thursday evening. The dinner was given in honor of Mr. and Mrs. Charles Irvine.

PEOPLE YOU KNOW

Mr. and Mrs. Fred C. Ewald, after several days spent with their parents, Mr. and Mrs. S. A. Oliver of East Waco, have returned to their home in Dallas.

Mrs. George McLendon has returned from a week spent at the horse show in Fort Worth. Many social courtesies were extended Mrs. McLendon while in that city.

Dr. Frederick Eby of the State University, motored to Waco with his family to spend the week-end with Dr. and Mrs. A. H. Newman.

Mr. and Mrs. Charles L. Simpson have returned from Parsons, Kansas. Mrs. Simpson was formerly Miss Leda Legett.

E. L. March of Detroit was in Waco yesterday.

Nat S. Smith is in Cuero for a few days.

C. B. Shelby of Hillsboro was in the city yesterday.

Col. W. M. Manchester has returned from a visit to Fort Worth and the meeting of cattlemen. He also visited Mineral Wells while away, finding Mrs. Manchester getting along well.

After a short visit to Waco, Comptroller H. B. Terrell has returned to Austin.

W. D. Dobbs of Brownwood spent yesterday here.

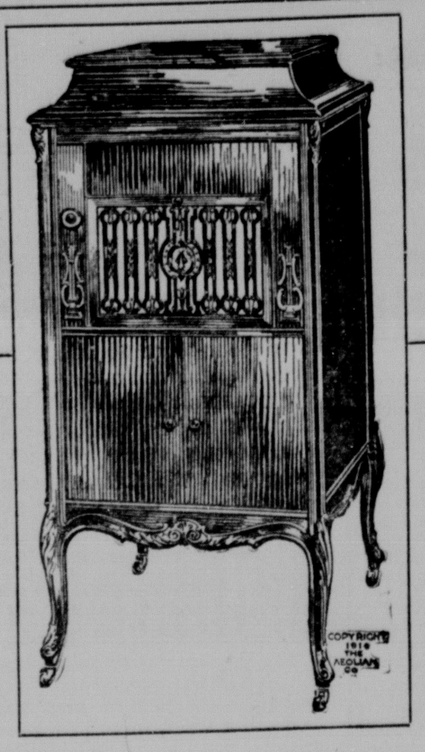

Editor W. L. Warrock of the Rosebud News was a Waco visitor yesterday.

J. A. Youngblood of San Antonio was here yesterday.

Don't wait till morning to order your drugs. We are open all night. Free delivery. Stetler's Drug Store, phone 159. (Adv.)

MOVIE ACTRESSES AND THEIR HAIR

Did it ever occur to you that every movie actress you have seen has lovely hair, while the most popular count their curls as their chief beauty? In fact, many are leading ladies just because of their attractive looks. Inquiry among them discloses the fact that they bring out all the natural beauty of their hair by careful shampooing, not with any soap or makeshift, but with a simple mixture by putting a teaspoonful of canthrox (which they get from the druggist) in a cup of hot water and applying this instead of soap. This full cup of shampoo liquid is enough so it is easy to apply it to all the hair instead of just the top of the head. After its use, the hair dries rapidly with uniform color. Dandruff, excess oil and dirt are dissolved and entirely disappear. The hair is so fluffy that it looks much heavier than it is, while its lustre and softness is delightful.

THE AEOLIAN COMPANY

Anniversary Program Enjoyed by Union

Wm. J. Bowen of Indianapolis, international president of the Bricklayers and Masons' union, was the guest of that organization Friday evening at the Labor Hall, the occasion being the observation of the twenty-fifth anniversary. President R. L. Harrison of the local union presided and brief talks were made by two other visitors, H. C. Bates and H. C. Sneed of Dallas, and several prominent Wacoans. Charter members were given boutonnieres with the compliments of Wolfe, the florist.

HAVE YOU POTATO LAND?

If you have I will furnish the seed on shares. Write Box 4, care the Morning News.—Adv.

"I Wish I Had Her Complexion"

"Is This Your Wish? You Can Have It, My Dear," Valeska Suratt, the Self-Made Beauty of the Stage, Whispers Secret Ways of Sure, Quick Beauty.

BY VALESKA SURATT.

YES, I can see you all listening silently for the one great secret,—the answer to every woman's wonderment,—how to make her complexion supremely beautiful! This is a secret which, today, thousands of women know, to their exquisite happiness. Several weeks from now you will say to yourself, "I never thought such a thing possible!" What I am giving you is a new way and a positive one. It is simple, you make the cream at home yourself in a few moments, like this: Mix one ounce of zintone and two tablespoonfuls of glycerine in a pint of water. It forms into a cream, ready to apply. As you see, this is far cheaper than any of the prepared creams you buy and which do not produce the results. Now apply this cream freely every day. You will soon notice every muddy spot, blotch, roughness, irregularity of color, vanish, and in its place will appear a beauty and purity which you little realized could come to you.

* * *

ANSWERS TO QUESTIONS.

MISS G. P. S.—I have known many cases where the bust has been developed several inches in a month by the use of the following safe formula. No one can promise that development can be accomplished in every case, and surely never by mechanical appliances, which are dangerous. This formula should do it, though, if anything can. Get from your druggist two ounces of ruetone, add half a cup of sugar and mix in half a pint of water. Take two teaspoonfuls after each meal and at bedtime.

* * *

BRITTLE—You know that on every scalp is constantly forming a film of grease and scale which neither soap nor many of the soapy shampoos will remove, even with scrubbing. But dissolve a teaspoonful of eggol in half a cup of water and use as a head wash, and it will surprise you how it literally dissolves away every bit of these accumulations. Clean scalp is one secret of healthy, luxuriant hair. For twenty-five cents you can get enough eggol to give you over a dozen of these glorious head-washes.

MISS Z. N.—With my hair-growing formula given below, hair-growing of almost an inch a month is by no means an uncommon occurrence. And the ingredients are very simple. After mixing, you have over a pint of a most remarkable hair grower, and costing you less than prepared "tonics" sold in the stores. You'll notice your hair will positively stop falling, grow silky and long,—some difference indeed from the results you say you didn't get by using other things. Mix one ounce of beta-quinol with half a pint of water and half a pint of alcohol (or else a full pint of bay rum). Don't be stinting with it, and you'll get wonderful results.

* * *

SUPER—Lots of you girls never heard of "dissolving" away hair. You use those "burning" creams and pastes which redden and irritate the skin. Why do it? Go to your druggist and ask for sulfo solution. Moisten the hairs with it,—and just see every hair simply dwindle away. This never fails. You can use it anywhere, even on sensitive skin. It removes every hair, never leaves a mark, and nobody can detect that you have used anything.

* * *

MRS. A. O. H.—That's too bad. Next time your druggist runs short of the neroxin for removing blackheads in a few moments, just send the price, fifty cents, to "Secretary to Valeska Suratt, Thompson Bldg., Chicago," and you will get it at once by return mail.

* * *

OLDISH—I can tell you in advance, it's a waste of money and time. You have added five years to your face trying those things. Now try my suggestion here and take those five years off again in a few days. You can do it, same as others have. This cream is a wonderful skin rejuvenator. Wrinkles vanish and the skin becomes youthful and plump. To half a pint of water add two ounces of epitol, secured from the drug store, and one tablespoonful of glycerine. Apply this cream daily and use it freely.

* * *

MRS. I. O. D.—Sprinkle some neroxin on a wet sponge. Then rub this on the blackheads. In a few moments the blackheads will have disappeared. This sounds like a fairy tale, but it's a fact. Try it.

* * *

SUFFERING—You know excessive perspiration in the arm pits is unnatural. You can regulate it completely by simply applying hydrolized talc to the skin. The trouble will stop, and any disagreeable odor will instantly vanish.

* * *

MISS T. D. G.—That face powder of mine is called "Valeska Suratt Face Powder." It was made after my own formula, to avoid that chalkiness so common to face powders. You can get it at drug stores for fifty cents, in flesh, white and brunette tints.

She Couldn't Go—Her Corns Wouldn't Let Her.

She remembered the agonies of the last dance. It kept her at home to coddle her touchy corns. She simply couldn't face the pain again.

How easy it would have been, what instant relief, if she had only known of Blue-jay. Other millions of men and women have found relief this way. Blue-jay stops pain instantly. And the miserable corn is gone, roots and all, in 48 hours.

New shoes — smart styles — have no terrors to Blue-jay users. These soothing plasters, inset with a medicinal wax, have ended millions upon millions of corns.

Many tests conducted by experts show that the first application removes 91 per cent. Stubborn cases require a second or third treatment. Why wait longer? Why suffer?

Of Interest to Women

Y. W. C. A. NOTES AND INTEREST.

On Tuesday at 8 o'clock there will be a St. Patrick's party for all the gym classes, given by the Hikers club. Each person attending is asked to wear bloomers and middy.

On Friday at 8 o'clock the two C. O. D. teams will play the semi-finals of the volley ball tournament. The winning team will play Aurora Y for the championship next week.

If there are ladies who would like to play volley ball at the Y. W. C. A., the physical director will be glad to arrange a time for them.

Your Easter Dress.

Miss Kindley and Miss Burkhalter of the high school faculty will teach classes in dressmaking and in plainer sewing, as tub dresses and children's dresses and underwear. Also a class in shirtwaists and skirts is provided for.

The school board has consented to allow the use of their equipment for both the sewing and cooking classes.

Please register at once with the Y. W. C. A. secretary, Miss Lena Wood, to insure a place in the class which we hope to begin Tuesday, March 20.

And Your Easter Dinner or Easter Entertainment.

Miss Hilton will teach a class in fancy cookery, and in this way you can become your own caterer for the attractive pastries, cakes and service decorations that the particular hostess wishes to have when she entertains, and which are almost prohibitive in price when bought, if they can be bought at all.

Classes in plain cooking will be taught, also, by the domestic science department at the high school for the Y. M. C. A. membership.

Enrollments for these classes must be made at once, as the class will begin next Tuesday, March 20, at the high school building, if a sufficient number has enrolled.

We must have an enrollment of not less than twenty to be able to have the class. For further information, 'phone Miss Lena Wood at the Y. W. C. A.

Easter Baskets.

The Y. W. C. A. class in basketry will begin on next Tuesday, March 20, with Miss Lillie Martin as teacher, if as many as eight will enroll by that time.

Miss Martin will meet all those who care to take this work at the Y. W. C. A. rooms Tuesday at 3:30 o'clock to consult as to the materials needed, etc.

Membership Campaign.

During the birth month of the Y. W. C. A. in Waco there will be begun a vigorous campaign for enlarging the membership and for re-enrolling those who are already members. The board requests all those whose minds are made up to join or to renew their membership to call in person upon the secretary, Miss Lena Wood.

Membership at the Y. W. C. A. Means

Membership in a worldwide organization.
Every girl has an opportunity to join Bible and educational classes.
Measuring one's life by the highest ideals.
Best fellowship in the city.
Entertainment, recreation and growth.
Representation in an ideal democracy.
Share in definite force for good in Waco.
Help to grow into fuller Christian womanhood.
Inspiration of Christian leadership.
Participation in a well-rounded life of work, play and service.

Vesper Services.

Vesper services will be held as usual in the Y. W. C. A. rooms this afternoon at 5 o'clock. Mrs. F. M. Longley will lead, and vocal selections will be given by Miss Mattie McLellan. The attendance at these services has been very gratifying to those in charge, and as warm weather approaches the number who enjoy the services is expected to be materially augmented.

Accepts Position.

Miss Mildred Corbin has accepted a position as physical directress of the Ladies' auxiliary of the Y. M. C. A. at Temple. Miss Corbin secured her position through Miss Andrews of the Y. W. C. A. of this city, and it was the training received at the Y. W. C. A. that made it possible for her to take the position.

DEAN HIGHLAND PARENT-TEACHERS.

In the beautiful and artistic new school building which is now in use at Highland Place has called into existence one of the best parent-teacher associations in the city. The teachers and the parents have seemed to realize the urgent necessity for co-operation in their endeavors to make citizens of the children in their charge, and on November 3, 1916, this desire crystalized into what is known as the Dean Highland Parent-Teachers association.

At this initial meeting Mrs. W. A. Hall was elected president, Miss Kathleen Vance secretary, Dr. J. F. Dean first vice president and chairman of the program committee; Mrs. Will Mistrot, second vice president and chairman of the membership committee; Mrs. C. P. Link, third vice president and chairman of the entertainment committee; Mrs. Mary Austin, corresponding secretary.

Affiliation with the State Federation of Mothers' clubs was effected, and subscriptions were given to the State Federation magazine, "Motherhood."

The playground committee with Miss Ray as chairman has finished the construction of an up-to-date basketball court and is making plans to get complete playground apparatus of the most approved style.

The sanitation committee, Mrs. Joe Farmer, chairman, has kept the school house in a healthful and sanitary condition.

The magazine committee, Mrs. P. A. Duncan, chairman, has placed three magazines, "Motherhood," "American Motherhood" and "Mother's Magazine," in most of the homes of the parents.

A contest for new members has just been brought to a close, with the following figures showing the results: 25 members at the opening of the contest; 42 members at the close. This membership includes almost as many mothers as fathers.

The association has had four purely social meetings, at which refreshments were served. The purpose of the association is to make the school a social center for the community. Mrs. N. B. Kent delivered a lecture which was very enthusiastically received, as was a lecture on school gardens by a representative from the state department of agriculture. Mrs. C. C. Shumway came out from Lakeview, where there is a thriving parent-teachers association, and gave the new organization the benefit of her successful experiences.

Superintendent R. L. Abbott made a splendid talk on "Co-operation of Teachers and Parents," at the last meeting, which was Friday evening. Miss Louise Elliott, one of the teachers, read a paper on "Early Lessons in Kindness."

The aviation school being within a stone's throw of the school, an "aviation supper" was served, with Mrs. J. D. Willis in charge. The supper was a great success, both financially and socially, and the proceeds are to go toward purchasing shades for the windows and a Victor machine.

The next meeting will take place Friday, April 6, at 7:30. Prof. C. W. Morris will talk on "Parents Visiting the School." All parents and friends of the school are invited.

JEAN SHERWOOD MOTHERS' CLUB.

The Jean Sherwood Mothers' club recently reorganized and the following officers were elected: Mrs. Charles Lane, president; Mrs. Park, vice president; Mrs. Little, secretary, and Mrs. Fairly, treasurer.

Two enthusiastic meetings have been held since the reorganization. Mrs. Wilkes, president of the City Federation of Mothers' clubs, was present at the last meeting and gave much real encouragement by her presence and helpful suggestions.

The club is planning to be of much use in the community, through thorough co-operation of parents and teachers. The plans embrace assisting the faculty of Third Street school to pay for their new Victrola, arranging for regular social meetings to be held in the evenings in the school building, giving the fathers as well as the mothers an opportunity to attend, making the school an ideal social center.

Among the enrolled besides the school faculty who are doing active work are Mesdames Lane, Park, Little, Fairly, Gale, Mebus, Cooper, Overby, Willings, Wynne, Taylor, Simpson, Chandler, Huffman, Kemp, Stonard, Sanderford, Hurlock, Williams, Charloff and Rogers.

School children furnished part of the program of the last meeting. Mrs. Wynne sang "A Voice Is Calling."

The principal of the school, J. B. Poteet, is one of the most enthusiastic members of the club and is doing a great deal in the way of executive work and general encouragement of teachers and parents. More thorough co-operation than ever is earnestly desired by the mothers and fathers, as well as by the teachers of the Jean Sherwood school.

CORN DODGERS.

Sift four cups of sweet corn meal, add a teaspoonful of salt and stir in cold water, kneading all the time until the mixture is of the consistency to be easily moulded with the hands into little, oblong-shaped cakes. Place these cakes in a baking pan and bake until a brown crust has been formed. This is an excellent breakfast dish served with strained honey or maple syrup.

DAUGHTERS OF THE REPUBLIC OF TEXAS TO MEET MONDAY.

The Daughters of the Republic of Texas will meet tomorrow afternoon at 3:30 at the home of Mrs. Jennie Holmes at the residence of Mrs. Layton Puckett.

The program will include the joint programs for March 2 and March 6, Independence Day and the Fall of the Alamo. Mrs. R. L. Henry, the president, who has returned from Washington, will preside.

A full attendance is desired, as a very interesting program, appropriate to the two great days represented, is to be presented.

AUSTRALIAN FIGHTER MEETS HIS MATCH

Les Darcy and Jane Lee ready for battle.

GOVERNOR Whitman issued a decree that Les Darcy, the Australian fighter and slacker, must not be permitted to stage a bout anywhere in the state of New York. It is whispered, however, that this photo was taken just a few days ago in New York City. That the little movie starlet is not afraid of the big Australian is shown by the pugnacious expression on her face.

A recording meter has been invented to measure the amount of steam used in an industrial plant and check waste.

FERD T. HOPKINS & SON, New York

Use Newbro's Herpicide
IN TIME AND YOU WILL NEVER NEED FALSE HAIR

Wearing false hair is a harmless deceit of which many ladies are guilty. These women are all objects for sympathy rather than criticism.

Early neglect in the care of the scalp has caused the loss of so much hair that their personal appearance is sadly marred. To correct this defect they resort to artificial hair hoping by so doing to hide the results of their earlier inattention to the details of their toilet. These unfortunates are deceiving no one but themselves as no artificial hair no matter how costly, ever has the snap and luster nor can it be made to look as pretty and attractive as natural hair.

Most ladies would resent any imputation of personal carelessness and neglect. And yet very many permit their natural hair to become so dull, brittle and lusterless that it looks no better than that bought at the store.

All this is as unfortunate as it is unnecessary. Hair that is unsightly or thin may usually be attributed to the destroying effects of Dandruff. This destructive formation shortly robs the hair of life, with the result that it finally loosens and drops out.

There is a preparation, sold and guaranteed by all dealers, the intelligent use of which will kill the dandruff germ. It cleanses the scalp of all accumulations and makes the hair shine with the luster of life and beauty. That remedy is Newbro's Herpicide, the Original Germ-Remedy for Dandruff. In no way can you add more to your personal charm and attractiveness than by the use of this remarkable and well known scalp prophylactic.

On account of its astonishing merit and its delightful and exquisite odor, Herpicide finds users everywhere among all classes. It may be purchased in 50 cent and $1.00 sizes at all drug stores and toilet goods counters. Applications may be obtained at the better barber shops and hair dressing parlors.

Upon receipt of 10 cents in postage or silver to cover cost of packing and mailing, The Herpicide Co., Dept. S, Detroit, Mich., will send to any address a nice sample bottle of Herpicide and an interesting booklet on the care of the hair.

Jewett Refuses to Make Railroads the Goat

Attention has recently been called to the serious situation which prevails in the automobile industry—one feature of the national food-fuel-freight congestion. In some quarters it has been estimated that the value of the Detroit-made motor cars held up or in storage, due to the failure to move freight, totals $10,000,000.

Various explanations for this crisis have been made, but no one has given a keener analysis of the situation or has gone more vigorously or fearlessly into the heart of the matter than Harry M. Jewett, president of the Paige-Detroit Motor Car company. And, incidentally, Mr. Jewett's point of view is both new and startling.

Who is to blame? the public asks.

With industries crippled and in momentary danger of a complete shutdown, with the fuel situation so serious that the country shivers from fear as well as from cold and with the high cost of living breeding riots and famine the public is now engaged in the over-popular American sport of hunting for the villain of the drama.

"Let us investigate," is the cry, and committees and commissions get to work.

The war is responsible—the Germans did it—the president is guilty—the food and fuel speculators are the cause—the railroads are the criminals—all these explanations and charges are advanced, according to the prejudices and predilections of the individual.

Mr. Jewett, however, comes out flat-footed with a vigorous accusation that the people—the great American people—are to blame. The public is now suffering for its own sins, its own short-sightedness, its own selfishness and is stewing in its own guilt.

"The machinery for the distribution of food, fuel and general freight has undoubtedly broken down," says Mr. Jewett. "It is woefully inadequate to meet the demands now made on it. We in the automobile business are—and have been for some time—in a serious predicament. Millions of dollars worth of cars are now in storage in Detroit because they can't be shipped. The summer drive-away day has become a daily winter feature, and dealers, to secure deliveries are now coming to the factories and driving their cars home, in some instances more than 500 miles away. Raw materials, parts, supplies of all kinds have been held up in transit and therefore production has suffered. This is the automobile situation in brief, but, as every one knows, it represents but a fraction of the countrywide impasse.

"Now, while this condition is due directly to inadequate transportation facilities, I, for one, refuse to make the railroads the goat. For a quarter of a century it has been the popular sport in America to damn the railroads and public service corporations—factors in our daily life that are just as necessary as the food and fuel we are clamoring for. For a quarter of a century it has been the delight of the public to scorn, abuse, hold-up, hector and harass these companies in every possible way. They have been taxed to death and every attempt made to increase their revenues by a slight addition to the freight rates has been fought tooth and nail. They can't increase their rates a tenth of a mill without a battle before the interstate commerce commission that may last for years. Yet freight rates in this country are the cheapest per ton per mile of any in the world. The railroads are the public's favorite goat while the public service corporations are the mainstay of municipal politicians. For twenty-five years the local political cry has been the Detroit United Railway issue and the result is wretched service and inadequate equipment, but the public permits it, suffers it and suffers for it. It is the same in other cities.

The attitude of hostility on the part of the public toward the railroads and the public service corporations, and the stupid manner in which the people permit the professional politicians to make these companies the football of politics has this result: Railways and public service corporations cannot get money to develop their properties, increase their equipments and thus meet the demands growing out of our enormous industrial expansion. As investments they are more or less discredited because the dividends are neither generous nor regular. Why should we invest in railroad securities when one can get better returns from other stocks and bonds—securities that are not endangered by fickle and prejudicial public opinion?

"Detroit has not sufficient or adequate terminal facilities to meet the transportation conditions that have developed; and I venture to say that no other American city has. The railroads have not had money or encouragement to meet these conditions. The public has seen to that. Consequently the machinery has broken down and we are in a horrible mess. I refuse to make the railroads the goat. The public is to blame. It's up to the people."

THE REAL THING

In olden days, when men drove nags, we filled the air with boasts and brags. We used to gather at the store, and while our whiskers brushed the floor, each told big tales about his steed, which was a miracle of speed.

But no one talks of horses now; as well make brags about your cow. We all have motor cars these days; and each, of course, has words of praise for his own car, which is the best that ever traveled east or west. Talk and talk, from sun to sun, and tell of things our cars have done; how this one swam a raging flood, and that one pulled through miles of mud, and t'other climbed great hills on high—you really ought to hear us lie!

We talk and argue by the hour about the stamnia and power of cars we bought at second hand, as thousands do throughout the land. But when a stranger comes along, whose Haynes is moving sweet and strong, we close our mouths and look away; there isn't much a man can say. For men who own that kind of boat don't need to brag or sprain a throat. The car itself its worth explains, that has the given name of Haynes.

Help me keep these men at work. They can do anything that can be done in a first-class shop. Phone 240. Dorsett, 610 Austin St.—Adv.

STURDY OLD CADILLACS STILL DOING SERVICE

Hardly a week passes but the Cadillac Motor Car company is given the opportunity to buy in one of its early models. Uusually the writer expresses the belief that his car, built a dozen or more years ago, must be among the last of its race, and feels sure the company would like to have it as a curio.

The first model of the Cadillac had a one-clyinder engine, and hundreds of these cars are running well today. It is true that not all of them are used to carry passengers, though not long ago the company received a letter from a Minnesota farmer who was still using one, after ten years of service. It was a second hand car when he bought it in 1905. Many of these old cars have been turned into delivery wagons and are running as faithfully as ever.

Other owners have written in that they have dismounted the engines and now use them to operate farm machinery, or for developing power in small manufacturing plants, machine shops, etc.

In January the Bank of the Netherlands had more than $14,000,000 in gold,

Studebaker Smashes Australian Records

On the eleven mile hard sandy beach at Southport, Queensland, all Australian speed records for stock model cars with special racing bodies have just been broken. Piloting a Studebaker Six, Driver A. Jewell bore off the honors of the meet by speeding a mile in forty-four seconds, with F. Z. Enger, driving an Overland four, only three-fifths of a second behind. Both cars made numerous trials under the auspices of the Queensland Automobile club, with different makes of tires, but established the new records on Goodyear Cord tires.

If your lights are dim and your starter weak, it is a sure sign of a dead battery. Ring 3311 for a service battery. Waco Storage Battery Co.—Adv.

SAXON SIX

$950.00 f.o.b. Waco

The Only Car Selling for Less Than $1000 with a Six Cylinder Continental Motor

The Test We Give The Saxon —Last Fall during the Texas Cotton Palace, a Saxon Six, taken from our salesroom, pulled and carried a load of 15,000 pounds through the streets of Waco. Traveling on "high," at a creeping pace, this car made 22 stops and starts—going up grade and down. This test proved to all who saw it that the Saxon motor is in a class by itself. No such test was ever attempted before by any other car—and no other car has tried it since.

Power —Uphill or down, on pavement or through sand and mud, the regular power impulse of the wonderful motor carries the Saxon on without delay or hesitation.

Economy —Both in first cost, gas and oil consumption and upkeep cost—Saxon Economy is one of the prime reasons why Saxon owners are always Saxon boosters.

Beauty —Beauty of appearance has NEVER been the first consideration in building the Saxon—nor will it be. Yet the cleancut lines, snappy appearance and beautiful finish of this car is one of its selling points.

Continuous Service at Low Up-Keep Cost

is the ideal for which the manufacturers of all cars have striven. If the Saxon---as we believe it does---outstrips all other makes in the satisfactory service it gives; if the Saxon more nearly approaches this ideal, it is simply because that has been the Dominant Idea of the Saxon organization.

SERVICE MEN TAUGHT TO KNOW AUTOMOBILE

SCHOOL TO TEACH PUPILS ABOUT CAR MAINTAINED BY THE CADILLAC COMPANY.

Going to school in overalls, working hard in class, and ending the course with an examination including a drive of the automobile—this is an experience no boy's school days ever included, but it is what happens as a regular thing to the service men's class at the Cadillac plant in Detroit.

A standard Cadillac Eight is the subject on which the pupils are instructed. The school is made up of the service men employed by Cadillac dealers all over the country, and Cadillac owners are the chief beneficiaries of the instruction they receive while in charge of the factory expert.

The course covers a period of two weeks. The first work is to take down the car completely. Then begins the work of reassembling, and as this progresses, particular attention is given to the various adjustments. Special instruction is given on the electrical system and an insight into Cadillac manufacturing methods is afforded by a trip through every department of the plant.

After the car has been reassembled comes the real test. The class is taken for a ride in the car. At a convenient spot the instructor stops the car and the class is invited to alight and become interested in the surrounding country. While they are so absorbed, the instructor installs a defective coil, carburetor or some other part in place of the good part, or devises some other way of disabling the car to ascertain the ingenuity of the men. The class is not permitted to proceed until the trouble has been located and remedied, and the car put in first class running order. This is followed by a rigid written examination, and the class is disbanded, to be followed by another. Each man's examination paper is forwarded to the dealer who sends him to the factory.

This school has been a feature of the Cadillac policy since 1910. The attendants come from all parts of the United States and Canada, as well as from foreign countries.

SAXON TRAIL BLAZER NOW TRAVELING BORDER

Saxon Four national boundary trail blazer was a feature of the inauguration day ceremonies in Washington previous to its start from the national capitol on its long journey around the edge of the country.

Tuesday morning, March 5, the little roadster left the Saxon salesrooms in Washington and headed for Richmond, its first big stop en route to the Atlantic coast where the boundary trip proper started. Two days later the pilot and his companion wired the factory that Richmond had been reached.

Saxon trail blazer earned the right to its name in those two days, for it blazed a motor trail over the muddiest roads that Virginia has seen in years and completed the first motor car trip between Washington and Richmond that had been made for more than three weeks, due to the mud runways that masqueraded under the name of highways.

From Richmond the car has pushed on to the coast and is now traveling southward along the Atlantic shore. It is expected that five months will be taken up in the boundary trip.

The need for a highway around the rim of the country has long been felt by many motorists who have exhausted the motoring possibilities of the present roads across the continent and seek new fields to conquer. Its value as a defensive measure has not been discussed to any extent by its proponents, but there is every indication that the government would welcome a way which would permit the rapid handling of large bodies of troops to guard the extensive coast line.

Auto Industry to Be Leader in National Defense Work

The automobile industry as an industry will undoubtedly be called upon to play a most important part in an industrial way in the work of preparing for the national defence should this country become involved in war with any foreign country. And, in addition to this, this industry is to be called upon to get ready to do its bit in an effective way by turning, in the very near future, to the manufacture in small quantities of certain articles of defence, according to Howard E. Coffin, chairman of the Council of National Defense.

Mr. Coffin, in a statement made to the Automobile, says that the automobile industry will be called upon to build aeroplanes, motor boats, motor vehicles of various kinds, tractors, armored cars, trucks, some passenger cars of the kind needed for the quick transportation of officers and men, and motors alone. Automobile plants, however, will not be restricted to the kind of manufactures to which they ordinarily give attention as many of them, those found to be best suited for the purpose, would be turned to the manufacture of metal work, such as shells, arms, etc.

On the theory that education in time of peace constitutes one of the essentials of practical preparedness, Mr. Coffin said, attention is to be given to the placing of small orders with such plants, that they may begin to assemble the machinery necessary, and instruct their workmen in the making of these articles, so that in case of an emergency the managements can turn quickly and effectively to such tasks on a big scale.

Educating Producing Resources.

The question of the education of producing resources has been given close attention by Mr. Coffin and those engaged with him in the Council of National Defence. It has been agreed among members of the council that a policy involving small educational orders is the one to pursue at this time and this policy has been fully adopted. Mr. Coffin has been placed in charge of a committee which will have to do with manufacturing establishments and munitions plants.

Mr. Coffin is now giving his close attention to the practical carrying out of this idea for the introduction of the craftsmanship of the munition maker into manufacturing establishments which have never previously made munitions. This preliminary work will precede all other steps along this line. As a result, the factory which is now engaged in the making of automobiles will not be called upon to make a departure sufficiently radical to interfere with its usual operations, but it will be urged to turn attention to a limited extent to small government orders of a particular kind for which it will be paid the prevailing prices for such manufactures.

So numerous have the automobile factories of the country become, and so extensively are they operating, that, while some might, should war come, be continued as manufacturers of automobiles of various types, alone, a very large proportion of them would doubtless be called upon to convert their plants into the making of munitions or parts of munitions.

Accessory Makers' Part.

Naturally, according to Mr. Coffin, the accessory manufacturers would be most apt to be relied upon for the making of fuses and other small munitions parts. This lack of plants equal to the task of turning out aeroplanes in any considerable numbers today would mean almost certainly that this work would fall upon the automobile manufacturers. The same would be true as to motor boats.

This being true, the time required to change the automobile establishments over from a peace to a war footing would depend upon the etxent to which they had given attention to the education of their employes along the lines suggested to them by Mr. Coffin and his aids. Mr. Coffin made it plain in his talk that manufacturers would not be called upon to do an unreasonable lot of work for the federal government in turning out the articles for which orders would be given them, but only enough to result in training a sufficient number of men along specific lines of manufacture to form the nucleus for a larger force to work under the direction of these craftsmen.

Mr. Coffin presided over a meeting of defence societies representing all sections of the country in a call issued by him. The object of this meeting, as explained in the call, was to form a national organization which would work in harmony with the smaller and more compact body, the Council of National Defence, and to aid the members of the latter organization in carrying out plans for mobilizing the industries of the country, on which they have been working for months. National headquarters will be established in Washington by this new body.

FEWER HORSES, MORE AUTOS, IS EVIDENCED

RAPID DELIVERY TRUCK IS FAST TAKING PLACE OF OLD DOBBIN.

Old Dobbin hit the toboggan several years ago, and he has been sliding at a rapid rate ever since, as one may plainly see by reading the columns of statistics prepared each year by the assessors for the various counties.

The automobile and the truck are forcing the faithful horse from the haunts of man, and within a comparatively short time it may come to pass that horses will be kept for show purposes only. In fact the time may come when we will pay real money for admission to a circus tent, to behold a few specimens of horse flesh and be told that they were "once in common use as beasts of burden in every country of the globe."

While the mere announcement that the auto is supplanting the horse, isn't news, every schoolboy having been aware of the fact for the past ten years, it is interesting to get out the books of statistics and see how rapidly the gasoline engine and the vehicles in which it is used as power, are taking the place of horses.

Touring, for the most part, was made by train in 1900, but today it is made by auto, or by train and auto. Jitneys were unknown and the number of horses employed on stage coaches comparatively, was small. Many a man owns a car today, who, in similar circumstances in 1900, would not have considered his circumstances such that he could afford a horse.

Dobbin Doomed.

Old Dobbin is doomed. On the side hills, where it is impractical to use a tractor, it is possible he will be useful in tilling the ground, for years to come, but the chances are that aside from this, and possibly a few other isolated cases, the horse will be supplanted more and more each year until the auto, the truck and the tractor have eliminated our four-footed friends entirely.

Horse Too Slow.

However, while every horse lover is loath to admit that such is the case, few, indeed, still cling to their equine friends, if they wish to compete with firms using the rapid-delivery truck, or the automobile. In fact they cannot compete with them, for the horse, instead of affording a cheap means of transportation, has at last become the most expensive.

Also, from a standpoint of cleanliness, the automobile is bound to eliminate the horse, as manure piles and dirty stables have long contributed their share towards increasing the death rate in every large city.

In Plain Sight.

Willie Stone had been sent on an errand to the home of fthe rich Mr. Lott. He returned with the astonishing news that Mr. Lott was going mad.

"What makes you think that?" his father asked.

"The way he talked," said Willie. "When I went into the room where he wanted to see me he said, 'Boy, where is your hat?' and there it was on my head all the time."—New York Times.

Your morning paper free with your morning purchase if made at Carter's Drug Store.—Adv.

RIDE IN AUTOS TO INCREASE WEIGHT, IS ADVICE GIVEN

Detroit, Mich., March 100—"Plumpness is good form this season. The wasp-like waist and the silhouette slouch are now passe. Milady who is now the 'glass of fashion and the mould of form' tips the scales well over the average weight of the much vaunted perfect thirty-six."—Fashion Note.

To those who may be desirous of putting on a little weight nothing is more efficacious than riding in or driving a Liberty Six. This is the recipe prescribed by officials of the Liberty Motor company and proof is offered that as a sure cure for thinness the Liberty is without peer.

One Liberty man has been taking a drive of about 150 miles every day for the last few months. He was a little under weight when he began to make the trips. However, in a very short time he had added forty pounds and is still gaining.

"The Liberty is so easy to drive, clutch and brake pedals so easy to push, control lever so easy to shift, that instead of being an exertion to pilot this car, it is a real pleasure," said the Liberty man. "The car is so easy riding that the roughest roads are cushioned to a velvety smoothness. If you are losing weight, or wish to take on a little more to make your figure a la mode, and at the same time provide yourself with most enjoyable motoring, you would better buy a Liberty right away."

Definition Wanted.

A country vicar advertised for an "ineligible" to make himself useful, etc., in his grounds and garden. A likely candidate turned up, and, after being questioned on several points, the vicar said to him:

"You know we are all vegetarians here, and if I engage you I should like you to conform to our rules. Could you?"

The applicant entered into a brown study, and then at last he replied:

"I think so, sir; but I should like to ask an important question first. Do you reckon beer a vegetable?"—Tit-Bits.

SAXON IS ON TRIP TO CIRCLE U. S.

TRAIL BLAZER FOR NATIONAL BOUNDARY HIGHWAY LEAVES WASHINGTON.

Starting from Washington immediately following upon the inauguration day ceremonies a stock Saxon Four roadster began a journey, the like of which has never before been attempted in the annals of the automobile industry.

It will traverse the boundaries of the United States as near as roads will permit.

This trip, undertaken by the Saxon Motor Car Corporation, is in the nature of a trail blazing for a national boundary highway, a road for motor travel that will circle the country's edge from the tip of Maine southward to the tip of Florida, thence around the coast and west along the Rio Grande and the national boundary to the Pacific then northward to the Canadian edge and eastward following the contours of the Great Lakes and rivers to the northern limits of Maine and so again to the Atlantic, completing the circuit.

Requires Five Months.

Five months it is estimated will be required to complete the trail blazing for the route, for the most part has never been chartered and the Saxon pioneers will have to feel their way along. From Washington the car will head immediately for the Atlantic coast and will then turn southward on its journey.

Not only will the trip mark out a new route which has long been desired by tourists but it also will afford a most difficult test for the Saxon Four. Accurate records are to be kept of the car's performance, its gasoline consumption, its tire wear and its general wear, as well as the mileage made in the journey.

THE ALL-YEAR CAR

Beauty Kissel has long led the automobile industry in beauty and refinement of body design—that is but repetition of a conceded fact. The brilliant lustre of the HUNDRED POINT SIX is practically indestructible. The low, sweeping lines, so much in vogue, are attained without sacrificing clearance.

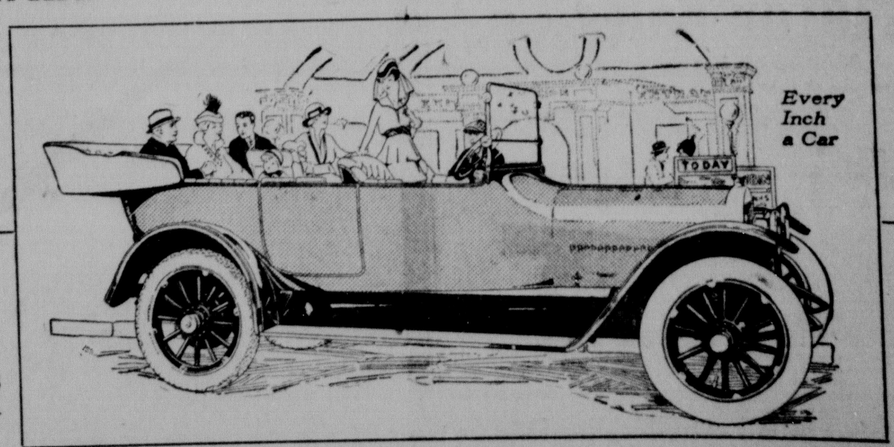

Individuality The Kissel Kar has, for the last two years, indisputably occupied a limelight position in the industry, owing to the success of the original Kissel idea—an all-year car. The attractions of this much imitated, but still incomparable, Kissel are now augmented by a new chassis that fully justifies the rich promise of its title—THE HUNDRED POINT SIX.

Stability—Slow Depreciation—Luxury—Comfort—Economy.
—All these desireable features are fully realized in the newest Kissel Kar.

—*In opening our Waco Distributing Agency we beg to invite the most careful investigation and comparison by discriminating motorists.*

GOODYEARS SAY RECORD FOR CONSTANT DRIVE HAS BEEN PLACED

What is believed to be a world's record for continuous driving of an automobile is the one that has just come to the notice of the Goodyear Tire and Rubber company, Akron, Ohio, from J. A. Van Horn of Los Angeles, Cal.

For thirteen months he has been engaged in the transportation of newspapers from that city to Santa Barbara, operating a Chandler car, on Goodyear Cord tires, and has during that period covered the amazing distance of 94,000 miles—nearly four times the circumference of the earth.

Van Horn loads his car bright and early each morning with papers fresh from the press, and on week days carries a load of half a ton, which on Sundays usually increases to 1,500 pounds. Whenever passengers wish to make the trip the newspapers are hauled in a trailer. The capacity of both car and trailer is taxed to transport the Sunday editions.

In commenting on his wonderful record, Mr. Van Horn said: "In running my car this distance I have never lost a minute because of the car being out of condition. I have put it through the severest possible service. My car has become the talk of owners of other cars all along my route, and my run has been so regular that some people say they can tell the time by my passing.

"My average daily run has been 237 miles and in the thirteen months I have missed only three days. A relief driver handled the car on those days.

"I have used seven sets of tires and have kept an accurate account of gasoline mileage, which shows my average has been fifteen miles to the gallon. To operate 94,000 miles has required more than 6,000 gallons of gasoline, costing more than $1,200."

CADILLAC DEALERS HONOR W. C. LELAND

The dealer organization of the Cadillac Motor Car company recently expressed its regard and esteem for Wilfred C. Leland, vice presidentand general manager of the Cadillac company.

Mr. Leland was presented with a handsome gold and silver tablet, mounted on Circassian walnut, the whole executed by Tiffany. The inscription reads: "To Wilfred Chester Leland, in recognition of his conception of the high speed high efficiency V-type engine and its application to the motor car. From Cadillac Old Guard."

Miss Doris Keane, the brilliant young American actress, playing in "Romance," by her wonderful talent has succeeded in establishing herself as one of the leading favorites of the London stag Although a native of the United States, she has spent much of her time in Europe, having first been brought to London by the late Charles Frohman. Miss Keane is an enthusiastic motorist and derives much pleasure from her Napier car equipped with Goodyear tires.

Saxon Stands for Economy All Through

"Today as never before motorists are seeking the car which combines a low upkeep cost with a low operation expense," says S. J. Ward of Ward & Phillips Motor company. "Except for the small minority, automobile owners are men of moderate means and the expense of their car for replacements as well as fuel and oil forms a definite point in their selection of an automobile.

"One of the many reasons why Saxon motor cars have won such a splendid place in the opinion of the public is their remarkably low replacement cost. An accurate record of the replacement costs for all Saxons during the last year showed that the average for every car was $8.50. In this survey was included the repairs for thousands of Saxons after nearly two years' service. This figure, Saxon officials believe, is lower than the average for cars in Saxon class.

"While it is generally conceded that the motorist is more forcefully struck with the economy of a car in replacements than in general running expenses because repairs usually come in good sized amounts, where oil and gasoline costs dribble along, the fact remains that he also is vitally interested in operative ecenomy. The Saxon motor car corporation always has realized this and last summer held a stupendous demonstration to test finally the operative economy of Saxon Six. On the same day 203 different Saxons were started in 203 different cities all over the country and were driven over 300 miles of city and country roads and an accurate record was kept of the gasoline consumption. The mileage to the gallon ranged from 17 to 34 and two-thirds miles and the grand average for all the cars was 23.5 miles to the gallon. This record can be approximated by individual owners, for the cars which took part in the contest were all stock models, most of them cars that had been in service for some time."

NOW THEY'VE BROUGHT MOUNTAIN TO MOHAMMET

Officials of the Studebaker corporation believe that they can do nothing more effective as a means of satisfying the automobile prospect or of binding a customer to them than to give him some conception of the great organization that is responsible for Studebaker cars. Personal visits are possible to very few, ordinary photographs and descriptions are disappointing and by doing less than justice to the subject are apt to give the customer a small or incomplete idea.

So Studebaker has adopted the modern means of bringing the factory to the customer. An equipment, consisting of a series of special photographs made on the scientific principle of binocular, or two-eyed vision, is now the Studebaker salesman's able assistant. When shown through the necessary viewing appliance, which brings out all the depth of each picture in a way possible in no other manner, the prospect sees before him a wonderfully clear view just as though he were in the plant and viewing the scenes with his own eyes. The pictures, nearly 100 of them, are numbered and titled, with several lines of descriptive matter beneath each scene.

Methods of production, tests and inspections are interesting and cannot fail to leave a feeling that the firm is bent on producing a car that is free from any avoidable imperfections—but the Studebaker stereoscope scenes in the gigantic Studebaker factories are not merely interesting; they come nearer than anything heretofore brought out to conveying a feeling that one is actually beholding a great industrial plant in full operation. Sitting leisurely with the customer, the Studebaker salesman can show him how Studebaker cars are made from the beginning to the end. He can take him from the first step in the manufacture, where materials are tested for quality, right along step by step through the various departments of the great Studebaker plants.

Caracas, capital of Venezuela, is to have a huge new bull ring, but Castro's hat-tossing days are past.

Chalmers Names Head of Department of Dealers

E. C. Morse, vice president and general manager of the Chalmers Motor company, announces that C. H. King, formerly head of the Chalmers sales promotion department, will have charge of the newly created department of dealers of the Chalmers company. The new department will operate an auxiliary of the sales department and is organized with a view to concentrating on plans for increasing the efficiency of Chalmers' dealers organizations throughout the country. Mr. King is one of the best known men in the automobile industry and is personally acquainted with hundreds of automobile dealers from coast to coast.

HERRICK HAS RECEIVED SHIPMENT OF BUICKS DURING PAST WEEK

W. T. Herrick of the Herrick Hardware company reports the receipt of a shipment of Buicks the past week. Mr. Herrick says that the Buick factory is promising prompt deliveries in the future and the local distributing agency hopes to fill all orders now booked in the next thirty days.

"Two carloads of Chandler cars, expected last week by the Herrick Hardware company, will certainly come in this week," said Mr. Herrick. "The worst thing we auto dealers have to face is the difficulty of getting cars from the factory. People are buying automobiles as never before."

Among the worldwide celebrities to become motorists is Madame Melba, the great Australian soprano, who has delighted thousands of American audiences with her wonderful voice. Madame Melba's car is a Franklin Sedan on Goodyear cord tires.

TO BUY NEW TIRES

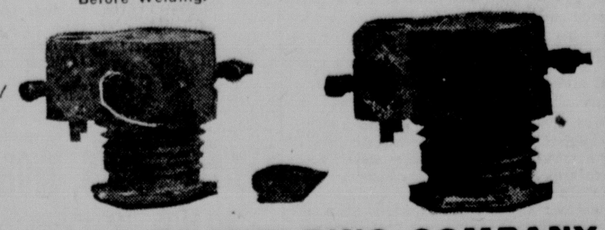

Is foolish when you can have your old tires half soled with

Studebaker

MY FAITH

¶ Is unlimited in the Studebaker Automobile.

¶ I know intimately the men back of these cars.

¶ I have unbounded confidence in the efficiency of the Studebaker factory organization.

¶ I am in accord with the factory's policies relating to car owners—every one Satisfied.

¶ I am at present giving a never-before-attempted service, unequaled in every way. It is not *merely promises*—it is fixed—definite. You may have it in writing.

¶ I am firm in my belief that the Studebaker cars are the equal in Power, Performance, Finish, Dependability and Lasting Qualities of Cars selling at $400 to $600 more than our price.

$900,000.00

Is my faith put into money. I have contracted for that amount of Studebaker Automobiles, which makes me the largest distributor of QUALITY CARS in Texas.

Come in and take our '18 series 50 h. p. Six to any hill and test its performance. I tell you the car will make you "sit up and take notice" with its power, comfort in riding, its roominess, its ability to "get up and go" and do it without any fuss. $1,345 (Waco)—and it's a $500 better value than any other Six offered.

Comfort and Price
Come Closest Together in This Car

Somewhere between the extremes of Low Price and Patrician Luxuriousness, there is a point at which the qualities of Price and Comfort come closest together.

Right there you find the Dixie Flyer.

This is made possible because *purpose to do, facilities for doing,* and *experience in doing,* are combined in the Dixie Flyer factory to do their perfect work.

The result is that you will find in the Dixie Flyer all the features of Comfort, Convenience, and Performance, you naturally want in your car, and you will also find many other desirable features of Style, Elegance and Utility found only in more expensive models. It is a car which satisfies and gratifies alike the particular driver and the particular dealer.

See the Dixie Flyer at your dealers. Drive it. Know for yourself its quick response, its ample reserve power in the sand and on the hills, its ease of operation, and its riding comfort on any road.

Compare its graceful lines and distinctive decoration with the cars you pass on country road or fashionable boulevard---and the Dixie Flyer wins.

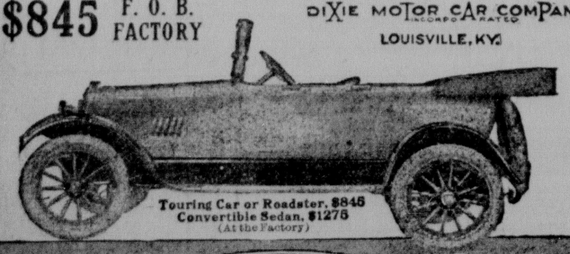

Our new illustrated catalogue will be sent you. It tells the complete story.

TROPHIES SHOW SUCCESS OF CHALMERS IN RACE TOUR AND HILL CLIMB

Visitors to the big Detroit plant of the Chalmers Motor company have long commented upon the double line of cups and trophies which flank the entrance to the general offices. The array rivals the show windows of the prominent silversmiths at Christmas time and represents an outlay to donors of thousands of dollars.

By the addition of the $1,000 Hollenback trophy won at the Giants' Despair hill climb in October, the collection of Chalmers trophies now numbers fifty-six. By winning the free-for-all and one other event at Giants' Despair the Chalmers also annexed the handsome Philadelphia Press trophy and the trophy of the Wilkes-Barre Auto club.

Cups, statuettes and trophies of all sizes are represented in the collection, all won in competition on track, speedway or hillclimb. All were captured against the best cars of their class and many were taken against cars of much higher power. Among the older trophies are the Asa G. Candler trophy, won at Atlanta in 1909; the Massapequa trophy, won by Joe Matson over the Vanderbilt course in the same year, and several Glidden tour cups. Many famous cups held for a year or more were turned back to donors when Chalmers abandoned speedway work a few years ago.

Racing, hill climbing, reliability and economy tests have all played their parts in the development of the modern motor car and the participation in events of this kind have cost automobile makers more money than it is possible to compute. But the expenditure has not all been in vain. The barking exhausts of other days are responsible for the smooth-running, silent sixes that are today proving their popularity with one of the largest classes of buyers in the country. Through bringing out weaknesses of contruction, the early contests were the first exponents of the Safety First movement.

Then He Would Come in.

An Irishman who was rather too fond of strong drink was asked by the parish priest:

"My son, how do you expect to get into heaven?"

The Irishman replied:

"Shure, and that's aisy! When I get to the gates of heaven I'll open the door and shut the door, and open the door and shut the door, an' keep on doing that till St. Peter gets impatient and says, 'For goodness' sake, Mike, either come in or stay out."—Tit-Bits.

In the motorcycle world no sooner does a new endurance record become established than some intrepid rider, hankering after new laurels, sets out to register a better one. This time a new twenty-four-hour record for continuous travel has just been set up by Don Johns, a noted motorcycle rider, on a 1917 Indian machine, equipped with Goodyear Bluestreak tires. Covering a course extending from Los Angeles to Helmet, Cal., Johns registered a total of 797 miles, an average of 33¼ miles an hour for twenty-four hours, and added eighty miles to the best previous record. During the entire run no mechanical or tire trouble was experienced. As an incentive to other speedsters to shoot at his newly established mark he quit just twenty minutes short of his permissible running time and waived the ten miles he could have added to his mileage in that time. The run was sanctioned by the F. A. M. and the new record is officially recognized.

The stream which has been supplying the ancient city of Damascus with water for nearly forty centuries has been harnessed and will provide electricity to light the city and operate 100 miles of railway.

Down Auto Row

Bill Ray of Gatesville drove an Overland Country Club home Tuesday.

B. H. Hatch of Lorena is on the sales force of the Overland Sales company, working the country territory.

E. J. Terral of Houston will join the sales force of the Overland Sales company tomorrow.

J. C. Haddick of the Dixie Motor company reports that he has just received a car shipment of the Dixie Flyers.

F. J. Stone, 319 North Eighth street, purchased an Overland Country Club from Overland Sales company last week.

J. V. Burns of McGregor and W. Warwick of Axtell are proud owners of new Hupmobiles, reports Wade Hampton, Waco dealer.

O. H. Vahrenkamp of McGregor, who with his brother Ed are agents for the Hupmobile in that city, was visiting Wade Hampton, Waco dealer, on Friday.

The Overland Sales company yesterday delivered to William Cameron a Country Club roadster, this being the fifth Overland purchased by Mr. Cameron.

W. R. Dean of Hubbard City drove a Chalmers Sedan home last week as a present to his wife. This is the second Chalmers Mr. Dean has owned and he says he did not care to change makes.

D. C. Ryburn of the auto department of the McLendon Auto company went to Temple Saturday to deliver a Chalmers 7-passenger and a roadster. He was accompanied by his wife, who has a sister in Temple, to whom she paid a visit.

Further sales reported by Herrick & McLarty Auto company are as follows: Miss Jewell Johnson, Waco, Oakland Six; Dump Sumner, Itasca, Paige Six; John R. Edison, Hamilton, Oakland Six; Jim Eidson, Hamilton, Oakland Six.

T. A. Cheeves of Marlin, who is interested in the new wholesale dry goods company of Waco, has bought a Cadillac 7-passenger car from McLendon Hardware company. Mr. Cheeves has always owned Cadillac cars and says he wants nothing better. He says that the model 55 is the ultimate car.

The Herrick Hardware company reports the following sales and deliveries for the past week: E. F. Rice, 1605 Austin street; Fred Miller, Riesel; J. S. Dumas of the Central Texas Exchange National bank; J. H. Collier, Waco; Dr. W. G. Trice, Elk, and F. M. Lyon, McGregor.

Mr. Hendrix, sales manager of the Oakland Sales company, says the reception of the Overland Country Club models has been very gratifying, the shipments received last week having practically all been delivered in Waco, with several unfilled orders on file.

W. E. Brown of the Brown Automobile company says that business has been very satisfactory with them the past week, notwithstanding the fact that the new concern has been all torn up, endeavoring to get moved into their new home at 905 Austin street. Forty-six cars were sold during the week at wholesale and retail, only one trip out of Waco being made by Mr. Brown and on that trip only one town was visited, the other contracts and orders coming in by mail, which shows how eager the dealers are to secure the agencies for their two lines of cars.

Herrick & McLarty Auto company reports the following sales for the past week. This does not include the sales of second-hand cars: B. W. Skinner of Waco, Oakland Six; Fred Miller of Riesel, 490 Chevrolet; Pat Harrison of Waco, 490 roadster; W. H. Scott of Oglesby, 490 Chevrolet; J. J. Lumpkin of Waco, Oakland Six; Mrs. E. S. Towler, Waco, 490 roadster; W. W. Plemmons of Lorena, Oakland Six; McNeill Hardware company of Valley Mills, two carloads of 490s; Frank Stephens of Waco, Paige Six; J. A. Kirkpatrick of Waco, Oakland Six; T. W. Holmes of Waco, 490 Chevrolet; S. L. Crider of Lorena, Oakland Six; C. G. Odee of Penelope, 490 roadster; C. G. Odee of Penelope, Oakland Six; Fred Miller of Riesel, Oakland Six; McNeill Hardware company of Valley Mills, 490 roadster; Clay & Gilmore of Moody, two Oakland Sixes.

SELLING PAIGE CARS BY THE SNOW SHOE ROUTE

The early bird catches the worm; and likewise the early motor car salesman the cream of the contracts. But in the case of the latter it is sometimes necessary to do the scratching on snow shoes.

Up in the northeast corner of Utah, 68 miles north of Salt Lake City, is the city of Logan, resting in the fertile Cache Valley. Not long ago L. R. Peart was given a Paige agency for that locality and Mr. Peart proceeded to get busy. Unfortunately the severe winter had the lovely Cache Valley covered with a mantle of snow reported to be 14 feet thick.

Off hand one would say with such a condition prevailing there would be absolutely no chance to sell motor cars. In fact, it seemed useless to try, for it was impossible to get a car through the drifts to visit the farmers in the valley. The motor car dealers figured it out that way and were content to sit around the stove in comfort waiting for the weather to change so that the territory could be opened for them.

At least all of them did so except Mr. Peart. The Paige man, sizing up the 14 feet of beautiful covering the valley, communed with himself and argued it out thus: If the salesman could not get to the farmer because of road and weather conditions the farmer also was at a disadvantage. He could neither come to town nor do much work on his place. Naturally he must have had lots of time to read the newspapers, farm papers and magazines. There had been ample time for him to study the advertisements at his leisure and doubtless many a tiller of the soil after perusing the alluring Paige advertisements of "The Most Beautiful Car in America" had been discussing a possible purchase with his family and dreaming of spring and the time when he could drive his own Paige over the road.

In other words, Mr. Peart concluded the farmer was ripe for a sale and that now, snow or no snow, was the psychological moment. As he couldn't drive a car to the farmer, he fastened on his snow shoes and started out. In three weeks he had eleven signed orders for Paige cars and cash deposits on all of them.

The other dealers are still sitting around the stove wating for a thaw.

Height of Politeness.

"Although he overcharged me, the cab driver who took me over Paris was most polite," said our friend who had made holiday abroad.

"All Frenchmen are," we observed.

"Wes, but this one got off his box and helped me to find the necessary words in my French-English dictionary so that I might say what I thought of him."—Exchange.

HUMPHRYS SAYS "SURE" BUSINESS NEVER BETTER IN WACO RIGHT NOW

Asked concerning business conditions prevailing in Waco at the present time, T. D. Humphreys, manager of the Herrick & McLarty Auto company, bubbled over with enthusiasm.

"Business? Good—couldn't be better," is the way he sums it up. "We sold and delivered 113 automobiles in the twenty-eight days of February," said Mr. Humphreys. "Our business since the first of January has more than doubled our estimate of what it would be. We simply cannot get too many cars, no matter how many we order. The Paige Stratford model cannot be supplied to us one-third fast enough. We could sell three times as many if we had them.

"I give credit for the phenomenal business we have had and are having both to the prosperous conditions here at present and to the publicity we have given the merits of our cars through advertising."

Mr. Humphreys states that the sale of second-hand cars advertised in the News last Sunday has started off with a rush. Up to Saturday night, he said, over $15,000 worth of second-hand cars had been sold.

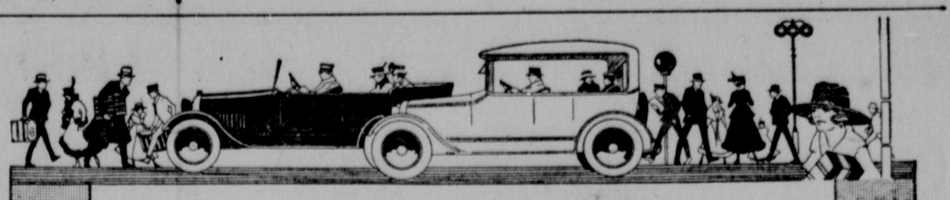

Shortage of materials for the Chevrolet factory at Fort Worth is the reason he assigns for the difficulty in getting Chevrolets. An order for twenty-five carloads of Chevrolets he tried to place when in Fort Worth this week was not accepted by the factory on this account.

NOTICE TO CONTRACTORS.

Bids for the construction of reinforced concrete bridges in the city of Waco, Texas, will be received by the mayor and board of commissioners until 11 o'clock a. m. Thursday, April 12, 1917. Plans and specifications will be on file in the city engineer's office, April 1, 1917. The city reserves the right to reject any or all bids.

For full particulars address G. B. Gurley, City Engineer.

JOHN DOLLINS, Mayor.
J. F. STAMPP, Street Commissioner.

NASH Jeffery MOTORS

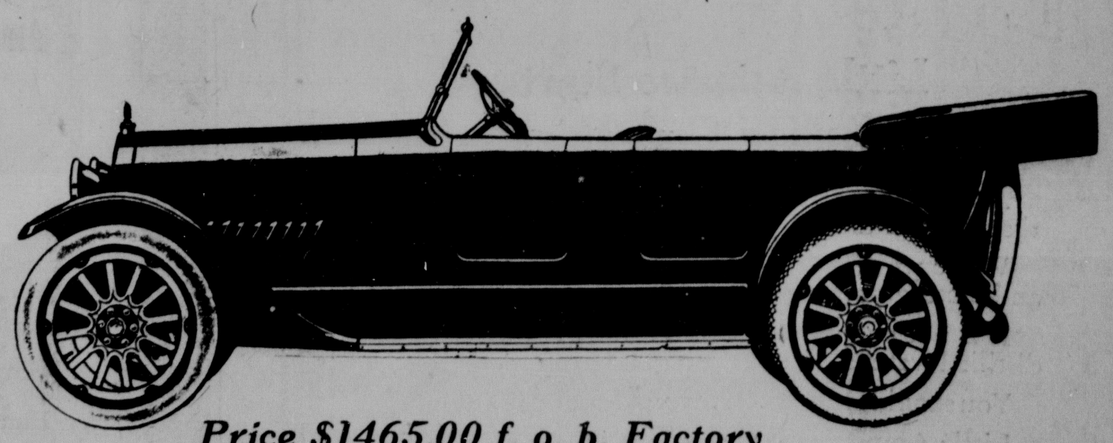

Built by America's Most Successful Manufacturers of High Grade Cars

Naturally you had rather spend your money for a car built by a manufacturer that has made the greatest success in all his past efforts, rather than to buy the product of some inexperienced and unsuccessful manufacturer, who has never accomplished anything worthy of mention and who probably never will, for out of something like 140 automobile factories in this country today, there are only a few of them who have accomplished really big things.

When you purchase a Nash-Jeffrey car, you have to back up the twenty-five years manufacturing experience of C. W. Nash, who is responsible for some of the greatest and most successful factories in the world.

That is one reason why you are able to get a greater value in the present Nash-Jeffrey Six than any other six-cylinder car on the market.

Visit our salesroom and see this car with the vibrationless and longest lived six-cylinder motor made; now on exhibition at 905-907 Austin St.

Price $1465.00 f. o. b. Factory

Brown Automobile Co.

Studebaker

Service

—that teaches the care of your Car

It is a matter of common knowledge that less "troubles" are experienced with Studebaker cars than any other in its class.

This is not only due to the excellent quality of the materials that are put into every Studebaker car but also to the thoroughness of Studebaker DEFINITE Service and its success in educating owners to take care of their cars themselves, thus insuring 100% operating efficiency all the year round.

Studebaker DEFINITE Service comprehends more than a mere invitation to "drop in if anything happens." Its purpose is to forestall all possibility of "trouble" by the regular and systematic inspection of your car—which is given for a period of six months because Studebaker considers this just as important a part of your purchase as the cushions or tires.

Nothing would please us better than to have you come in and let us tell you more about Studebaker DEFINITE Service.

MULFORD COMES BACK WITH HUDSON CAR AGAIN THIS YEAR

Ralph Mulford, who will hold the star racing wheel for the Hudson Motor Car company's team this year, in addition to his place as driver occupies also a unique, though unofficial position in his connection with the company. Mulford is an ambassador of fact to the realm of theoretical motor engineering. In his hundreds of big contests the daring driver has seen with the vision that vivid moments of excitement bring, where mechanical constructions are at fault, where something failed at a crisis, where the supreme moment found out a weakness that theory would never have detected.

Mulford and other members of the Hudson racing team keep constantly in touch with the engineering department of the company, and many of their suggestions have proved of value.

This year will be the first that the Hudson has entered the racing game on a large scale. At least five Super-Sixes will be in the flotilla that will meet the motor world in every big speed and endurance contest during the coming year. Arthur Hill, late of the Peugeot team, will be the manager and Billy Chandler, who has given up active racing, has been appointed master mechanic and will be in charge at the pits, where many a race is won or lost.

CADILLAC EIGHT IS MASTERPIECE, SAYS ENGINEER

"From an engineering standpoint, the Cadillac Eight is a masterpiece," says F. Paul Anderson, dean of the college of mechanical and electrical engineering of Kentucky State university, after testing and demonstrating the car before the students.

The car was loaned to the college, at Prof. Anderson's request, out of the stock of the Lexington Cadillac company at Lexington, Ky. At the conclusion of his tests, Prof. Anderson wrote to the company, saying:

"From an engineering standpoint, this car is a masterpiece, and we were a little surprised when it ran with no vibration at fifty-eight miles an hour, which was the highest we ran it.

"Although this car was not tuned up for the test, it pulled 550 pounds at forty-eight miles an hour, developing 70.4 horsepower.

"We will say that since the installation of our testing plant, this is the only car that has ever been able to keep itself cool under a high-speed test; our usual practice being to cool the radiator with auxiliary water connection, which you understand is to compensate for that part of the cooling due to windage on the road."

NEW OVERLAND HAS GASOLINE TANK IN REAR

Willys-Overland cars this year have the gasoline tank at the rear, made possible through the vacuum feed system. Besides giving better distribution of weight, there is the added advantage of convenience in filling. Passengers need never be disturbd to permit filling of the tank, nor subjected to the annoyance of gasoline fumes.

NASH MOTORS COMPANY PLANNING BIG THINGS

One feature of the national automobile shows this year that was of particular interest both to the public and those connected with the motor car industry is the introduction of a new and powerful factor in automobile affairs, the Nash Motors company, headed by Charles W. Nash.

Since Mr. Nash, until recently president of the General Motors company, purchased the great plant at Kenosha, which manufactures Jeffery automobiles and trucks, interest in the progress of this new corporation has been general. It is realized by both trade and the public that the combination of C. W. Nash, recognized as one of the foremost automobile manufacturers in the United States, and the gigantic plant at Kenosha, is certain to result in developments of great importance to the motor car world.

The policy of Mr. Nash, as demonstrated in his active guidance of the General Motors company to a yearly earning totalling $28,812,281.96, is the manufacture of automobiles and trucks on a huge scale.

In the immense Jeffery factory Mr. Nash has a plant that is ideally equipped for the immediate adoption of his ideas in manufacture. This plant covers 101 acres of ground. It has thirty-two acres under roof and employs 3,000 skilled mechanics. The mechanical equipment is of the finest, totalling over 1,400 different types of modern machines, including a battery of drop forge hammers, automatic gear cutters, six spindle fly wheel lathes, multiple drills, etc. This factory, as is quite in line with Mr. Nash's own ideas, is equipped to build cars and trucks 93 per cent in their entirety within its own walls. It surpasses the usual conception of "factory made" because virtually every unit that goes into the finished car or truck can be built right in the factory. Axles, gears, motors, fenders, crankshafts, bodies—even roller bearings are part of these products.

A typical Nash organization has been installed and the wonderful equipment has been amplified and is working in accordance with the well known Nash plan of progressive manufacture. Among other features is a gigantic new foundry. A complete line of commercial vehicles, including the famous Jeffery-Quad, will be manufactured by the company in addition to pleasure cars, as the plant is equipped to manufacture both.

KISSEL CAR AGENCY OPENED IN WACO BY ROUSE-M'GHEE

The growing importance of Waco as an automobile center is again emphasized by the announcement that a Kissel Kar distributing agency has been opened here in charge of J. I. Rouse and George S. McGhee.

Mr. Rouse is a thoroughly experienced automobile man and comes to Waco from Lott, Texas, with the intention of making this city his permanent home and pushing the sale of Kissel Kars—"The Hundred Point Six"—as his permanent business.

Mr. McGhee speaks with enthusiasm about the business outlook in this territory for this year. He says that Waco is getting a national reputation for the magnitude of its automobile business in comparison with other cities of equal population and larger.

"Waco is situated in the heart of the richest agricultural section of the world," said Mr. McGhee yesterday, "and it is but natural that the people here demand and get the best of everything from automobiles down. There has long been an insistant demand here for a car of the Kissel quality and the Kissel price, and it is this demand that we are now prepared to fill."

The new concern will operate under the name of Rouse & McGhee, with headquarters in the new Dr. Scott building, 727 Washington street. They will be distributors for the Kissel Kars in the following counties: McLennan, Milam, Falls, Hill, Bosque, Coryell, Lampasas, Hamilton, Eastland, Comanche, Mills, Brown and San Saba.

The history of the man who is heading his own company for the first time at a New York show is interesting.

The marked ability of C. W. Nash as a manufacturer, merchandiser and organizer was first shown in his career at the Durant-Dort Carriage company, where he worked his way up step by step to the position of vice president and general manager in complete charge of the manufacturing and selling.

The first connection with the automobile industry was with the Buick Motor company, which he took charge of when it was losing money and shortly converted into one of the most successful manufacturing plants in the world. His genius as a manufacturer and his great executive ability was further demonstrated when he was president of the General Motors company, in active charge of all of the individual units, comprising Cadillac, Oakland, Oldsmobile and Buick. His success in putting these various plants on an efficient basis and converting them into big money makers is well known by the public in general.

"Made in U. S. A."

Automobile values as at present established are largely due to the foresight and courage of Mr. John N. Willys, the president of this institution.

He foresaw the universal use of the automobile and had the courage to produce quality cars in larger quantities than they had ever before been produced.

Steadily increasing production made possible savings and economies which steadily reduced costs and repeatedly established new values.

Eight years ago, with a net worth of little more than $50,000 this company produced 465 cars.

This year, with a net worth of over $68,000,000 we must produce over 200,000 cars to fill our dealers' contracts.

It has required an enormous investment in plant and equipment to prepare for this enormous production.

The prime requisite in the automobile industry is still foresight and courage.

Mr. Willys foresees a demand this year in excess of the possible supply.

In addition to enormous investment in plant and equipment Mr. Willys had the courage to contract long ago for enormous quantities of raw materials—$35,000,000 worth already *in hand* for this year's record production.

See all this reflected in the values we have to show you in the most comprehensive line of cars ever built by any one producer.

Note especially the remarkable values represented in the Big Four at $850 and the Light Six at $985.

Percy Willis Auto Co., Inc., Local Dealers.

How the Hupmobile Has Set the Guage of Beauty for a Year to Come

For Quality and Performance In the Past — For years people have purchased the Hupmobile for Quality and Performance. Its economy, both in operation and maintenance, is famous throughout the motor world. The Hupmobile has always been built for goodness and performance—and always will be.

And Now— For Beauty Also — Today—in 1917—people are buying the Hupmobile for the added quality of Beauty. The new model wears a new dress of Distinctive Style and Extraordinary Beauty. In looks the Hupmobile today is as supreme as it is, and always has been in Quality.

Compare These Features With Others.

Some of the 25 New Style Features

Bright finish, long grain, French seam upholstery.
Improved cushions and lace type back springs in seats.
Leather-covered molding finish along edge of upholstery.
Neverleek top, black outside, tan inside—waterproof.
Tonneau gipsy quarter curtains, integral with top.
Front and rear edges of top finished with leather-covered molding with aluminum ferrule tips.
Bow spreaders to carry top when folded.
Humpmobile-Bishop door-curtain carriers, folding with curtains—exclusive feature.
Bright leather hand grip-pads on doors.
Large door pockets with special weighted flaps.
Bodies a new color—Humpmobile blue.
New variable dimming device graduates brilliance of head lights.
Tail lamp operates independently of other lamps.
New soft operating clutch.

Six Models.

Five-passenger Touring Car; Seven-passenger Touring car; Year-'Round Touring car; Roadster; Sedan; Year 'Round Coupe.

Extra Features of the 1917 Hupmobile.

Let Us Demonstrate This Greater Hupmobile to You!

Under the hood is the Hupmobile Perfected Four Motor that takes second place in performance, quality and economy of operation and upkeep to no other motor made, be its cylinders four, six, eight or twelve.

Test for Yourself the Merits of These 3 Cars

1917 Chevrolet
1917 Oakland
1917 Paige

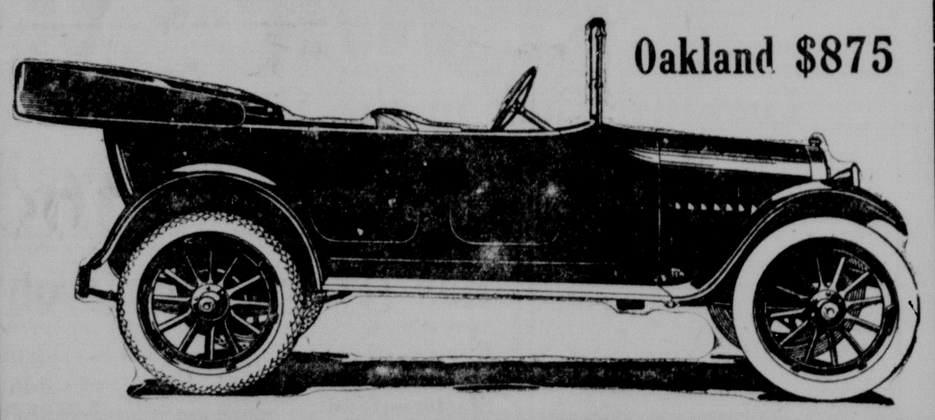

CHEVROLET $550

The Chevrolet '490'

Is the King of Popular Priced Cars. It is the lowest priced, electrically equipped car made. A Chevrolet is NOT a "Flivver" or a "Tin Lizzie," and the man who owns one does uot have to apologize for it.

Oakland $875

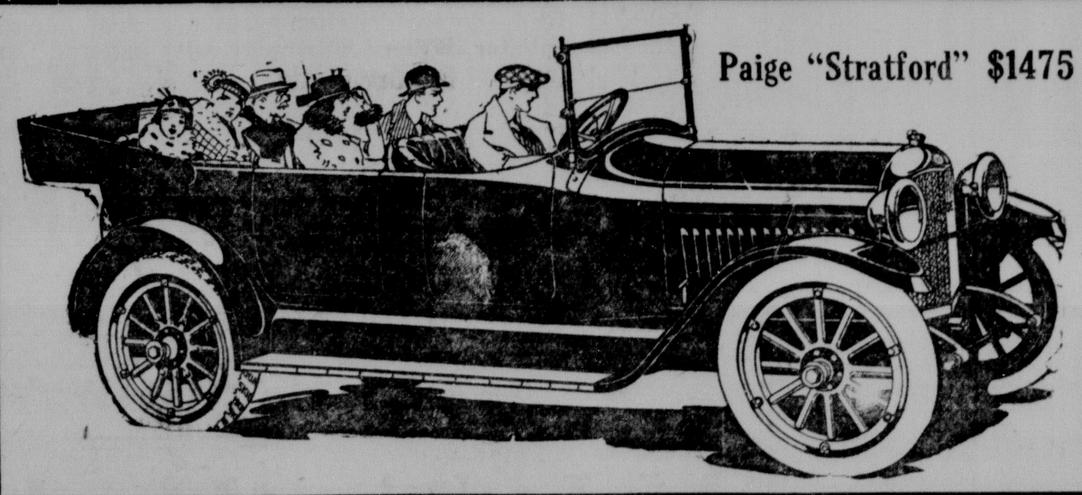

The "Sensible Six"

THAT IS THE TITLE FAIRLY EARNED BY THE OAKLAND.

It is not only sensibly priced—but in every detail of its construction the useless and unnecessary has been omitted—though every feature really desireable is to be found as a part of its equipment.

In Power, Ability, Reliability, Durability, Economy and Beauty, the Oakland easily holds its own with most cars priced much higher.

Paige "Stratford" $1475

The Most Beautiful Car in America

Is the proud possession of Paige owners—and not out of reach of even the MODEST pocketbook.

Sumptuous Comfort, Supreme Ability and Dainty Luxury

Are most happily combined in the Paige 1917 models.

T. D. HUMPHREY, Mgr.

SYSTEMATIC SERVICE GIVEN BY CHALMERS

TRIP THROUGH PLANT REVEALS EFFICIENCY AND SPEED AT EVERY TURN.

Probably more than 90 per cent of all motor cars sold in this country during the past two years carried with them, in some form or other, the maker's guarantee of satisfactory service. The owner of a new car has a perfect right to demand that co-operation from the manufacturer and dealer which will insure perfect performance of his machine under all normal conditions.

But all machinery has an age limit. No piece of delicate mechanism ever designed will withstand three or four seasons' pounding over rough country roads and ill-paved city streets, without meeting accidents or the necessity of replacements.

The owner's problem from that time on is to secure such replacements with the minimum of delay and inconvenience to himself. He is willing to pay for the renewal of parts, but naturally chafes at being forced to do without his car for several weeks because of factory or dealer red tape.

New Idea of "Service."

A trip through the finely organized service department of the Chalmers Motor company, located at the big Detroit plant, affords the experienced motorist a new idea of the word, "service." Here is system in the "nth" power. Occupying three entire floors of one of the largest factory buildings, and with a huge four-story structure recently erected for its purposes, the Chalmers service department is a marvel of efficiency and completeness.

Although between 250 and 500 orders for parts are received and shipped daily from this department, there is no rushing about or semblance of disorder in view. A truck rolls quietly up to one of the bins, the stock man glances at a paper in his hand, and the part is transferred from bin to truck. He glides on to his next stopping place and fills another order. By the time he has reached the shipping department he has perhaps taken care of a dozen single orders. At this point the load on every hand-truck is again inspected by a corps of checkers as a further precaution against mistakes in shipment. After the checker has placed his OK on each order it is ready for the shipping department. Here a big squad of men work incessantly, boxing the heavier parts for express and freight, and sending out the smaller ones by parcel post.

Special Pistons.

Contributing to the complex nature of the work of replacing parts is the fact that, due to wear, moving parts such as pistons, timing gears, etc., must be kept in three or four different sizes in order that they will fit cars that have traveled 50,000 or 60,000 miles. The dealer forwards the inside measurement of a cylinder and the corresponding piston and piston rings are forwarded. If there is too much variance between the two, special pistons and rings must be manufactured to order.

Tire School Grows.

Durng the first year of the Goodyear Tire and Rubber company's school of tire repairing, just ended, hundreds of men have qualified themselves as competent tire repairmen. The school is growing rapidly and now has a waiting list. In the last class to finish the course men from eleven different states were enrolled. One of these came all the way from Cuba.

Dust coats are being made of Khaki Kool, pongee, tussor and white alpaca in the now familiar "trench" coat model. The buttons and belt buckles are of leather, brass or white pearl, and they form the only trimming of the coat. The coats are strictly tailored and are very smart looking. A cap with a leather visor made of the coat material is worn with the coat.

MOTORING FANCIES

CLOTH suits for early spring touring are being shown in light weight tweeds, mixtures and stripes. The models most popular are those with the military jackets and the adapted Norfolks. Hercules braid and buttons or soutache braiding give the needed military touch to the jackets, while the skirts are rather full, but cut to fit snugly at the hips, and are buttoned down the front, at each side or down the back. One suit of tan Innesbrouck is an adapted Norfolk with a single inverted pleat at the back and a wide double breasted front with two vertical breast pockets. The belt fastens with a buckle to match the buttons. This skirt butons down the front and is a little longer than those worn during the winter.

Hats to wear with the suits come in the Alpine, mushroom or cap shapes, made of the same material as the suit if desired. Most women prefer the so-called sport hats of the soft hemp or Milan straw, silk, Pontine or satin. One of the prettiest is a new Chinese straw in the soft Alpine scarf. A strictly tailored hat is a black Milan straw with a slanting sugar loaf crown, the brim faced with green silk rep. The only trimming is a tailored band of gros grain ribbon. An oddity is a ribbon hat made with two-inch wide stripes, in pastel shades, running from the edge of the wide brim to the center of the crown, where all are shirred under a button. The brim is faced with black, white or one of the shades of the stripes that is becoming.

New veils are scarce and novelties are not so plentiful as formerly. Perhaps the newest are the white chiffons with wide hemstitched hems above which there is a stenciled colored border in pastel shades, and there are several patterns to choose from. The same veil also comes with soft colored polka dots. These veils are particularly pretty with white sailors.

For southern use the Japanese straw suitcases are very popular. They are very light in weight, finely woven and are lined with the pretty chintzes that are so much used. The cases are also fitted with the simplest and lightest celluloid toilet articles that are to be had.

Women who wish for an individual note in their apparel are choosing silk sweaters in becoming colors and are having hand woven sashes made for wear with them. No two are made alike, each one selecting her own silks and pattern, and these sashes are very smart. Many women are taking weaving lessons and investing in a new model loom that is small and not so very expensive as the old ones. They can make not only their sashes, but sweaters as well. The sashes, to be correct, must be three and one-half yards long, including the fringe and eight or ten inches wide.

Shoes will be of various materials this spring, including silk tops to match gowns, canvas dyed in odd shades, tapestry and other pliable materials. Thus only the vamps and soles require leather.

Another novelty is the use of white poplin sashes, embroidered with worsted flowers, with silk and fibre sweaters. The sashes are three inches wide and two and a half yards long, to tie and knot once. The ends are finished variously with fringe, worsted balls, or ornaments or gathered into tassels.

Traveling baskets for dogs are lined with fleece faced blankets, with an extra one for cover. The mattress or stiff pillow in the bottom has a blanket slip cover which can be removed and washed when it is soiled.

The high cost of leather is causing the tourist to look with favor on the willow or straw luncheon hampers. A number of new ones appear from time to time, but they vary little except in their inside arrangement of fittings.

Silk or linen smocks will take the place of dust coats for young persons this year. They are easily slippedd on and off and come in fascinating models.

DEFY ZERO WEATHER WITH CADILLAC CAR

WINNIPEG MEN DRIVE 476 MILES THROUGH DRIFTED SNOWS. MERCURY 25 BELOW.

In spite of temperatures which ranged from 25 to 37 degrees below zero; in spite of snow drifted, at times, higher than the radiator of the car, and in many places obliterating all trace of road and fences, D. D. Lewers and F. H. Dunsford of Winnipeg recently drove a Cadillac Eight from Moose Jaw to Winnipeg.

Even under the combined difficulties of bitter cold and deep drifts, the trip of 476 miles was made in 26 hours of running time. On several occasions it was necessary to buck snow drifts which were higher than the radiator. When the car was sent into these at a speed of 35 or 40 miles an hour, the snow flew as though a snow plow were boring in. The only real peril encountered was on the final stretch, from Poplar Point to Winnipeg. Here the road was drifted full, from fence to fence, and there was no means of telling the location of ditches, open culverts and the like. However, Mr. Lewers piloted his car through without mishap.

Time and again, at the various points where stops were made, Mr. Lewers says he and Mr. Dunsford were asked where they came from and where they were going. When they said they were on their way from Moose Jaw to Winnipeg, it was either not believed, or they were told that the trip was impossible.

Drastic Legislation Facing Makers of Pirate Auto Parts

In the interest of automobile manufacturers, motor car accessory dealers, the garage man and automobile owners, United States Representative M. A. Morrison of Indiana has drafted and introduced in congress a drastic anti-imitation measure, which promises to play a prominent part in the remedy of an evil which for a time has threatened destruction to the very foundations of the motor car accessory business. The evil referred to is the manufacture and distribution of imitation parts, known as "pirate parts," for repair and repacement on standard accessories with which automobiles are equipped.

In spite of the activity of trade bodies and commercial organizations aaginst the evils of substitution, the quick growth of the automobile industry has resulted in many unscrupulous concerns attempting to unload on the public pirate parts for the replacing of certain wearing parts on standard accessories. Those accessories include magnetos, starting and lighting systems, speedometers and other equipment. The practices of these so-called pirate parts makers obviously affect not only accessories but automobiles as well.

What Do You Know About Parts?

The average car owner knows little or nothing about the parts which constitute the various accessories on his car; but he does know there are certain wearing parts which he may, at some time or other, find it necessary to replace. Take for example the Stewart speedometer, one of the most widely used accessories. Through some cause, perhaps lack of lubrication, the swivel joint which is connected to the flexible shaft, becomes worn. Naturally, the car owner will go to the dealer with whom he is in the habit of doing business, and ask him to furnish a new swivel joint for his Stewart speedometer.

We will assume that the dealer sells to him a swivel joint which, to all outward appearances, is exactly like the original and yet it not made by the original manufacturer. This part may give service and it may not. The chances are that it will not.

Because it costs the reputable manufacturer more money to produce parts for replacement than it does the pirate part maker, inasmuch as he has a reputation to sustain the world over, the need of legislation to overcome the evil has been evident for a long time. It is unfortunate that after a reputable manufacturer has invested millions in factories, equipment, advertising and good will in the production of high grade automobile or accessories, some so-called pirate maker comes along with little or no investment, does not advertise, neither does he brand his product, but whose only aim is to imitate the product of the successful manufacturer and fraudulently, if necessary make an exorbitant and unreasonable profit for himself.

The bill provides that it shall be unlawful for anyone to design, manufacture and offer for sale any article or part for replacement on such article which is similar in design to the product previously registered by the original manufacturer. [illegible]

ELECTRICS INCLUDED IN EMBARGO ORDER

MILBURN WAGON COMPANY OF TOLEDO AMONG FIRST TO RECEIVE BLOW.

Not until recently have the manufacturers of electric vehicles been seriously affected by the embargoes declared by several of the countries involvd in the world war against the importation of automobiles, inasmuch as the embargoes were largely confined to gasoline cars. Steps have been taken, however, to include electric vehicles in the embargo and the Milburn Wagon company of Toledo, Ohio, manufacturers of the Milburn Light Electrics and Town Cars, is among the first to feel the blow.

At the recent New York automobile show, R. S. Woodhull, sales manager for the Milburn company, met a motor distributor from India. Their conversation led to the placing of an order for a goodly number of Milburn cars by the foreigner. The order was especially desirable to the Milburn company, inasmuch as it opened up an entirely new field for their product. All details and arrangements for shipping were quickly concluded.

Just as the shipment was about to leave the factory, came the news that India's embargo on the importation of automobiles had been extended to electrics. Obviously, there was nothing to do but cancel the order and Milburn company must now wait patiently until the war clouds break away before they start in with their India campaign.

DENBY TRUCKS

Fifteen Reasons why Denby Trucks are best for Trail or Pavement.

1—Load carried on solid round chrome nickel steel axle—as in locomotives.
2—Applies the power near the rim of the wheels.
3—Chrome nickel steel gear and pinion: life approximately 200,000 miles.
4—Every working part completely enclosed from mud, grit and water.
5—Internal gears cannot be damaged by temporary neglect to lubricate.
6—Low cost repair parts.
7—Gives greater gasoline mileage.
8—Higher road clearance.
9—Good for life of truck.
10—Less dead weight on tires.
11—Quietness of operation.
12—Very accessible.
13—Perfect lubrication.
14—Rough roads do not damage it.
15—Ordinary garage mechanic can make adjustments.

OFTEN DIFFICULT TO TELL WHEN TIRE IS OF NO MORE VALUE

IF RUBBER IS "LIVE" IT CAN BEAR MANY PATCHES, SAYS H. C. ADAMS.

"How am I to know when an inner tube is 'done,' is a question I am asked repeatedly," declares H. C. Davis of Dallas, Texas, representative of the Goodyear Tire and Rubber company of Texas.

"It is the natural inquiry of a tire user who has had several repairs made on his tubes and wishes to obtain the utmost mileage from them, yet wants to avoid the inconvenience of making a tire change on the road due to tube trouble.

"In these times when economy is the order of the day, a tire user holding an old tube in his hand can well afford to ponder a minute before casting it aside as 'through.'

"It is difficult sometimes to determine just when a tube is unfit for further use. However, porosity in a tube usually indicates that it has attained its three-score and ten. In this stage of use, very small cracks can be observed in the rubber if it is stretched and examined carefully. The next development is splitting when the air pressure becomes too great for the tube to bear.

"If the rubber in a tube is 'live' it may successfully bear as many patches as a beggar's coat. But due care must be exercised in the vulcanization of the patch to the tube, that too large a portion of the tube around the patch is not cured. If portions of the tube have been over-cured in patching operations, disaster is sure to follow.

Improper Care Brings Trouble.

"I believe that the lack of proper care of the tube is responsible for most of the troubles tire users experience. The observance of a few precautions would help wonderfully to eliminate these troubles.

"The absence of sufficient talc between casing and tube allows the generation of heat which vulcanizes the tube to the fabric of the casing. Then if you attempt to remove it, it tears.

"Much tube splitting is occasioned by the slipping of the tube between the casing and the rim, which soon results in a 'pinch.' The remedy is careful applying.

"The protection of spare tubes is a matter that many tire users pass over too lightly. Usually spare tubes are folded and carried in the tool box, where they come in contract with grease, oil and tools.

"The grease and oil greatly reduce the quality of the rubber, while the tools many times cause the tubes to become chafed and worn and unfit for use.

"It seems to me that the whole problem of obtaining maximum tube mileage resolves itself into the simple matter of taking care of it properly."

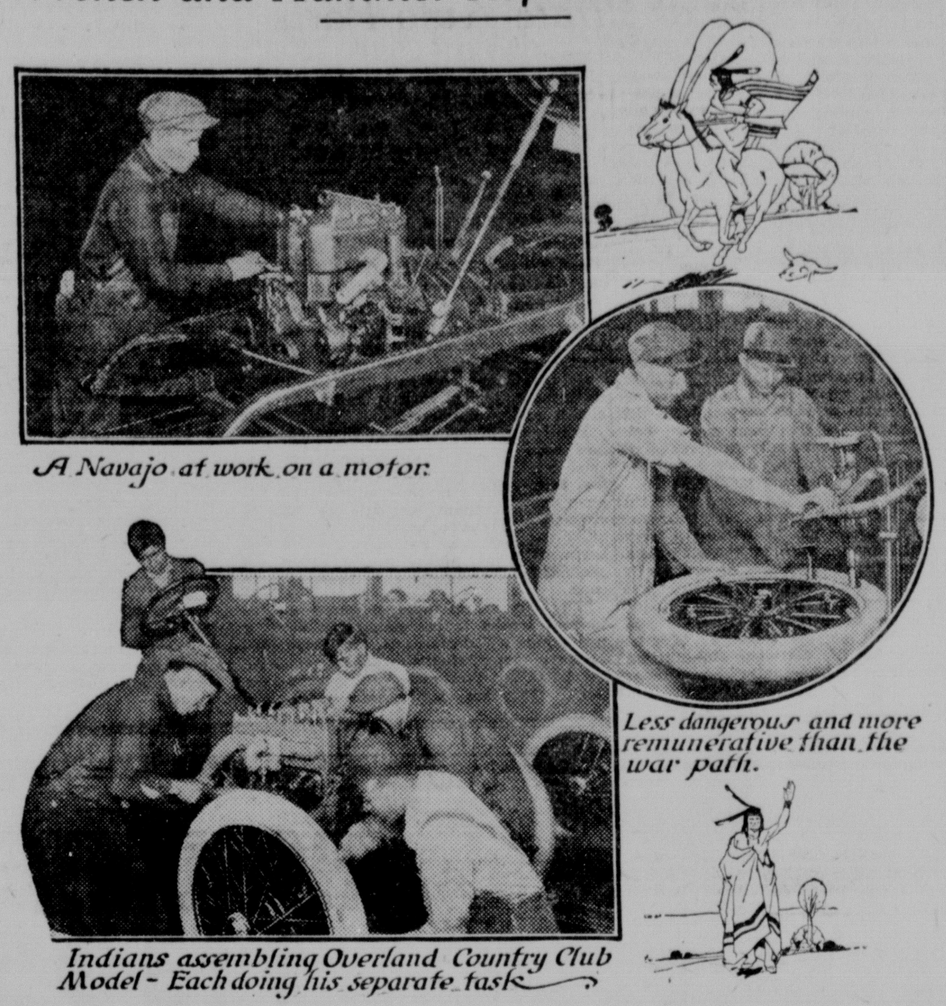

CARD OF THANKS.

We wish to extend our heartfelt thanks and appreciation to our dear friends who tendered us their sympathy and tender kindnesses upon the sad death of our son and brother.

CARS WILL BE READY IN CASE OF INVASON

WOMEN AND CHILDREN COULD BE QUICKLY REMOVED FROM THREATENED AREA.

To take care of women and children first in the event of invasion, Governor McCall of Massachusetts has been offered the use of 1,000 light automobiles and the services of a large corps of trained women drivers. The formation of this auxiliary brigade was undertaken by a prominent motorist at the suggestion of women drivers and is the direct outcome of the motor car mobilization in the East last spring and summer during the preparedness campaign.

As soon as a rupture with Germany became a certainty, offers of cars and drivers began coming in to C. S. Henshaw, Dodge Brothers dealer in Boston, and owing to the number of women drivers who volunteered, it was decided after conference with the authorities that the most useful service to which a reserve corps might be turned would be the removal of women and children from any threatened area, practically every other branch of activity having been covered in plans already made.

It is the purpose of this reserve corps to work in connection with the women's organizations now preparing for active service and it is expected that in the course of the next few days several hundred more women will be enrolled.

Some of these women are already expert enough to act as emergency mechanicians with the women's division, thus releasing for actual military service a number of men drivers who would otherwise be unavailable.

Although only 1,000 Dodge Brothers cars were offered to the governor, Mr. Henshaw states that from information already at hand he would be able to supply two or three times that number of cars and drivers if called upon. Mr. Henshaw was the leading spirit in the previous motor car mobilizations.

ALMOST on the very site of some of the bitterest wars waged a century ago by his ancestors in defense of their hunting grounds, the American Indian today helps the paleface build his "devil wagon."

Just a few miles from Fort Meigs, Fort Miami and some of the other battle grounds of "Tippecanoe" Harrison, "Mad Anthony" Wayne, Tecumseh and other warlike leaders of another day, is the main factory of one of America's largest auto factories, one of the most important units of the automobile industry.

In this factory are a score of full-blooded Indians—Chippewas, Navajos, Iroquois, Pomos, Pueblos—sent there by Uncle Sam from their western reservations to learn another of the trades of the white man.

And these Indians are taking to their training like so many ducks to water. They are very interested in learning what makes the wheels of their automobile go round.

One pair aids in chassis assembly; another pair assembles wheels; five of them are engaged in final assembly; while still others work on running boards, etc.

Instead of being confined permanently to one operation, they are shifted every few months from task to task, in order to give them a general practical knowledge of motor car construction, such as is required by good mechanics, garage men and automobile repair men.

"The work of the Indians is a source of much satisfaction to us," says the foreman of the department. "The Indians we have are among our most willing, most accurate and most painstaking workmen.

"To top this off, they are very ambitious and are reading every bit of literature they can find in connection with their work in order to acquire a better knowledge of the relation of their own particular task to the manufacture of the whole car."

Our Service Batteries are free with repair work. Waco Storage Battery Co.—Adv.

INCREASE IN PRICE OF CARS EXPECTED

COST OF LABOR AS WELL AS MATERIALS HAS MADE NOTABLE FLIGHT.

Automobile dealers are looking for further increases in prices of automobiles. Back of the "increased cost of labor and materials," which has been set forth as the prime reason for many price advances in the last year, is a wide and deep sea of real truth in the automobile industry. If for nothing more than prices and material, market conditions this year will be prenomenal in motor car history.

To be specific about material prices, it is only necessary to mention the open hearth steel, used in automobile drop forgings, which has gone up from 150 per cent to 300 per cent. Next to open hearth, nickel steel has given itself over to making marked advances in price. This material, used extensively in making chasses, is resting temporarily at marks doubling those of last year.

The aluminum market has fallen far short of being stationary, with its present quotations tripling those of two years ago. Tires are higher, with increased prices for crude rubber and fabric. Leather, top materials, copper tubing, the sheet metal used in making fenders, bonnets and dust pans are from twenty-five to 100 per cent higher than in previous years. Then, with these advances, the labor cost, which is the largest single item in making motor cars, has increased by a generous percentage.

A number of automobile manufacturers have revised their retail list figures, but with this they are scarcely keeping up with the procession. Prices to the owners in rare cases have been increased more than ten per cent. With basic materials from one to three times as high as they have previously been and no material at a standstill, it looks as if the car buyer will get more for his outlay now than ever before.

Some of the dealers are looking for sharp advances in prices in the very near future. Those contemplating buying within the next few weeks will likely save money by putting in their orders at the present low prices.

FIRE FAILS TO DELAY SUPPLY OF COLE CARS

The advantages of the modern factory production efficiency methods in case of fire were demonstrated in connection with a fire which broke out in temporary finishing room of the Cole Motor Car company of Indianapolis. In spite of the threatened serious nature of the blaze, the loss was confined to about $10,000, covered by insurance, and the production of Cole Eights was not delayed one minute.

W. E. BROWN, Owner

AUTO TRADE HIT BY CAR FAMINE

FACTORIES IN DETROIT FACE CURTAILMENT OF OUTPUT AND WORKING FORCES.

Serious complications, which would cause some of Detroit's great motor plants to curtail their production and cut down their working force in proportion, threaten Detroit unless immediate relief of the freight car famine is obtained it was authoritatively stated Wednesday by William E. Metzger, chairman of the transportation committee of the National Automobile Chamber of Commerce.

Alfred Reeves, general manager of that organization, expressed the same sentiments, thought he was hopeful the vigorous steps being taken by the N. A. C. C. would afford some relief to the situation.

"Up to the present time the tie-up in the freight situation has not resulted in any shortening of production," said Mr. Metzger, "but unless prompt relief comes a critical situation will confront automobile manufacturers.

Emergency Methods Used.

"They are worrying along so far by using all sorts of emergency methods to get their cars out.

"Flat cars are being extensively used by the motor car manufacturers, and any sort of railroad car upon which an automobile can be loaded is pressed into service.

"There is some forced storage of machines on a small scale, made necessary by the lack of shipping facilities, but even storage facilities are very limited, and unless relief comes soon it will become necessary for the big plants to cut down their output until such time as the cars can be moved.

"Our organization is taking extraordinary steps, not only to relieve the present crisis, but to bring the unloading and movement of freight cars to a 100 per cent efficiency basis. Mr. Waterfall, of the board of commerce transportation committee, is co-operating with us in every way possible and we are hopeful of achieving results that will avert the threatened trouble."

Special Cars Not Returned.

General Manager Reeves, who has made a survey of conditions all over the country, declares the main trouble for the Detroit automobile makers lies in the fact that the special automobile freight cars owned by the Michigan Central and other railroads, when shipped away with a consignment of motor cars are held by other lines and used for other freight.

SOUTH ACTIVE IN GOOD ROAD WORK

SENATOR PREDICTS U. S. EVENTUALLY WILL HAVE WORLD'S FINEST HIGHWAYS.

"I predict that in the lives of the younger men now before me will be seen from ocean to ocean in the United States the greatest system of highways to be found anywhere in the world," was the prediction of Senator John H. Bankhead, recently uttered in Atanta at a meeting of its convention bureau, held for the purpose of accelerating the building of the Bankhead highway through the Southern states.

"The present federal appropriation of $85,000,000 is but the beginning of the work that the national government will shortly be doing in the matter of road construction," asserted the chairman of the senate committee on post-offices and post roads. "Before the expiration of the five-year period in which this money will be expended in conjunction with $75,000,000 contributed by the several states I expect to see the congress making appropriations of from $50,000,000 to $75,000,000 annually for highways progress."

It is doubtful if a more enthusiastic series of good roads meetings have been held than the sessions which had to do with the Atlanta gathering in connection with the Bankhead highway, to extend from Washington to Richmond, Va.; to Atlanta, Ga.; to Birmingham, Ala.; to Memphis, Tenn., and then across Arkansas and on to the Pacific coast over a route not yet decided upon. Governor Harris of Georgia, Mayor Candler of Atlanta and Judge T. E. Patterson, chairman of the state highway commission, were among the speakers at the luncheon given in honor of the Alabama senator, whose name was coupled with that of Representative D. W. Shackleford of Missouri in the passage of the federal aid road act.

Private Citizens Offer 49,000 Automobiles for Nation's Use

Los Angeles, March 10.—There are approximately 49,000 privately owned motor cars ready for service in America in case of any crisis arising which would involve this country.

These have been offered to the government through the league of automobile clubs which are volunteering complete memberships to serve the United States. The plan for the preparation of mobilization of the automobile owners of America inaugurated here by the Automobile Club of Southern California has borne larger fruit than was even contemplated, and club after club throughout the states is falling into line.

Indorsements of the plan to put club departments at the disposal of the government in case of war have been received by the secretary of the Automobile club here from the states of Texas, Oregon, Kansas, Georgia and Washington.

Texas Starts Work.

Texas, according to letters and telegrams received in Los Angeles, has methodically started about the mobilization work under the supervision of the Dallas Automobile club, which is reporting regularly to the Automobile club of Southern California. Georgia has volunteered 15,000 automobiles, to be mobilized through the Georgia State Automobile association, which has wired the Southern California club as follows:

"The Georgia State Automobile association, 15,000 strong, very heartily indorses the movement towards preparation for national mobilization of automobile owners throughout America. We are ready to serve as a base for the mobilization of cars."

From the Automobile club of Seattle, of Kansas City, Portland and Dallas, have come similar indorsements, each offering to serve as a base for the marshaling of cars and trucks. These clubs are located in some of the most strategic sectons of the United States and would be of prime importance at a crisis. From H. C. Bramley, secretary of the Dallas organization, Secretary Mitchell has received the following report:

"We wish to congratulate the Southern California club on the inception of this meritorious movement and hope that it will be eminently successful. This plan surely deserves the co-operation of every automobile organization in this country. The recollection of the saving of Paris through the timely aid of the private and public automobile owners of France, is a strong argument in favor of automobile organization preparedness here.

"As the largest automobile club in Texas, we are taking the liberty of transmitting our indorsement to the other clubs of the state."

Fort Worth Favors Plan.

This act has resulted in the following word being received from the Fort Worth chamber of commerce: "There is no automobile club in Fort Worth, but this organization attempts to perform the functions of one. We are strongly in favor of your plan and extend to you our wish to co-operate with you."

William G. Shepherd, well known as an authority on military matters, and who served as a correspondent in Paris during September, 1914, when that city was being marched upon, says: "The Gallieni taxicabs, which will take their place in history with the geese that saved Rome, were gathering near Napoleon's tomb to carry the army of Paris out to the front at Meaux." He might have added that the private owners of automobiles were likewise sending thousands of men to the front in their own cars.

A strong argument for the preparation of the mobilization of automobile owners has been advanced by Maj. A. A. Fries, corps of engineers, U. S. A., in which he outlines the importance of good roads and the automobile in moving troops, ammunition and supplies along the Pacific coast, and from the Middle West to either coast.

Rapid Start Means Victory.

During mobilization and the early stages of war there will be many and rapid movements of large bodies of troops, he points out, and here automobiles and roads will be deciding factors, for a rapid start very often means victory.

"In the second stage, or during the trench-war period, when hundreds of thousands of rounds of high explosive shells will be required for every twenty-five miles of battle front, the number of automobiles required would be enormous," he says.

Maj. Fries predicts that it would be possible to get 200,000 motor cars together in a week's time, but officials of the Automobile club of Southern California state that with the club's mobilization plan in operation, that is, using the roles of all automobile organizations, the feat could be accomplished in twenty-four hours.

According to army statistics advanced by the major 200,000 machines could transport 600,000 to 800,000 men 150 to 300 miles a day if there were sufficient good roads in the war zone. Allowing 350 machines, two abreast, per mile, 7,000 men could be delivered where wanted each hour. That is, approximately 3,500 men per hour for each eight feet width of road surface.

So far as highway bridges are concerned, if they are built to sustain a fifteen-ton road roller, an army can go over them in safety, he states, since an ordinary field gun and some of the lighter howitzers weight about four or five tons.

It is pointed out by club officials here that a call sent out from the headquarters of the organization in Los Angeles, from each of its twelve branch offices and from its twenty touring bureaus throughout Southern California, would result in the putting into service of 18,000 automobiles with a capacity of five men each. This would mean practically the immediate transportation to any desired point of 90,000 human fighting machines.

Texas could do the same, while the states of Washington and Oregon would also be able to marshal a large number of cars through the club rolls.

That the co-operation of practically every organization in the country is to be sought was the statement made yesterday by Secretary Mitchell, and then work on the forming of the League for the National Mobilization of Motorists will actually be put under way.

INDUSTRIAL TRUCKS BECOME NUMEROUS

DEMAND INCREASES TWO HUNDRED AND FIFTY PER CENT ANNUALLY, SAYS WILSON.

Ever since the advent of the steam locomotive there has been much speculation as to whether similar transportation power would come into general use on our streets and roads. For years many minds have turned over this great problem, but only within the past dozen years have pleasure motors reached a practical development, and only within the last half dozen years have motor trucks been operated efficiently and economically.

Following in the wake of these two has come the motor-powered industrial truck, to replace the slow-moving, man-powered factory trucks and push carts, which have for years constituted a part of the regular equipment of our factories, warehouses, department stores, freight terminals, packing houses and many other industries.

"The demand for motor-powered industrial trucks is increasing 250 per cent annually," declares R. S. Wilson, manager, motor truck tire department, the Goodyear Tire and Rubber company. "They are in successful operation in practically every kind of industry in the country. These trucks have a carrying capacity up to two tons and may be operated wherever floors or yards will support this weight.

Low Upkeep.

"Up to the present the motive power used has been electricity, although an industrial truck has recently appeared which is propelled by a gasoline motor. From continuous operation records kept at nine railroad terminals using more than 200 electric trucks for the handling of mail and baggage, where formerly hand trucks were used, a saving in operating cost of 60 per cent has been effected. The low upkeep, ease of control, capacity and speed recommend the use of these trucks in any industry where supplies, raw materials or parts of finished product must be transported from one department to another.

"As a manufacturer of industrial truck tires, the Goodyear Tire and Rubber company is vitally interested in the progress and development of this new industry and intends to keep pace with it. A majority of all the industrial trucks manufactured leave their factories on our tires.

"The tires used are solid rubber and are made in the pressed-on type. They vary in size from 10x3 to 27¾x4¼, according to the load to be carried."

DO YOU KNOW DIFFERENCE IN TYPES OF CARS?

What is the difference between a coupe and a couplet, a touring car and a salon touring car? Here it is, with other body types and distinctions, officially determined recently by the nomenclature division of the Society of Automobile Engineers:

Roadster—An open air seating two or three. It may have additional seats on running boards or in rear deck.

Couplet—Seats two or three. It has a folding top and full height doors with disappearing panels of glass.

Coupe—An inside operated inclosed car seating two or three. A fourth seat facing backward is sometimes added.

Convertible Coupe—A roadster provided with passage between front seats, with or without separate entrance to front seats.

Convertible Touring Car—A touring car with folding top and disappearing or removable glass sides.

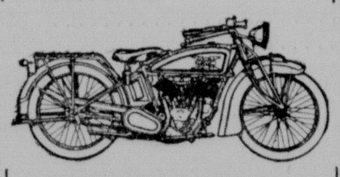

Sedan—A closed car seating four or more all in one compartment.

Convertible Sedan—A salon touring car provided with a detachable sedan top.

Open Sedan—Sedan so constructed that the sides can be removed or stowed so as to leave the space entirely clear from the glass front to the back.

Limousine—A closed car seating three to five inside, with driver's seat outside, covered with a roof.

CHANDLER SIX $1395

See How the Chandler Checks With High-Priced Cars

Wherein and how does the Chandler excel other cars in its price field, you may ask. In many ways it excels and in all ways taken together it excels tremendously.

Now see how the Chandler checks with eight of the best known high-priced cars in seven features selected as being *characteristic* of high grade design and most excellent service.

No. 1—Aluminum Crank Case.
Packard, Pierce-Arrow, Winton, White, Stutz, Mercer, Cadillac

No. 2—Aluminum Crank Case, which ties the frame of the car together at four points at front and rear sides of the motor, giving perfect rigidity to the motor mounting.
Packard, Locomobile (bronze crank case), Winton, Stutz, Mercer

No. 3—Silent Chains for Driving Motor Shafts.
Packard, Winton, Mercer, Cadillac

No. 4—Annular Ball-Bearing Transmission.
Packard, Pierce-Arrow, Locomobile, Winton, White, Stutz, Mercer, Cadillac

No. 5—Annular Ball-Bearing Differential.
Packard, Pierce-Arrow, Locomobile, White, Stutz

No. 6—Annular Ball-Bearings for Rear Wheels.
Packard, Locomobile, White, Stutz, Mercer

No. 7—High Tension Magneto Ignition.
Pierce-Arrow, Locomobile, Winton, White, Stutz, Mercer

CHANDLER HAS ALL THESE FEATURES

Now, what about other well-known cars in the Chandler price field? Of six other medium-priced six-cylinder cars,

One car, listing at $1650, checks with the Chandler in only two features;

One car, listing at $1495, checks with the Chandler in only two features;

One car, listing at $1385, checks with the Chandler in only two features;

One car, listing at $1250, checks with the Chandler in only two features;

One car, listing at $1325, checks with the Chandler in only two features;

One car, listing at $1725, checks with the Chandler in four features.

Not a single one of the six makes of medium-priced Sixes referred to offers you High Tension Magneto Ignition. The Chandler offers you Bosch, recognized the world over as the best ignition system.

Not a single one of them offers you the silent chain drive, though one of them, in a *higher-priced* model ($2225), incorporates this feature.

Chandler checks with the high-priced cars. Chandler *performs* with the high-priced cars.

The manufacturer of one Six can make just as big *claims* as any other. The Chandler Company likes to deal in facts.

For years the Chandler Company has made the Chandler a *fact*-car, not a *claim*-car.

Claims sell a lot of cars, but facts sell *more* cars, just as fast as the buyers learn the facts.

The Chandler is honestly built and moderately priced. There is no other Six selling at anything like the Chandler price which will give you *so much* dependable service.

So many recognize its superiority that the Chandler has earned a front rank position in the industry. So many recognize it that twenty-five thousand buyers this year will choose the Chandler as the Six to be preferred above all Sixes.

VIENNA COMMENTS ON REVOLUTION: CAME UNEXPECTED

CENTRAL POWERS ARE WONDERING WHAT OLD REGIME WILL DO IN FUTURE.

By Associated Press.

Vienna, Friday, March 16.—Via London, March 17.—The news of the revolution in Petrograd produced the greatest sensation here, but there is no official inclination to pass judgment on the probable effect of this entirely unlooked for event in the war. General opinion here is that the course of the war will at least be influenced by the moral effect of the Petrograd coup because its swiftness and extent has introduced a new factor in the world's political and military activities. Responsible circles withhold any statement regarding the extent to which the revolution may influence military operations on the eastern front in the immediate future. Much would depend, they say, on what the old Russian regime will do. Some are inclined to believe that the emperor will accept the new state of affairs, while others express the opinion that the deposed factions will move against their liberal adversaries and in so doing cause a civil war, the result of which might be far-reaching.

There also is much speculation as to what effect the revolution will have on the Russian troops on the fighting front. Many incline to the belief that the liberals plan by their act to augment Russia's participation in the war, but it is felt here that they will get scant sympathy from the men in the trenches and that the soldiers would readily support the old government if by doing so they could bring peace nearer.

DANDRUFF GOES! HAIR GETS THICK, WAVY, BEAUTIFUL

SAVE YOUR HAIR! DOUBLE ITS BEAUTY IN A FEW MOMENTS. TRY THIS!

HAIR STOPS COMING OUT AND EVERY PARTICLE OF DANDRUFF DISAPPEARS.

Try as you will, after an application of Danderine, you cannot find a single trace of dandruff or falling hair and your scalp will not itch, but what will please you most, will be after a few week's use, when you see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp.

A little Danderine immediately doubles the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is immediate and amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance; an incomparable lustre, softness and luxuriance, the beauty and shimmer of true hair health.

Get a 25-cent bottle of Knowlton's Danderine from any drug store or toilet counter, and prove that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment—that's all.

Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating, stimulating and life-producing properties cause the hair to grow long, strong and beautiful.

UNCLE SAM'S MASTER SLEUTH ROUNDS UP TRAITORS AND SPIES

William J. Flynn (center) and official German spies he has driven from country. At left, Capt. Franz von Papen (above) and Robert Fay. Right, Capt. Karl Boy-Ed (above) and Wolf von Igel.

RABBI WARSAW IS CONSIDERING AIR RIDE, SAYS PILOT

In respect to the memory of W. D. Lacy, who died yesterday and funeral for whom is to be held this afternoon at 3 o'clock, plans for an ascension in Captain Theodore's airplane, to have been made by a prominent Wacoan today, have been postponed. Captain Theodore announced last night that he would probably assist aviators at Marlin this week in filling their schedule of exhibitions before crowds at the style show there.

Captain Theodore also stated that Rabbi Warsaw was contemplating making an ascension with him next Sunday afternoon. Captain Theodore has a record of never having made an unsuccessful flight yet.

Or Stored Hen Eggs.

A family in a small town kept a few chickens and often had eggs from their own yard. One morning as the seven-year-old of the family came to breakfast he noticed the eggs on the table and inquired, "Mamma, are these store eggs or hen's eggs?"—The Christian Herald.

Allurements of Imagination.

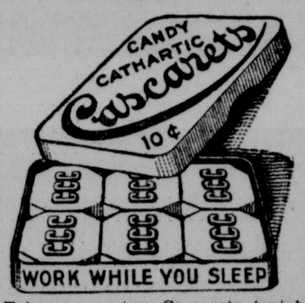

"Poetry and eloquence are not appreciated in this country."

"You are mistaken. Without them it would have been impossible for a large number of expert salesmen to sell me things."—Washington Star.

DON'T BE BILIOUS, HEADACHY, SICK OR CONSTIPATED

ENJOY LIFE! LIVEN UP YOUR LIVER AND BOWELS TONIGHT AND FEEL GREAT.

Wake Up With Head Clear, Stomach Sweet, Breath Right, Cold Gone.

Take one or two Cascarets tonight and enjoy the nicest, gentlest liver and bowel cleansing you ever experienced. Wake up feeling grand, your head will be clear, your tongue clean, breath sweet, stomach regulated and your liver and thirty feet of bowels active. Get a box at any drug store now and get straightened up by morning. Stop the headache, biliousness, bad colds and bad days. Feel fit and ready for work or play. Cascarets do not gripe, sicken or inconvenience you the next day like salts, pills or calimel. They're fine!

Mothers should give a whole Cascaret any time to cross, sick, bilious or feverish children because it will act thoroughly and can not injure.

Special to the News.

WASHINGTON, March 17.—While the country has been stirred to the depths during the past two years by the activities in this country of German spies, the name of William J. Flynn, chief of the United States secret service, who has driven the worst of these men out of the country or put them behind prison bars, has rarely been mentioned. Yet so remarkable has been Flynn's success that today he might well be called the world's master sleuth.

The American public does not know how honeycombed with spies and traitors this country has been during the past two years. Said a high public official, whose name is withheld for obvious reasons:

"The infamous treachery of the imperial German government, which was seeking at a time when the two nations were supposed to be bound to each other by long ties of friendship, has accentuated the enormity of the plots undertaken here. The vileness of the methods adopted by Germany was brought with full force to the public recently when the United States government exposed the Zimmermann note to Mexico. But this same sort of treachery and plotting has been going on in the United States two years and more. And the most astounding part of it all is that German-American citizens and even Americans without a drop of German blood in their veins have aided the Germans in Germany in efforts to betray and ruin America."

During the past two years the German government has not only employed hundreds of spies to work secretly as private citizens to undermine the country; it has used men connected with the German embassy at Washington—guests of the United States, if you please—to plot far-reaching injury against the country. Among the men of this sort who have been close to the German ambassador, and whose spy activities have been run to earth by Flynn and his associates are: Capt. Franz von Papen, military attache to the German embassy, who referred to Americans as "those idiotic Yankees" and who was caught in various plots to destroy American munitions factories; Capt. Karl Boy-Ed, naval attache to the German embassy, who was also caught in munitions plots; Wolf von Igel, very closely associated with Ambassador von Bernstorff, and upon whom papers were found showing he was deeply mixed up in many plots against the peace of America, and Robert Fay, official German spy, who plotted the destruction of ships carrying American munitions to the allies, and who was sentenced to a term of years in the Atlanta penitentiary.

ORDER BREAD SOLD BY WEIGHT.

British Bakers Must Make Loaves of Either Two or Four Pounds.

Within a few days the food controller will issue an order making it compulsory to sell bread by weight all over the country.

In London and other places bread is sold by weight when the customer buys it over the counter. Elsewhere the assize system is in force, and the weight of the load is reduced as the price of flour rises. In future every loaf will have to be two pounds or four pounds in weight.

Bakers say they will have much difficulty in carrying out the order, if the bread has to be delivered.

It would solve this difficulty and release labor for more useful work if all bread and flour was fetched from the shop.

To save labor in building roads, a cart has been invented that spreads stone evenly as it is dumped.

SANGER PAYROLL GRABBED BY THIEF DALLAS SATURDAY

By Associated Press.

Dallas, March 17.—Bandits this afternoon robbed Clyde Miller and Harry Cohn, who were carrying the Sanger Brothers overall factory payroll of $1,500, and escaped in an automobile. The bandits are reported to have taken a southerly direction.

Miller and Cohn had just entered the overall factory with the money when two men attacked them, beating them on the heads with pistols. Both men were knocked down by the bandits who then grabbed the satchel containing the money and escaped into the street, where the automobile with the engine running was awaited. Deputy sheriffs and police pursued the robbers. Later the police announced they had captured two men believed to be those who held up and robbed Miller and Cohn.

Once This Beauty Had Pinples

Stuart's Calcium Wafers Proved That Beauty Comes from the Blood and from Nowhere Else.

Prove This with Free Trial Package.

Plaster your skin all over and you'll stop breathing in an hour. There is only one way to remove pimples, blackheads, eruptions and eczema with its rash and itch, and that is by the

blood. In Stuart's Calcium Wafers, the wonderful calcium sulphide at meals serves to supply the blood with one of the most remarkable actions known to science. This is its activity in keeping firm the tiny fibres that compose even such minute muscles as those which control the slightest change of expression, such as the eyelids, lips and so on. It is this substance which pervades the entire skin, keeps it healthy and drives away impurities. Get a 50c box of Stuart's Calcium Wafers at any drug store and learn the great secret of facial beauty.

SECRET SERVICE IN CLOSE GUARD OF MEXICAN MOVES

BREAK BETWEEN CARRANZA AND OBREGON STILL CONSIDERED MORE THAN RUMOR.

By Associated Press.

El Paso, March 17.—Secret service agents continued to watch the movements of a number of well known Mexican military men and politicians here following the rumor yesterday of a prospective break between Carranza and Obregon. The unusual activities of these Mexicans continued today and several informal meetings of the various factions were held.

Emphatic denial of the rumor was issued today by Andres Garcia, inspector general of Mexican consulates.

"For military reasons we are not in possession of definite information regarding the operations of General Murguia's forces south of Chihuahua City," Mr. Garcia said today. "But I am in position to deny absolutely and emphatically the unfounded rumor that General Obregon is planning or has planned a movement against General Carranza."

ANSWER U. S. NOTE.

By Associated Press.

Mexico City, March 17.—In answer to the communication of the United States to the Mexican note which proposed that the neutral nations unite in an effort to bring about peace in Europe, or as an alternative, place an embargo on shipments to belligerent countries, the Mexican government issued tonight an absolute declaration of neutrality, asserting that it is the determination of Mexico to devote its efforts to keeping any country on this continent from taking part in the European war.

The Mexican statement also sets forth that it will continue its efforts with neutral countries with the object of securing European peace.

DE FACTO FORCES LOSE.

By Associated Press.

El Paso, March 17.—Gen. Francisco Murguia, commander of the de facto forces of the north, suffered his first important defeat in his campaign against Villa at Las Nieves ranch in Durango near the Chihuahua-Durango line late last week. This was established today after the receipt of unconfirmed reports. It was admitted in Juarez today that Villa had been successful against Murguia's troops south of Parral and that Villa temporarily held Parral, Magistral and possibly Jimenez and Santa Rosalia.

Boston Court Bomb Claims Second Victim

By Associated Press

Boston, March 17.—The identification tonight of the second victim of the bomb explosion in the ante-room of the Suffolk county courthouse yesterday as Daniel Brady of this city and the opinion of experts that the bomb is identical with one that partly wrecked the harbor police station a few months ago, deepened the mystery surrounding the explosion.

The police theory has been that the hitherto unidentified man had perished by his own bomb and that Louis A. Zeelinger, a janitor, had lost his life in trying to take the explosive from the one who carried it. Tonight, however, Police Superintendent Crowley said that he was convinced that Brady did not place the bomb.

Waco Hertzian Society Organized With Officers

The Waco Hertzian society has been organized with the following officers: Paul Deeley, president; Gordon White, vice president; Willis McCracken, secretary; Ernest Wright, treasurer; Max Werkenthin, chief engineer.

A new radio station will be erected, it is announced, as soon as a location can be secured and details and plans completed. A committee has been appointed to secure a location. Members of the High School Radio club maintain that the former organization was not a portion of the high school work or regular course and thus was not under the control of the school board.

BRYAN SPEAKS AT AUSTIN TO SOLONS OF LEGISLATURE

DISCUSUSES WOMAN SUFFRAGE, STATES' RIGHTS, PEACE AND PROHIBITION.

By Associated Press

Austin, March 17.—Woman suffrage, states' rights, peace and prohibition were discussed in an address by William Jennings Bryan before a joint session of the house of representatives and senate of Texas, attended by 2000 persons here today. Mr. Bryan's address was regarded by many hearers as "boosting" for the re-election of Morris Sheppard to the United States senate next year.

Mr. Bryan gave advice to the Texas legislature, and particularly those who voted against submission and warned them that by their actions in refusing to vote submission when the majority of the people of the state had spoken for it, they were "hastening the day of national prohibition."

Mr. Bryan devoted considerable time to speaking of "continual encroachment on states' rights" by the federal authorities and particularly in the railroad situation charging the interstate commerce commission was rapidly assuming the powers of the state, and warning the people not to submit.

In closing his speech he said: "I am now going to give whatever strength I have remaining to prevent the democratic party from dying of delirium tremens or perishing in a drunkard's grave."

Burglars at Gause Get $100 in Jewelry

Special to the News.

Gause, Tex., March 17.—Burglars entered Avera Brothers drug store Tuesday night and carried away about one hundred dollars worth of jewelry, consisting mostly of watches and pocket knives. The burglars entered through the sky light after making an attempt to enter through the back door by cutting a hole with a pocket knife so as to open the door. Officers have no clew.

Fifteen Cars Potatoes Held Up at Texarkana

By Associated Press.

Texarkana, Ark., March 17.—Fifteen carloads of potatoes, valued at $27,480, being shipped from Seattle, Wash., to points east of the Mississippi river, were tied up her today because of the Iron Mountain railway's embargo.

MOVE FOR NEW TRIAL.

By Associated Press.

McKinney, March 17.—Attorneys for R. W. Burrgas, recently found guilty of assault to murder of J. W. Cashley, cashier of the Collin county bank, and sentenced to two years in the penitentiary, today filed a motion for a new trial.

HIGH SCHOOL TO HOLD ANNUAL TRACK CONTEST

The annual interclass contest for championship of Waco Hi will be held on the high school grounds next Tuesday afternoon. This meet was scheduled for last Friday, but was postponed on account of rain.

Captains Scudder of the seniors, O'Neal of the juniors, Barron of the sophomores and Knox of the freshmen have put their men through preliminary trials and all entries are now ready for Tuesday's contest.

The following men are expected to be among the highest point winners: Harlow, O'Neal, Scudder, Mathews, Megarity, Collier, Birkhead, Barron, McCall, Knox, Collins and Buchanan.

The prizes to be given are as follows: To the class winning the meet, a silver loving cup, donated by W. A. Holt; to winning relay team, silver loving cup, gift of Naman; to highest individual point winner, silver medal, gift of Golding; to winners of first places in the various events, medals given by Armstrong & Pfaeffle, Fred Studer company, Naman and Levinski.

This contest will discover lots of good material for the two big state high school meets to be given by A. & M. college, April 20-21, and the University of Texas, May 4 and 5. More than sixty high school athletes have reported for training and others are coming out daily as they learn their possibilities and need for the exercise.

Texas Troops Will Come Home During Month

By Associated Press.

Corpus Christi, March 17.—Dates for mustering out the Texas troops at Camp Scurry have been announced as follows:

Second infantry, March 23; Third infantry, March 26; field artillery and hospital, March 24.

Postmasters Are Warned to Watch for Numbers

Special to the News.

Mangham, March 17.—On March 2, 1917, the postoffice at Mangham, La., was burglarized and a book of blank money order forms, numbered 46601 to 46800, stolen. The person who took the forms will probably fill them out and attempt to cash them. In order that the public may be warned against cashing any of the money orders referred to, postmasters have been warned to be on the lookout for them.

TICKET OFFICES CLOSE EARLIER.

Beginning with yesterday, the city ticket offices of all Texas railroads were closed at 5:30 o'clock, and during the summer months and early fall the closing will be earlier on Saturday. From June 1 to October 1 the offices will be closed at 1 o'clock Saturday afternoons, it was announced by District Passenger Agent W. A. Morrow and City Ticket Agent Mart Schaffer of the Katy railroad.

Miss Gardner Wins Tennis Championship at Waco Hi

In the tennis tournament being held on the Waco high school court, the following games were played last week:

Miss Jewel Garner won the girl's championship in the singles by defeating Miss Pauline Pipkin in a hard fought, evenly matched game. Miss Pipkin took the first set with a score of 6-2, but Miss Garner won the last two sets with scores of 6-3 and 6-4.

In the doubles, Miss Josephine Daniel and Miss Pauline Pipkin defeated Miss Alla Blanch Duncan and Miss Mae Smith by a score of 6-0 and 6-0.

It is hoped to decide upon the girls' doubles champions next week.

Japan is increasing its consumption of bread, but little used heretofore because of the native opposition to butter, by teaching children to eat it with syrup.

Bauerle Receives Commendatory Letter

Fire Chief Ed Bauerle yesterday morning received the following self-explanatory letter commending the work rendered by the Waco fire department on the night of March 1:

Waco, Tex., March 17, 1917.

To the Firemen of Waco:

Gentlemen—It affords us much pleasure to assure you of our great appreciation of your very prompt and effective work in the recent fire in our building on the square. Prompt action of the fire boys saved the building from a total loss, as the fire was burning fiercely, but the boys soon had it under control. Enclosed please find check for $25 as a small token of our appreciation. With best wishes for the Waco fire boys, I am always your friend, RICHARD JURNEY.

Forests cover one-fourth of the area of the kingdom of Saxony.

Peruna Did Me More Good Than Two Years Under Doctor's Care

I Am Able to Work. Before I Could Not Help Myself.

Mrs. O. D. Robinson, No. 36 St. Felix St., Brooklyn, N. Y., writes: "I have taken Peruna and it did me more good than all my two years' treatment by special physicians. I can really say that I feel like another person. No more swollen feet and limbs. No more bloating of the abdomen. No more shortness of breath. No more stiff and sore joints. You have no idea what your treatment has done for me. It certainly has prolonged my life and made a new woman of me. Oh, such a blessing I have received through your kindness, Doctor, and the assistance of the medicine which you so kindly prescribed. I am able to work since I began your treatment, but before I was not able to help myself, much less work for any one else. All praise is due to your medical department and treatment."

Those who object to liquid medicines can now procure Peruna Tablets.

Mr. Dry Goods Merchant

Send us your fill-in orders for Hosiery, Gents' Furnishings, Underwear, Overalls, Nations, Shirts, Staple and Fancy Dress Goods.

We are carrying ample stocks of above in our Waco Wholesale House and can make prompt shipments. Send us your mail orders, or phone at our expense.

125 North Fifth—Telephone MRS. J. J. RIDDLE

How Publicity Helped Mrs. Thomas to Health

DOCTOR HAD DECREED OPERATION WHEN SHE READ OF MRS. DUNLAP'S EXPERIENCE.

Some time ago Mrs. R. C. Dunlap of DeKalb, Mo., wrote to the St. Joseph, Mo., News-Press telling how, after years of suffering with stomach trouble, she had been relieved of a quantity of gall stones and restored to health through using Fruitola and Traxo. This letter was published and read by Mrs. Georgia Coe Thomas of Lancaster, Mo., who had been told by her doctor, after months of treatment for similar trouble, that nothing but an operation would save her. Mrs. Thomas obtained Fruitola and Traxo from the drug store, and says: "By the time I had taken a month's treatment I felt like a new woman; the first dose of Fruitola brought a large number of gall stones and I am certain Fruitola and Traxo saved my life."

Fruitola and Traxo are compounded from the original Edsall formulas at the Pinus laboratories in Monticello, Ill., and can be purchased in Waco at W. B. Morrison's Old Corner Drug Store; a doctor's prescription is not necessary. Fruitola is a pure fruit oil that acts as an intestinal lubricant and disintegrates the hardened particles that cause so much suffering, discharging the accumulated waste to the sufferer's intense relief. One dose is usually sufficient to indicate its efficacy. Traxo is a tonic-alterative that is most effective to rebuild and restore the weakened, rundown system.

A booklet of special interest to those who suffer from stomach trouble can be obtained by writing to the Pinus Laboratories, Monticello, Illinois.

"Come on Over and See My Corn Just Fall Right Off!"

"I Put 2 Drops of 'Gets-It' on Last Night—Now Watch."

"See—all you have to do is to use your two fingers and lift the corn right off. That's the way 'Gets-It' always works. You just put on about 2 drops.

"That Was a Quick Funeral That Corn Had With 'Gets-It'."

Then the corn not only shrivels, but loosens from the toe, without affecting the surrounding flesh in the last. Why, it's almost a pleasure to have corns and see how 'Gets-Is' gets them off in a hurry and without the least pain. I can wear tight shoes, dance and walk as though I never had corns at all."

"Gets-It" makes the use of toe-irritating salves, bundling bandages, tape, plasters and other things not only foolish, but unnecessary. Use this wonderful discovery. "Gets-It" for any soft or hard corn or callus. It is the new, simple, easy, quick way, and it never fails. You'll never have to cut a corn again with knives or scissors, and run chances of blood poison. Try "Gets-It" tonight.

"Gets-It" is sold everywhere, 25c a bottle, or sent on receipt of price by E. Lawrence & Co., Chicago, Ill.

Sold in Waco and recommended as the world's best corn remedy by Powers-Kelly Drug Co., O. K. Stetler and Provident Drug Co.

STOMACH SYMPTOMS

A leading physician of Chicago says: "Merely easing the pain with narcotics to give relief is a long ways from a cure for stomach trouble. Besides the danger of neglect or inadequate treatment may lead to more serious maladies. What appear to be only minor troubles are often the symptoms of gall stones, acute indigestion, gastritis, constipation, auto-intoxication, yellow jaundice, appendicitis, cancer and ulcers of the stomach and intestines, or other fatal ailments." Stomach sufferers should take warning. Do not have blind faith in treatments that are giving no results. Much suffering could be avoided, many surgical operations prevented, scores of lives saved had Mayr's Wonderful Remedy been taken in time. It is not a long-drawn-out treatment. It acts on the very source and foundation of stomach, liver and intestinal ailments, eliminating from the system the hard, poisonous catarrhal secretions and shows them to you. Try a dose tonight—tomorrow your days of torture will be over and another friend will be added to nearly a million grateful human beings, many who declare Mayr's Wonderful Remedy has saved their life. Get it from your druggist today—tomorrow may be too late. For sale by W. B. Morrison Drug Co. and druggists everywhere.

Waco Adwriters' League to Meet Next Friday

The Waco Adwriters league contest next Friday evening at the Raleigh will be for the best copy for the Amicable printery. Chairman J. J. South of the educational committee has several interesting features that will be considered. Among other important matters will be a report from the vigilance committee of the organization. The trial committee will hear and pass on charges against a local advertiser for violation of one of the rules of the association. The meeting will begin at 6:30 o'clock.

LOOK AT A CHILD'S TONGUE IF SICK, CROSS, FEVERISH

HURRY, MOTHER! REMOVE POISONS FROM LITTLE STOMACH, LIVER, BOWELS.

GIVE CALIFORNIA SYRUP OF FIGS AT ONCE IF BILIOUS OR CONSTIPATED.

Look at the tongue, mother! If coated, it is a sure sign that your little one's stomach, liver and bowels need a gentle, thorough cleansing at once.

When peevish, cross, listless, pale, doesn't sleep, doesn't eat or act naturally, or is feverish, stomach sour, breath bad; has stomach-ache, sore throat, diarrhoea, full of cold, give a teaspoonful of California Syrup of Figs, and in a few hours all the foul, constipated waste, undigested food and sour bile gently moves out of the little bowels without griping, and you have a well, playful child again.

You needn't coax sick children to take this harmless fruit laxative; they love its delicious taste, and it always makes them feel splendid.

Ask your druggist for a 50c bottle of California Syrup of Figs, which has directions for babies, children of all ages and for grown-ups plainly on the bottle. Beware of counterfeits sold here. To be sure you get the genuine, ask to see that it is made by California Fig Syrup Company. Refuse any other kind with contempt.

Says Thick Sluggish Blood Should Be Purified

A Greasy, Pimply Skin, a Foul Odor to Perspiration, Boils and Aches and Pains All Banished by Sulpherb Tablets. Like Grandma's Remedy for Spring.

Take these tablets made of sulphur, cream of tartar, calcium sulphide and extracts of rare herbs and take regularly for a month or so, and you can drive the poisons out of your system. Sulpherb Tablets are wonderful to overcome constipation, sluggish liver and kidneys and they quickly start all the eliminative organs working. They "flush the sewers," as it were, and you will feel their fine effects all through spring and summer. Headaches, catarrh, neuralgia, rheumatic pain, constipation and kindred ailments due to poisons in the blood, all go, the skin clears, pimples and boils are absorbed and pass out through the proper waste channels. Every package is guaranteed so you can prove it easily. Good for children and adults. All druggists 50c per sealed tube. Get Sulpherb Tablets (not sulphur tablets).

LACY FUNERAL TO BE HELD TODAY

WILL BE CONDUCTED FROM THE RESIDENCE AT 3 O'CLOCK THIS AFTERNOON.

Funeral services of W. D. Lacy, who died Saturday night at 7 o'clock, will be held at 3 o'clock this afternoon from the residence, Thirteenth and Washington streets, conducted by Rev. E. E. Ingram, pastor of the Central Presbyterian church, assisted by Rev. John G. Kendall.

Interment will be made at Oakwood cemetery. Active pall bearers will be Ed McCullough, George McLendon, E. W. Marshall, G. B. Higginson, W. W. Cameron, Ben G. Kendall, Henry Bell, A. W. Warner. Honorary pall bearers, C. H. Higginson, L. B. Black, J. T. Davis, A. R. McCollum, W. T. Watt, Ed Rotan, J. K. Rose, Marshall Surratt, M. A. Cooper, W. R. Clifton, Dr. J. M. Witt, E. H. Hardin, A. D. Sanford, Eugene Early, J. T. Brock, Sam Sanger, Dr. J. W. Hale, Charles E. Moore, H. B. Kross, Bart Moore, H. H. Shear, W. B. Brazelton, Dr. J. O. Hall, A. C. Prendergast, C. J. Glover, W. J. Neale, W. W. Seley, Tom Padgitt, Dr. S. P. Brooks, E. R. Bolton, A. F. Bolton, J. F. Horsful, S. M. McAshan, E. R. Nash, John Sleeper, R. L. Cartwright, J. H. Sturgis and W. A. Webb and J. F. Strickland of Dallas.

ATTENTION, CONFEDERATE VETERANS.

Members of Pat Cleburne camp, U. C. V., No. 222, are hereby notified to attend the funeral of Comrade W. D. Lacy, from the late residence, No. 1300 Washington street, today, Sunday, at 3 p. m. The meeting of the camp, called for the armory at 3 o'clock, will not be held until 4 o'clock.

C. L. JOHNSON, Commander.
BRADFORD HANCOCK, Adjt.

QUEEN THEATRE OPENS SATURDAY

WACO'S NEW AMUSEMENT HOUSE GETS GOOD SEND-OFF LAST EVENING.

The grand opening of the Queen theatre was delayed from afternoon until evening yesterday. At 7 o'clock the crowd began to come. Finally rear seats were at a premium and then standing space.

It was a good-humored crowd, too. Even those who had to stand in the packed aisles applauded each joke, new and old, of the "nigger" comedian, and the rich old uncle. The gay young rake of a nephew was doing his best to fake a marriage to appease his uncle. This old comedy setting was given a new twist in "Little Miss Mix-Up." The chorus numbers were the feature of the opening bill. Unusually pretty costuming, rather out of the line, were used to usher in several new song hits. "I Have a Girl for Each Month in the Year" was a song which had a strong chorus backing in both costumes and singing. In fact, the Johnny and Irene Galvin company made a big hit with last night's audience, which enjoyed everything from the start to the final swirl of the pink skirts of Irene.

Henry B. Walthall showed what an actor he is in his portrayal of the sinking of a good man into the mire. The "demon rum" was what caused all the trouble in this particular story, but weakness of character had prepared the soil. A simple story, but showing good detail work in execution, is "Burning the Candle." Mary Charleson makes the typical "beautiful Southern girl." And, by the way, she is really very pretty, and a good emotional actress. The film preaches an excellent sermon for those who care to see it that way, and otherwise it is a good drama.

Christian Endeavor Rally to Be Held March 18

Today a convention rally will be held at each Christian Endeavor society in Waco sending delegates to the recent district convention at Westminster college, Tehuacana.

Waco Endeavorers shared largely in a $270 pledge to the support of the Texas Christian Endeavor union work for the year 1917-18, which pledge was made at the convention and several local union rallies in Waco district.

CLIP THIS OUT MAY COME HANDY

TELLS HOW TO TAKE SORENESS FROM A CORN AND LIFT IT RIGHT OUT.

Hospital records show that every time you cut a corn you invite lockjaw or blood poison, which is needless says a Cincinnati authority, who tells you that a quarter ounce of a drug called freezone can be obtained at little cost from the drug store, but is sufficient to rid one's feet of every hard or soft corn or callous.

You simply apply a few drops of this on a tender, aching corn and the soreness is instantly relieved. Shortly the entire corn can be lifted out, root and all, without pain.

This drug is sticky, but dries at once and is claimed to just shrivel up any corn without inflaming or even irritating the surrounding tissue or skin.

If your wife wears high heels she will be glad to know of this.

Y. M. H. A. Meets Tonight Held Earlier Than Usual

There will be a regular semi-monthly meeting of the Young Men's Hebrew association tonight in the basement of Temple Rodef Sholem, beginning promptly at 7 o'clock. The meeting is being held earlier in order that it will not conflict with the B'nai B'rith meeting which occurs at 8 o'clock.

Feature of the program will be a lecture by Dr. George Fox of Fort Worth. Other pleasing numbers have been arranged by Chairman J. Novich, which consists of musical selections, voice and instrumental and several other talks by members of the association together with a paper by Benjamin Franklin Freeman.

Considerable progress has been made by the club rooms committee and it will have an interesting report to submit to the organization.

Texas Travelers Will Meet Sunday Morning

President J. W. Barnett of the Texas Travelers will preside for the first time since his election to such position this morning at the Raleigh, beginning at 9:30 o'clock.

A death benefit feature for the traveling men of Texas who are affiliated with the organization will be considered this morning, also hotel and railroad matters.

President Barrett will name his standing committees for the year 1917-18. Renewals are coming in rapidly, as also new members.

SLUMBER OUTRAGED

Are you compelled to arise from your slumber, once, twice or more, because of pain, irritation and abnormal condition of kidneys and bladder?

Miller's Antiseptic Oil Known As
Snake Oil

Accomplishing Most Wonderful Results.

I want to thank you for your wonderful oil, states Mr. J. O. Gibson, of Jonesboro, Ark. My little girl was very low with diphtheria; I had given her two doses of medicine which cost me $20 with no results. I bought a 25c bottle of your oil and one application relieved her. Now she is well. It is the greatest remedy I ever saw. Mr. Gibson made this statement before hundreds of people. Mrs. Florence Meager, 234 Whitney street, Hartford, Conn., writes: I have used your Antiseptic Oil for neuralgia with good effects. Only thing I have ever tried that stopped the pain immediately. Mrs. Williams, Gadsden, Ala., writes: I have used your great pain Oil for rheumatism, stiff joints, also for sore throat, and I want to say that it is the greatest remedy I ever tried. I recommend it to all sufferers. Many cures reported daily from thousands of grateful users of this wonderful Oil. Every bottle guaranteed 25c to 50c a bottle, or money refunded. Old Corner Drug Store.

SHORT ONES.

Senator Stone gathers no ideas.

Japan seems to regard China as the Cuba of the orient.

To make the best of things always put forth your best efforts.

"La Follette" is French for "the little fool." The German for the same is "Der Thorchen."

We have just read a poem by the mikado of Japan; and we think if that's the best he can do as a poet he'd better keep on mikading.

In ancient Babylon it is said that a bald head was a mark of mystery and distinction. In our time it is merely a bare fact.

TO AID SUNDAY SCHOOLS.

THE NEWS announces on its first page today a plan by which it hopes to do its part in stimulating Sunday school attendance.

The plan is to give $20 in donations to the Waco Sunday school showing the largest average percentage of increase for the three following Sundays, which end with Easter Sunday. The present time has been chosen because the church editor feels the pre-Easter season is peculiarly fitted for a most responsive campaign for new members.

The donations have been decided upon instead of banners or loving cups, because the church editor feels the individual Sunday school probably is better fitted to determine the nature of the expenditure. In no sense does The News consider its plan a contest for money; it merely hopes thereby to aid in the "go-to-church-on-Sunday" idea.

CAN HE COME BACK?

THE house committee report criticising Governor Ferguson without commending impeachment proceedings appears to The News as a reasonable and a skillful handling of a complex task.

The evidence reflects that the governor has at least been indicted of conduct unbecoming a governor of the greatest state in the union. It would be equally wrong to hold that he has done anything so serious that the greatest state in the union should stain its annals with the mire of impeachment proceedings directed against the elected head of the commonwealth.

The political wiseacres will now debate: Is the governor through? Can he expect to receive the support of his fellow citizens should he aspire to a governorship?

WHY WE WILL FIGHT.

WE WILL not go to war because American lives have been lost.

We are not going into death grips with Germany because American property has been ruthlessly destroyed.

Mexico has destroyed American lives and American property and we have calmly reasoned with her and helped her back to sanity. Germany has done the same thing repeatedly and we have followed the same course with her.

But we go on the warpath at last with blood in our eye it will be for the simple and entirely sufficient reason that the bully of the western world has forbidden us to go outside our own front yard as and has proved that he meant it by inflicting death on our people.

Nations are like children. Do you remember how when you were a boy, the bully of the town pulled your ears and broke your toys and did everything he could think of with no more come-back from you than a threat to tell teacher?" You stood it all until you told you to keep off the streets or stay in your own front yard, and passed you a few times just to show he meant it.

Then you boiled over, and the first chance you hit the bully with a brick and got some of the other members of your gang to help you lick him.

It is the same thing now with the United States. If we accept Germany's view that we are reduced to the state of the oyster, which has no other method of defense except to close its shell. She has shown us that she means what she says and will put through her threat with a bully's brutality.

We have got to fight if we mean to live on earth, and we mean to do it. The bully must be whipped, and we will do our share.

Much Ado About Nothing

By Roy K. Moulton.

PREPAREDNESS.

They say we need most everything
That flies or floats or fights;
Everything that kicks or shoots
Or wrestles, claws or bites;
Everything that will explode
Or pierce or crush or rend:
We will not tell all the needs.
We'd never reach the end.
If the foeman we would balk,
Just paste this in your hat.
We need everything but talk.
We have enough of that.

* * *

Personally, if we ever have to go to war, we would prefer to act in the capacity of a prisoner or an interned seaman.

* * *

If a woman could drive a nail as successfully as she can drive a bargain, the Carpenters' union would have to become co-educational.

* * *

The Aristocratic Bean.

There was once a time when the bean was held in such low esteem on account of its cheapness that the government fed it to soldiers. We used to refer to soldiers as "poor devils," because they had nothing to eat but beans.

Beans were consumed in large quantities by the army and by poor people, including newspaper persons who frequented the low-browed restaurants. To realize fully the low station of the bean at the time one need only remember that the jitney restaurants were all called "beaneries."

But that was back in the days when the Primrose, Barlow and West minstrels represented the highest type of theatrical divertissement and people ate dinner at noon.

A few days ago our fireside companion discovered that beefsteak was growing to be somewhat above our station in life and expressed the fear starvation was imminent.

"Fear not, little one," said we, "beans shall sustain us and keep us alive. From time immemorial the people have fallen back upon this faithful vegetable in times of stress."

So we hied to the grocer to buy enough beans to last us until spring. We thought about 75c would turn the trick.

"Beans retail at $7.50 a bushel," said the grocer.

"On account of the war?" we gasped as we clutched a cracker barrel for support.

"No," he replied. "Not on account of the war, but on account of the price."

We told him we had always bought beans for 90c a bushel, but that didn't seem to affect him. We bought three dozen beans and took them home. The wife will make a necklace of them.

* * *

One of those recent "popular" songs is said to have broken all records, but unfortunately they were not phonograph records.

Letters from the People

Waco, Texas, March 15, 1917.

To the Editor:

Since you and your associates have assumed charge of Waco's morning paper I have noticed with much satisfaction that you tell the whole truth about anything that occurs in Waco, or concerns her citizens, no matter how prominent or influential the individuals or concern may be, who are involved. This is admirable and deserves commendation.

So I am now moved to call your attention to a fact that you and some other citizens may not be aware of. The newspapers have recently stated that the new Riverside club building was to be erected on a site of ground "leased from the city of Waco." But the real truth is that the ground on which it is proposed to build the Riverside club building is a part of Cameron park! Neither the park commissioners, nor the city commissioners, nor any one else in authority, has a right to permit this ground, which belongs to all the citizens of Waco, and is for their benefit, to be used for the exclusive benefit of any club, society, or limited number of Waco's citizens. There are only a few, comparatively speaking, who are able to pay $200 a share for stock in the Riverside club, and pay $4 per month dues, and of course any one offering to buy stock, who was objectionable to the directors of the club, would not be allowed to do so. Since Cameron park is for the free use of all of Waco's citizens, it is an encroachment on their rights to allow this exclusive club to be built on the grounds of the park.

The landscape in the vicinity of the site of the proposed club building is one of the most beautiful in this whole section of the state, and it would be marred by the erection of any kind of a building, no matter how rare and artistic its architecture might be. There are so many other desirable sites for a club building near the city (near the old Country club, for instance), that I wish to protest against this violation of the people's rights, which also would violate the beauty of the landscape.

If for any reason you do not feel at liberty to publish this, I shall take other means of bringing the matter before the public.

Yours for fair play,
ORDINARY CITIZEN.

Editors Note—Regarding the above communication, inquiry yesterday was made as to the ground on which the new club will be built, and information coincided with information previously given regarding this site.

Park Commissioner W. J. Neale was asked whether the ground for the new club near Cameron park was a part of the park or belonged to the city. He replied:

"The ground for the new club is no part of the Cameron park proper; it is part of an exhausted gravel bed, gravel having been stripped from the surface by the city."

Park Commissioner Ben G. Kendall said: "The ground never belonged to Cameron park, though we had the use of it for awhile. It is a beautiful block and would have been an acquisition to the park."

Contributions

(Note—That which appears in this department has been handed to the editor with the request that it be printed in the Morning News. This space will be reserved each Sunday for contributions, regardless of the subject which they concern.—Editor.)

Thank Mayor Dollins.

The local Association for the Advancement of Colored People of the city of Waco has adopted a resolution thanking Mayor Dollins for his co-operation in their movement. It follows:

Be it resolved, that the Association for the Advancement of Colored People of the city of Waco adopt this method of extending heartfelt thanks and appreciation to Mayor John Dollins for his most cordial and sincere reception of a committee sent him from the association. Also for his encouragement, approval and endorsement of recent actions taken by the association to better existing conditions and to encourage thrift, and industry among the negroes of this city. Also for his unselfish offer of assistance in the future.

Therefore, be it resolved, that these resolutions be published in the daily papers, informing the public of Mayor Dollins' interest in the movement of the association and a copy be spread on the minutes.

The association feels greatly uplifted and encouraged through the messages sent them by the mayor of Waco, Hon. John Dollins.

Committee of the Association for the Advancement of the Colored Citizens of Waco.

"How Texas Municipalities Can Solve Their Sewage Disposal Problems."

The above is the title of one of the many interesting and instructive articles in a recent bulletin issued by the Texas Municipalities. The bulletin is called the "Sewerage and Sanitation number" and is filled with reliable information on the subjects indicated in the title.

This bulletin, as well as others issued by the bureau of Texas municipalities, may be borrowed from the public library. Subjects treated by other bulletins are: "The well-planned city; attractive public buildings; solving the vacant lot problem; eliminating the billboards; taxation; sanitation; methods of conducting city beautification campaigns, etc.

In addition to these bulletins, the library has a very complete collection of books and reports on municipal questions. If a special report issued by any city is required the librarian will make an effort to get it for the patron if this library does not have it. If the patron knows the nature of a report but does not know where it may be secured he may consult the index of reports on special subjects and ask the librarian to secure the report desired.

The library has recently received a report from the bureau of the census, "Financial statistics of cities having a population of over 30,000." There are listed in this report 204 cities in the United States for which full statistics are tabulated. The tables give information on revenue receipts in detail, outlays, salaries of city officials and other information of a similar character.

In Memory of Hudson,

Infant Son of Mr. and Mrs. J. C. McKethan, Who Fell Asleep February, 1917.

At rest in the Silent City of the Dead
sleeps the little body of this 3-year-old
child, the pride and love of a devoted
family. To the mother who loves as
none other can, I would say, when you
visit this little grass-grown mound,
look to Him who hath said, "My grace
is sufficient for every wounded heart,"
when comfort will come to you flowing through nature as God speaks from
the budding flower, distilling its fragrance on every breeze. The tender
grass just awaking from its long winter sleep, fit emblem of the resurrection, when this little one will come again, a perfect body in Christ Jesus our Lord.

Weep not, but rather go and catch this inspiration as it comes from the sparkling dewdrop on each blade of grass. When the birds will sing sweeter as they build their nests in the budding trees, in which to rear another flock, again you may listen anew to the song of the brook, hard by this city of the dead, as it murmurs in song and story over pebble and stone in its flow to join the swifter course of the river. Look up amid your tears and get comfort for thy broken spirit. He speaks from the mountain top, from every flower nodding in the breezes, from every valley clothed in meadows green, from every wild bird's song as his plaintive notes re-echo praise to its Maker from his vine-clad home. Some time these clouds will lift, somewhere the mists will clear, when you will realize it's God's way. "He leadeth me amid the storms of life. He leadeth me beneath the lowering clouds of sorrow. He leadeth beside still waters and in green pastures. Some day I shall see Him face to face, and I will know as I am known."

C. E.

To the Memory of
JAMES HUDSON McKETHAN.
Died February 20, 1917.

He was such a little darling thing!
We all must say:
It seems we cannot have an hour of joy
When he's away.

He was a bundle full of rest
And joyous ways;
His little life so sweetly lived
Must fill our days.

He was such a little darling thing!
In all his mannish ways.
And the sunshine of our life
From day to day.

"Hud's" gone and well we know
That baby's life
Shall be a better one than ours
'Mid toil and strife.

Editorial Comment.

(By S. E. O'Bryan.)

Waco has a police judge who deserves a medal—also, re-election. He is Russell H. Kingsbury—who became famous for spelling "incomprehensibility" on the old "pronounce-and-repeat" method. He says he is going to make it safe for women and children to walk the streets of Waco without having to climb a telephone pole every time a fool (man or woman) honks a horn in a rushing automobile. He also says he is going to let automobile drivers know that pedestrians and not vehicle drivers, have the right of way and also of choice as to their speed in crossing streets. Now, if every city and town would do as Judge Kingsbury is doing, fine men and women to the limit in such cases, nine-tenths of the killings and maimings by automobiles would cease. But not until this is done.—Arlington Journal.

Goodyear Tubes Lengthen the Life of Casings

THE slow leak is the most dangerous enemy of your tires.

Dangerous because inconspicuous and insidious. A puncture soon is fixed and the tire is as good as before.

But poor tubes will leak air slowly and—before you know it—you are running on low pressure.

Then your casings give way before they should and perhaps you wonder why—or blame the casings, when the tubes are at fault.

So we urge all Goodyear users to realize that a good tube is just as important as a good casing.

And all Goodyear Service Stations in (*name of city*) carry a full line of Goodyear Tubes—so that Goodyear Casings, with good tubes inside, may deliver their longest mileage. And the Service Station men do this gladly—though there are many other kinds of tubes on which they would make greater immediate profits—because they know that Goodyear Tubes add life to the tires they sell—and so increase their business.

They know Goodyear Tubes are all made the right way—built up of layer on layer of pure, tissue-thin gum, each layer inspected for sand holes and bubbles, with the valve patch vulcanized into the tube, and the whole as near to permanent airtightness as is possible with an elastic material.

Your Service Station Dealer will especially recommend Goodyear Heavy Tourist Tubes. They cost more, but he knows they are worth more.

$120,000 BUSINESS DEAL IS CULMINATED

EARLY-FOSTER CO. OF WACO SELLS DEPARTMENT STORE GOODS TO CHILTON MAN.

A deal involving a total consideration of about $120,000—or $60,000 on each side of the trade—has been consummated by A. V. Sharpe, local real estate dealer.

In the trade consummated the Early-Foster company of Waco sold to Tom P. DeGraffenreid of Chilton, Falls county, a stock of department store goods at Copeland, Williamson county, for approximately $60,000. The Early-Foster company secured a farm of 450 acres of land near Kaufmann in Kaufmann county, also two store buildings at Waller, Texas.

Perhaps It's Here

WACO Rotarians will be very fastidious tomorrow—nothing short of chicken pie will satisfy their hunger. They have been promised chicken pie, and have their hearts—and stomachs—set on eating chicken pie.

The luncheon will be served at the Waco Steam Laundry ,and Louis and Frank Crow will be hosts. The matter of sending a big delegation to the Shreveport meeting March 22-23 will be up for discussion. This is the Twelfth district gathering, including Texas and Louisiana. Lynn B. Milam of Dallas is governor of the district.

Observance of St. Patrick's Day was quite general yesterday, and wearers of the green were numerous. Boys were on the streets in numbers selling the green insignias and many buyers were found.

The swimming pool proposition will come up for further consideration on Wednesday at 12:15, when the Lions hold their meeting. The next meeting will be held at the Hotel Raleigh, and members expect a snappy session.

Attention of the city commission has been called to the fact that chickens and other fowls are beginning to depredate on gardens in the city.

There are more gardens than ever before. Some of these are Welfare League gardens. An ordinance of the city provides that no fowls may run at large. This will be enforced, it has been stated by the commission.

Information to the effect that work will begin on Lock and Dam No. 6 at High Bank, below Marlin, at once, has been received by former Mayor James B. Baker.

All necessary deeds to land have passed to the federal authorities and there is nothing in the way of a beginning on work.

Already work has started on the lock and dam near Hearne; the railroad spur has been built to the site, houses erected for workmen, and the work is under good swing.

The meeting of Pat Cleburne Camp U. C. V., called for 3 o'clock today, will not be held until 4 o'clock this afternoon. The change in time was made necessary by the fact that veterans will attend the funeral of Comrade W. D. Lacy at 3 o'clock this afternoon. The meeting of the camp will be held at the armory.

The Waco Sand and Gravel company is to be a new bidder for business in the next three weeks, and a new plant is being installed now. The new plant will be in charge of V. H. Cornish as manager, and Mr. Cornish has associates in the business. Cables are being strung and other parts of the plant put in form at a point on the Brazos near the Texas Power and Light company and near Webster street. The plant will have a capacity of eight to ten cars daily. Shipments will be made all over Central Texas, besides the local business.

Pedro Martinez, charged with assault to murder, was granted bond in the sum of $500 in Justice T. E. Johnson's court yesterday afternoon.

Nearly a month ago, Jake Oswald, living near Waco, was talking with a "town man" and remarked that he would like to bet that rain would fall in McLennan county March 16. It was very dry. No clouds, no humidity. The town man thought he had a cinch. He bet Oswald that rain would not fall March 16. One of the best showers of the year fell promptly on the wager day. Oswald has collected, and the town man is wondering where he got his tip.

It was reported yesterday by grocery dealers that quite a number of the housewives of Waco have been quietly laying in supplies for the past week, anticipating conditions which might arise in connection with the expected strike.

Some of those buying bought an all-around assortment of things; others simply laid in staples, such as flour, bacon, sugar, rice, meal and things of that character. In most cases supplies laid in will not last more than a couple of weeks to one month.

Every move and phase in the proposed Palestine railroad matter will be watched very closely by the Y. M. B. L. and the general and special committees of the organization will follow it right along.

One of the first things to be considered, it is thought, will be the matter of financing the proposition, and the penitentiary board probably will take this matter under advisement at once. According to the bills which have passed the legislature, the penitentiary board will have much to do in connection with the project.

As soon as it becomes apparent that the proposition can be financed, there will be a lining up of Waco's energies and resources for a supreme effort to get the line, it is stated.

Deputy United States Marshal J. A. Rogers yesterday returned from Leavenworth, Kans., and Booneville, Mo. He took four prisoners to Leavenworth and one to Booneville.

W. B. Wolkins plead guilty to theft in the county court yesterday afternoon and was fined $10.

MARRIED SATURDAY.

Rev. F. N. Calvin last evening announced the marriage of E. C. Price to Mrs. Edna McKinley.

Chinese have discovered a great bed of coal, in places 233 feet thick, in North Manchuria.

EAT
What You Like

Use Stuart's Dyspepsia Tablets to Help Your Stomach and Do Not Worry.

Trial Package Sent FREE on Request.

Dyspepsia, indigestion, weak stomach and similar names simply mean that the supply of digestive juices is inadequate. That is where Stuart's Dyspepsia Tablets come in—by supplying this deficiency.

"Believe Me, I Enjoy My Meals to the Limit. No Fear of Consequences, Either, While I Have Stuart's Dyspepsia Tablets to Fall Back Upon."

If you will eat a Stuart's Dyspepsia Tablet after each meal and one just before you go to bed, you will learn that there is no harm in your meals.

The reason is clearly plain. Your system lacks the proper digestive juices to make your meals easily digested. Stuart's Dyspepsia Tablets give the stomach and other organs of the digestive apparatus the wherewithal to digest food.

Getting Acquainted With Waco Factories and Productions

Sash and Door Company Shows a Stupendous Industry

View of one of larger buildings at Waco Sash and Door Co.

Making window frames at Waco Sash and Door Co.

IN the Waco Sash and Door company Waco may boast of one of the South's largest industries.

The various plants of the Waco concern fit into and supplement each other like a mosaic, making a complete and harmonious working whole. In other words, one plant called for another and yet another, and these have been supplied until the entire process of making the sash, doors and other things is practically carried out in Waco. For instance, a plant for beveling glass has been added, so that beveled glass needed can be made right here in Waco; immense quantities of putty are needed, and a plant is being put in for making right on the ground all the putty that is wanted; an art glass department also is one of the features of the big plant.

Industry Concerns Building.

Sales Manager Frank Stevens said that the plant manufactures sash, doors, a general line of interior woodwork, also mirrors. A very extensive line of building material is carried for jobbing purposes. The plant is a veritable bee-hive of industry and activity, and a visit to this section of the city proves on eye-opener to those living here who think they know something of the magnitude, scope and importance of this great industry. It is without doubt one of the largest and most complete plants of the kind in the entire Southwest, doing a business which is stupendous, and its value to Waco can hardly be overestimated.

The vast amount of money paid out here each month is spent in the city, and more than a thousand people are directly included in the number maintained by the pay roll. The success of such institutions encourages others of like character to locate in Waco; and every avenue of trade and activity is touched in some manner by such an institution. The benefits really extend far beyond the confines of Waco, and the state of Texas is materially aided by such huge business institutions.

More Than 200 Employed.

More than 200 men are employed in the plant. As each employe will average about five persons to the family, it can be seen how many people are affected, how many homes are needed, what volume of supplies must be had to supply the needs of the force, and what a great ramification of business channels is imperative in meeting such demands each month. The administrative force is composed of several departments, including the sales department, managerial, order, invoicing and billing, accounting, estimating and service departments. The utmost system prevails in each of these departments, and work is turned out with great rapidity, but in the most complete and satisfactory manner.

Shipments of the output of the huge plant include points in all parts of Texas, in Southern Oklahoma, New Mexico, and some to Arkansas. Orders occasionally are received from states far removed from this section, showing how widely the institution has been advertised and how well known are the products. The advertising value of the plant to Waco is alone a tremendous factor.

Material for the plant is used actually by the trainload, and shipments are constantly coming forward in the form of raw material, to be worked up into the finished product.

On Mary and Jackson.

The plant, which is located between Mary and Jackson and the Katy and Cotton Belt railroads, is composed of a grouping of nine large buildings, spread out east and west over some three blocks of ground. The main factory building is 100x300 feet in dimensions, is three stories high, and Warehouse C is the same size, with other huge buildings in the lot. Thousands of people pass weekly right by the plant on the two railroads mentioned, and the factory is a suggestion of the scale on which Waco is doing things. The location is high and well drained. It only has one serious lack, which is street car service for the employes, and it is thought that this is soon to be settled very satisfactorily, either by the building of a line on Clay street from Twentieth to about twenty-fourth or Twenty-fifth streets. Each of these lines would pay well, it is claimed.

Officers of the Waco Sash and Door company are: W. W. Cameron, president; E. R. Bolton, vice president; S. E. Carothers, manager; Frank Stevens, sales manager; Earl M. Trammell, superintendent.

Thursday—"Patria," chapter 8, with Mrs. Vernon Castle; also "The Great Secret," chapter 8, with Francis X. Bushman and Beverly Bayne. Also "Love Under Cover," comedy.

Friday and Saturday—"A Daughter of the Poor," 5-reel Triangle picture with Bessie Love. Also "His Rise and Tumble," comedy. Also new Pathe News.

"THE BRIDE SHOP" STELLAR ATTRACTION OF VAUDEVILLE

The attraction that last season established every record of attendance at every theatre of the Interstate Circuit comes to the Auditorium as the leading offering in the new vaudeville bill Wednesday. It is "The Bride Shop"—fashion parade, beauty show, musical comedy, all rapped into one. Described as the gayest girl show ever produced for the vaudeville stage, "The Bride Shop," drew crowds that more people were turned away from the Majestic during its engagement last year than were able to procure seats.

Decked in brand new scenery, stage settings and costumes, "The Bride Shop" returns to the Interstate events as spick and span as a new pin and, with a single exception, presented by the identical company seen last year. Andy Tombes, who is proud of possessing one of the gloomiest names in the world, still is the great big star of the offering, in the role of Billy, the young man who fares forth into the wide world from Oshkosh and makes good in spite of the place from where he comes. Andy is as comical as ever—probably a little more polished as an artist in fun-making. And the antics of Andy, as on his first visit, are expected to make Interstate patrons again shriek with laughter.

The single change in the cast of "The Bride Shop" is in the prima donna role. Last season Lola Wentworth was seen in that role—the character of "Angelina Stokes," the childhood sweetheart for whom the comical Andy cuts all of his ludicrous antics. This time lovely little Lyle, one of America's foremost stage beauties, is seen as "Angelina." She is declared to fill the place to perfection, possessing every qualification needed for the successful interpretation of the changing moods of Angelina.

There are sixteen people in "The Bride Shop." Six of them are principals. In addition to Andy Tombes and Miss Boyle, the principals are Baron "Polydor von Mattfield," impersonated by Basil Lynn; Mrs. Stokes, designing mother of Angelina, and who is impersonated by Evelyn Dockson, Carmen, Selma Marion.

The other ten members of "The Bride Shop" cast are beautiful girls. These are Dorothy, Katherine, Margaret, Eugenia, Ileen, Adele, Jessie, Lois, Gwendolyn and Marie. Each is a real raving beauty. Each is of a totally different type of feminine charm and prettiness. Each was selected carefully for her ability to wear stunning gowns, for her grace, her voice, her dancing ability, her graciousness of personality and her stage presence. "The Bride Shop" boasts one of the best trained and most beautiful choruses in vaudeville, it is said.

About "The Bride Shop," Miss Celia Bloom, general booking manager of the Interstate Circuit, has bent every possible effort to assemble a bill of rare excellence. And each of the other six acts she has selected with a view first of quality and then of variety of entertainment.

James Mullen and Allan Coogan are comedians of recognized ability and furnish loads of laughter in their skit of pure joy, "Odd Nonsense." These young men have pleasing personalities and their bright character songs, snappy dialogue, eccentric comedy and dancing are expected to make them instant unqualified favorites.

Traditionally, the arts and sciences are handed down from generation to generation, and the Cutty family is a fine example of this tradition, because the are of their forebears was distributed among a generation of six. As the Six Musical Cuttys, this family proved for years one of the foremost musical acts of vaudeville. But they have ceased to exist as an act, now, the various brothers and sisters having gone their way. But William and Margaret Cutty, brother and sister, have formed a partnership in which they daily are adding new laurels to the family name.

Bill Pruitt is the Montana cowboy singer. He jumped from the saddle into vaudeville and there he has stuck with undiminishing success.

The Arco Brothers are novelty European acrobats. The are said to have some new feats.

Eugenia le Blanc, "the musical comedy girl," has an exceptionally pleasing little skit in which she demonstrates amply why she won such splendid uccess on the light opera stage.

"THE WEAKER SEX" AT HIPPODROME

An all-star cast, in a story of real drama, superbly screened, is Charles Ray, Louise Glaum and Dorothy Dalton in "The Weaker Sex," showing at the Hippodrome today and tomorrow. The feature is directed by Raymond West, one of the master directors of Inceville, and the photography is a new thing in pictures. The cabaret scene is especially effective, the lights playing on the different dancers being red, green and blue in changing beauty. The coloring of the film in many places is the highest art, the tinting being wonderfully done and producing an effect that has never before been accomplished in screen work. The work of the principals is well known, each of them having been starred more than once. Dorothy Dalton recently, come into her own as a screen artist, has the role of a brilliant criminal lawyer, a woman of splendid intellect and clever cunning, who bests the district attorney at every turn. Louise Glaum has one of her great "vampire" roles, being a cabaret singer of much popularity. Charles Ray again is a susceptible youth who becomes enamoured of the dancer and whose infatuation leads to the real action of the strong story. When the boy, in his mixups, is accused of the murder of the vampire, the father's duty is more to him than parental love and he prosecutes the boy. This affords the stepmother, who is convinced of the boy's innocence, an opportunity to again best her husband, the attorney, and the climax of the offering is one of the most stirring seen in many a day.

"BLOOD WILL TELL" AT HIPPODROME

In his fifth starring production, "Blood Will Tell," William Desmond will appear on the Triangle program at the Hippodrome Tuesday only. The story by John Lynch deals with the life of Sampson Oakley III., the youngest of a family of financial giants, whose appreciation of the joys of life are greater than his interest in money-grubbing. He becomes entangled in a college scrape and is expelled from school because he refuses to tell on his classmates. For this disgrace he is cast forth on his own resources, and after a season among the midnight revellers of Broadway finds himself with a wife and no visible means of support. In a tight, the vigorous old blood of his ancestors asserts itself, and in the end he fully atones for his escapades of the past. How this is done, however, makes the big situation of the whole story, and it is ingeniously and cleverly presented. Enid Markey plays opposite Mr. Desmond, and in the cast are Margaret Thompson, Howard Hickman, J. Frank Burke, David Hartford and Charles Gunn, all recognized players of the Ince forces and some of them stars in their own right.

"ONE OF MANY" AT HIPPODROME

A play that holds the record for fast time is "One of Many," the new Metro produced by William Christy Cabanne in five days and showing at the Hippodrome Wednesday only. Most people know that the average five-reel feature requires at least three weeks in the making, and many of them much more time. So far as is known, this is the first five-reel flawless feature to be produced in five days. William Christy Cabanne, the famous director, was responsible for this work, and he has turned out a photoplay that is far superior to many of the pictures which are months in the making. Frances Nelson is the star of the picture and her beauty and talent are well employed in the role of Shirley Bryson, the manicure girl who errs, struggles along a terrible career in a soul battle, and finally wins the peace and quiet happiness which is lasting. Miles Welch is the leading man, handling the role of the young lover with a splendid sympathy and understanding of his character. Adella Barker and Harold Entwhistle deserve much praise for their work as the sinful parents.

"A DAUGHTER OF THE POOR" AT HIPPODROME

"A Daughter of the Poor," with pretty Bessie Love, will show at the Hippodrome Friday and Saturday. Miss Love has the role of Rose Eastman, a young girl with an inherent hatred of wealth and all that wealth implies. She keeps house for her old uncle, who would rather smoke his pipe and rail against life than use his muscles. Uncle keeps telling the little girl, who can see no fault in him, that he would be a millionaire if it were not that his employer will not give him a chance but makes him work as a night watchman on beggarly wages. Rose believes him for a long time, and then she falls in love with a chauffeur. That is, Rose thinks he is a chauffeur, but in reality he is a millionaire. Ten Rose gets a line on the real state of affairs regarding her uncle when she visits the factory and finds him assisting on the job while the owner of the factory is working overtime. At this same time, however, she learns the true identity of her lover, and then things come to a pretty pass. The play is filled with splendid comedy and with subtle and clever subtitles which only Anita Loos knows how to write, and Bessie Love finds in it the best opportunity she has yet had on the screen. Roy Stewart is her leading man.

HELEN CHADWICK AT THE QUEEN

Featured in the famous A. H. Woods production "The Challenge" at the Queen Monday, Tuesday and Wednesday, is Helen Chadwick. The play is full of action and dramatic situations. For instance, a tense scene in which a card sharp is "shown up" the arrest and conviction of the hero for a crime he did not commit; the start of a giant engineering project in the west; the holdup at the hands of a little sharp-shooting girl, who dares anybody to lay a pick on her land, and the wrestling of the mail bags for a letter which means the happiness of the girl and the man she has grown to love.

Starting in the east, it develops a story of modern life that is vital, quick in action and teaches the fine moral that no man need give up the fight for an honorable career. The fact that the heroine wears chaps and sports a six-shooter doesn't interfere in the slightest when the man comes along. She doesn't know he is the right man at the start and fires a shot or two at him from her revolver; but, when she does realize his importance, she stows the gun and—acts like any other sensible little woman.

OPPHEUM THIS WEEK

"Sold at Auction," coming to the Orpheum the first three days of this week, has a big message to every woman who is forced to fight her own way. Big situation follows big situation, and there is a strong love interest that makes the conflict of the action all the more powerful.

To remove forever anything that will remind him of his dream of happiness, shattered by his wife's infidelity, Stanley sends his infant daughter Nan to be cared for by a woman named Hopkins, furnishing money regularly for her support but never going to see her. Nan is treated as slavey, receiving none of the money intended for her.

Ignorant of the world, she is carried by the tide of events unknowingly into what is known as a matrimonial agency, but is really something worse.

Then comes the big situation. Nan is placed at auction and her own father bids for her against other millionaires. As he outbids them all, Hal, who has traced her, enters in time to reveal to the father that Nan is his own daughter. With this strong story, excellent photography and direction, and Lois Meredith's wide popularity, "Sold at Auction" should play to packed houses.

EVERETT RECEIVES LETTER FROM LIBRARY

Mr. J. P. Everett
Hippodrome Theatre
Dear Mr. Everett:

I shall be very glad to have the opportunity to see the picture, "20,000 Leagues Under the Sea," and thank you for the invitation to do so.

If I am able to assist you at any time in attracting attention to a picture of the educational value of the above-named picture, please call upon me to do so. I may be able to do this by stating that the library has the book.

It may be gratifying to you to know that we have had a demand for Verne's book since you began advertising that the picture would be shown. There is at present not a single copy in the library.

Assuring you of my interest in the matter, I am, Very truly yours,

PAULINE McCAULEY.
Librarian.

Meridian College Loses Baseball Contest With Clifton Lutheran College

Meridian college defeated the Clifton Lutheran college in baseball at Clifton yesterday by a score of 11 to 1. Howell and Colwick worked for Meridian. The Junior Methodists have played four games so far this season, winning two and losing one, while the other was a no-decision affair. The nine leaves Monday week to play two games each in Brownwood, Abilene and Stamford.

The Meridian high school nosed out Morgan Hi yesterday, 6 to 5. Batteries for Meridian, Johnson, Mild and Thompson; for Morgan, Stewart and Belcher.

GOLF

HOT SPRINGS.

By Associated Press.

Hot Springs, March 17.—Warren K. Wood of Chicago, playing his first time over the springs of the Hot Springs Golf and Country club, this afternoon turned in a score of 75 for the eighteen holes, which is a new amateur record for the course, and which tied the professional record, held by Willie Hoare, local professional. Par for the course is 76. Wood will play again over the same course tomorrow before leaving for Chicago.

SAN ANTONIO.

San Antonio, March 17.—Gaines Gwathmey of New York won the honors in the finals for the first annual tourist golf tournament, which was completed this afternoon on the municipal course in Brackenridge park. He defeated George P. McLaughlin of St Louis 3 and 2.

NEW YORK.

New York, March 17.—John W. Overton of Yale made a new world's indoor record for the 1000-yard run at the senior national amateur athletic union's indoor championship at the Twenty-second regiment armory tonight. His time was 2:14, 1 2-5 seconds better than the former record. Ray of the Illinois A. C. Chicago, finished second.

Both salt and fresh water fish are caught in Lake Maracaibo in Venezuela.

BASEBALL

HOUSTON.

By Associated Press.

Houston, March 17.—The second team of the New York Giants had a little running and batting bee at the expense of the Houston team this afternoon. The big leaguers made six hits count for six runs in the third inning.

Score—	R.	H.	E.
New York	11	13	2
Houston	3	8	1

Benton, Perritt and Rariden, McCarthy; Hiett, Moore, Utt and Noyes, Query.

BEAUMONT.

Beaumont, March 17.—The St. Louis Cardinals beat Beaumont 9 to 4. The work of Outfielder Cruise featured.

Score—	R.	H.	E.
St. Louis	9	10	2
Beaumont	4	9	2

Niehauss, North and Roche; Watkins, Swan, Henry and Bobo, Dilger.

Shreveport.

Shreveport, March 17.—The Cincinnati Nationals second team won from the Shreveport Gassers today in a loosely played game.

Score—	R.	H.	E.
Cincinnati	9	13	5
Shreveport	1	11	8

Knetzer, Gerner and Allen, Huhn; Gleason, Terry and Betts.

NEW ORLEANS.

New Orleans, March 17.—Tris Speaker joined the Cleveland Americans here today and started the attack in this afternoon's game, which resulted in a 7-to-0 victory over the New Orleans Southern association team.

Score—	R.	H.	E.
Cleveland	7	8	3
New Orleans	0	6	2

Coveleskie, Klepfer, Coumbe and Billings; Dillinger, Williams and Higgins.

SAN ANTONIO.

San Antonio, March 17.—Four successive singles off Fritz Schulte, the young southpaw in the fourth inning netted the St. Louis National regular team three runs in that frame. Wildness cost Pitcher Friday two more in the fifth and on this margin the Cardinals defeated the Bronco 7 to 2. The hitting of Miller and Snyder featured, while Hale got another long drive that scored one of the locals' runs. Lee Meadows and Mule Watson pitched nearly regular campaign ball for the visitors, each using a lot of stuff.

Score—	R.	H.	E.
St. Louis	7	14	0
San Antonio	2	6	2

Meadows, Watson and Snyder, Gonzales; Schulte, Friday and Cook.

FORT WORTH.

Fort Worth, March 17.—Russell's wildness gave the Fort Worth Texas league team four runs in the first inning, but the Chicago team caught up in the next frame and won 10 to 4.

Score—	R.	H.	E.
Chicago	10	12	2
Fort Worth	4	8	2

Russell, Ainsworth and Schalk, Jenkins; Simms, Applegate, Gross and Bernsen.

DALLAS.

Dallas, March 17.—A ninth inning rally gave the Chicago American league second team a 3-to-1 victory over the Dallas Ham-Pats here today. Lewis had the visitors shut out until the ninth inning.

Score—	R.	H.	E.
Chicago	3	5	0
Dallas	1	5	2

Faber, Benz and Lynn; Lewis and Brooks.

GALVESTON.

Galveston, March 17.—In a free-hitting contest the New York National regulars defeated the Galveston, Texas league, club 12 to 7. Trouble between McGraw and Sentell of the locals was narrowly averted.

The old Baltimore feud between Sentell and McGraw bade fair to stage a revival in the third inning when trouble between these two ancient antagonists was narrowly averted by the players. The argument arose over a home run over the right-field boards by Dave Robertson, which Umpire Sloane called fair, putting the Giants in the lead 3 to 1, in the ensuing argument between the managers personalities passed freely and but for interference by players there would have been another contest in the pugilistic record of McGraw. The affair was smoothed over with the substitution of another umpire.

Score—	R.	H.	E.
Galveston	7	17	6
New York	12	8	3

Karr, Whittaker, Cole and Smith, Wright; Middleton and Kruger.

FRISCO.

San Francisco, March 17.—The San Francisco Coast league team won its second game here today against the Chicago Cubs 3 to 2.

Score—	R.	H.	E.
San Francisco	3	7	2
Chicago	2	6	2

Oldham and Hall; Carter, Aldridge and Elliott.

CORPUS CHRISTI.

Corpus Christi, March 17.—The St. Louis American league team, which arrived here today, defeated a team composed of Texas guardsmen by a score of 8 to 4.

Score—	R.	H.	E.
St. Louis	8	7	4
Guardsmen	4	4	1

Koob, Hamilton and Hale; Collins and Coley.

CHICAGO.

Chicago, March 17.—Playing a sparkling game, the Illinois A. C. team of Chicago won the National A. A. U. basketball championship here tonight, defeating the Brigham Young University team of Provo, Utah, 27 to 14.

STOCKINGS GOING UP, TOO.

Speakings of stockings and such, have you noticed the lady dressed solely in hosiery and beads in an Austin street window?

Manager Miller of Graham-Jarrell, whose window trimmer conceived the idea, says: Yes, hosiery is going up, according to latest New York price inquiries. Milady who wishes to save will stock up within the next week.

Recently patented garters for men include pockets for carrying money.

SOCCER

Special to the News.

Dallas, March 17.—The Sears Roebuck soccer eleven defeated the Dallas Soccer club team by 3 goals to 2 in one of the fastest games every witnessed here.

The result leaves the North Texas Soccer league race still undecided. Baylor, Dallas and Sears-Roebuck now have played six games, won four and lost two. The Cleburne team is out of the running, having lost every engagement.

In the first half of today's game play was of an even nature, the only goal of that period being scored by Dallas.

The second goal was the result of a high shot by Alexander. Gammie scored another for Dallas. Dickson carried the ball down the field and passed to Boreno, who booted into the net. The third goal was scored by Rowe. The teams were:

Dallas: Bell, Little, Aymond, Mitchell, Smyah, McLemore, Gammie, Orchin., Wainwright, Chaplin and Stockdale.

Sears-Roebuck: Jacobson, Watt, Alexander, Smith, Nordquist, Walcott, Poll, Ranne, Rowe, Boreno and Dickson.

Referee: Ernest Oates.

BOWLING

GRAND RAPIDS.

By Associated Press.

Grand Rapids, March 17.—Four new world's bowling records were broken as the second week's play in the American Bowling congress tournament came to a close here today, the leaders in the five-man and two-man events being dislodged by the most sensational play ever seen at a national meet.

The new leaders in the fives are the Birk brothers of Chicago, who rolled 3061 on the late shift Friday night and Ben and Nick Budinger of Chicago, with 1312, who ousted Henry Edwards and Joe West of Buffalo from the leadership in the doubles.

The new records are the Birks' total of 3061 and their wind-up game of 1102, the Budinger brothers' 1312 and a new two-man game of 498 made by R. Huitt and J. Steppacher of East St. Louis, their total of 1238 putting them in seventh place.

Doctor Tells How To Strengthen Eyesight 50 per cent In One Week's Time in Many Instances

A Free Prescription You Can Have Filled and Use at Home

Philadelphia, Pa. Do you wear glasses? Are you a victim of eye strain or other eye weaknesses? If so, you will be glad to know that according to Dr. Lewis there is real hope for you. Many whose eyes were failing say they have had their eyes restored through the principle of this wonderful free prescription. One man says, after trying it: "I was almost blind; could not see to read at all. Now I can read everything without any glasses and my eyes do not water any more. At night they would pain dreadfully; now they feel fine all the time. It was like a miracle to me." A lady who used it wrote: "The atmosphere seemed hazy with or without glasses, but after using this prescription for fifteen days everything seems clear. I can even read fine print without glasses." It is believed that thousands who wear glasses can now discard them in a reasonable time and multiples more will be able to strengthen their eyes so as to be spared the trouble and expense of ever getting glasses. Eye troubles of many descriptions may be wonderfully benefited by following the simple rules. Here is the prescription: Go to any active drug store and get a bottle of Bon-Opto tablets. Drop one Bon-Opto tablet in a fourth of a glass of water and allow to dissolve. With this liquid bathe the eye two to four times daily. You should notice your eyes clear up perceptibly right from the start and inflammation will quickly disappear. If your eyes are bothering you, even a little, take steps to save them now before it is too late. Many hopelessly blind might have been saved if they had cared for their eyes in time.

Note: Another prominent Physician to whom the above article was submitted, said: "Bon-Opto is a very remarkable remedy. Its constituent ingredients are well known to eminent eye specialists and widely prescribed by them. The manufacturers guarantee it to strengthen eyesight 50 per cent in one week's time in many instances or refund the money. It can be obtained from any good druggist and is one of the very few preparations I feel should be kept on hand for regular use

W. B. Morrison and other druggists.

ST. PATRICK'S DAY PECULIAR ONE IN KATY PARK GAME

HEILMANN BREAKS IT UP IN TENTH INNING—BUSH STARTS A RALLY.

By "Pop" Boone.

CAN YOU BEAT THAT? A ball game on St. Patrick's Day being "broke up" in the tenth inning by a guy named Heilmann? And the rally being started by another guy named Bush!

It would be scarcely less surprising to see my old friend Louis Heilbroner watchman at the munitions storage warehouse of the DuPont powder works.

But that's exactly what happened at Katy Park yesterday, Heilman's blow with two on and two out in Detroit's half of the tenth gave the big leaguers the decision 4 to 2.

The grandstand was decorated (in spots) with splashes of green shamrocks; on one coaching line was 'Ughie Jennings; on the other Jimmy Burke. Burns and "Pepper" Young and Dyer and others who should have covered themselves with glory, heard not the call of the clan. But this here Heilman steps up there and dry cracks one that brought home the bacon—and also brought much joy to the heart of one Joe Jackson, a morning newspaper baseball writer from Detroit who had to catch a 6 o'clock edition.

Game Was Erratic.

It was an erratic game—spotty in Spots. It bowled along nicely sometimes for quite a spell—then, blueybluey, such wonders as Buddy Tanner or Donie Bush blew up just like anybody else.

Double plays came with irritating frequency to those who were agonized at the fear of extra innings. These double plays had a habit of bobbing up in most inopportune times, considered from a chance-to-score standpoint. The local nine staged four and Detroit two of these doubles, all in tight places.

The pitchers were mostly wild. Of the six who worked for both nines Cunningham looked to be more in command of his game, although Teague, Hardy's young left-hander from Rocky Mount, continued to show a lot of stuff. Of the sextette of heavers, Boland was treated the worse. Buddy Tanner gave him an insight into what he might expect when he started the game with a home run in the first inning.

The same teams play today at 3:30.

Detroit—	AB.	R.	H.	O.	A.	E.

How About It?

Patience—There, now, I've spilled some salt.

Patrice—What of it?

"It's a sure sign of a quarrel."

"It's nothing of the kind."

"Yes, it is, too. I never saw any one spill salt that a quarrel didn't follow."

"That's nonsense."

"It's not nonsense."

"Yes, it is, and you're silly."

"It's you that's silly."

"You make me tired."

"And you make me sick."

"The idea!"

"Yes, the idea."

"Pooh!"

"Pooh, you."

Slow curtain.—Yonkers Statesman.

FOOTBALL RULES GIVEN CHANGES AT CONFERENCE

By Associated Press.

New York, March 17.—Regulations to curb the carrying of instructions from the side lines and elimination of the field goal from a multiple kick formation are the outstanding features of the new rules adopted by the football rules committee for the 1917 season. The committee at its annual session, which closed here today, instructed the secretary to prepare corrections and additions to the code to cover the following changes.

A substitute player entering the game must not speak to any other player until after the ball has been put into play; in case any change in the positions of the players is necessary, the incoming substitute must give information through the referee. Should the substitute take the place of the player giving signals he may give signals for the next play, but cannot speak to any player until after the ball is put into play. The penalty for a violation is loss of fifteen yards.

In order that the present rule may not work a handicap, considerable leeway has been given the referee in the infliction of penalties.

It was further ruled that a goal from the field could only be scored by a place kick or a drop kick and the fact was emphasized that a place kick was made with the ball resting upon the ground, which would appear to bar the use of multiple kick formation as now in vogue as the ball is held suspended a few inches above the ground when kicked. The use of artificial tees for a kickoff at the beginning of periods also was barred.

Other changes include the giving of the ball to the offended side where there is illegal interference with the player receiving a forward pass at the point where the foul is committe. In case the foul is committed behind the goal line the ball goes to the offended team on the one-yard line. A penalty of five yards will be imposed in the future for running into the kicker and fifteen yards and disqualification for roughing; the penalty to be imposed from the point where the ball was put into play.

The referee also is empowered to permit substitution of a new ball in play on a wet field at the end of the second period at his discretion.

TENNIS

By Associated Press.

New York, March 17.—Miss Marie Wagner was a doubles winner of national indoor tennis championships today. In the final of the tournament in the singles Miss Wagner defeated Miss Eleanor Goss of the Heights Casino, Brooklyn, 6-3, 6-1.

Paired with Miss Margaret Taylor of the Heights Casino in the final of the doubles, Miss Wagner helped defeat Mrs. John Anderson and Miss Edith Howe of the Harlem Lawn Tennis club, 6-4, 6-4. By her victories, Miss Wagner has a record of holding the singles honors six times and the doubles honors on four occasions.

Y. M. C. A. Opens New Athletic Field

Forty-nine young men, members of the Y. M. C. A., were present yesterday afternoon, dolled up in baseball togs, to help Gib Hunter, physical instructor of the "Y," open the new Y. M. C. A. outdoor athletic field, located at Twenty-second and Reservoir streets. Those who were present were well pleased at the prospects for the new field. Already one baseball diamond, a soccer field, four tennis courts and a volley ball court have been layed off and equipped. Probably another set of tennis courts and one more diamond will be completed in the near future.

Open Next Month.

According to Instructor Hunter, the "Y" outdoor sports, which officially open during the next month, will consist of the best set of schedules arranged in the history of the institution. Some ten schedules will be arranged for the different classes, each class selecting a senior team for the purpose of competing with out-of-town teams and city teams.

The present plans include a schedule arranged for four teams selected from the junior high school class. This schedule will consist of games not only between the four teams of the Junior "Hi" league, but other games matched with high school students of neighboring towns. The same course will be pursued in the case of the Senior High Class league, the Young Employed Men's league, the Older Employed Men's league and the Senior Team league.

Pick Best of Four.

The best team out of a pick of four teams in the Junior league will be pitted against the best team picked from the Young Employed Men's league, while the pick of the Senior High league will play a series of games with the Older Employed Men's best team.

In the Senior league, which will include the best players of the membership of the "Y," four teams will be selected and schedules arranged with the crack teams of the other divisions of the "Y" outdoor athletics, while one team, the cream of the Senior league, will represent the organization in the City league.

Baseball training began yesterday and will continue throughout the entire season. High school teams schedule will not be completed until after the close of high school in June, but active work will begin in the immediate future in mapping out schedules for all other divisions of the "Y" baseball sports.

Arrangements will also be made for a "Y" tennis tournament, which will include some of the city organization's tennis clubs, if the present plans of the management are carried out.

'MIDGET' BASKETBALL SQUAD FINISH SEASON WITHOUT LOSS OF GAME

FAST "Y" ORGANIZATION WINS FROM ELEVEN STRONG TEXAS TEAMS.

Members of the Y. M. C. A. basketball team completed the most successful schedule among the city organizations, playing a series of eleven games without a defeat.

The Midget team in making this record has played some of the strongest teams among the minor organizations in the state. Bryan academy, Southern Industrial normal, Baylor freshman team and strong high school teams throughout the state have been defeated.

The following is the record as to scores and teams:

Y. M. C. A. vs. Rosenthal	45- 15
Y. M. C. A. vs. West	35- 15

BROWN AND DEMETRAL MEET HERE IN A FINISH MATCH TOMORROW NIGHT

Waco wrestling fans will be given a treat tomorrow night at the Auditorium theatre when Pet Brown of Taylor will meet Harry Demetral, middleweight champion of Ohio, in a finish contest.

Demetral has been in Waco for a week and has made many friends during his stay here. He completed his training last night and looks to be in superb condition for the battle.

Brown needs no introduction to the fans of Waco, as he is well known to the public for his speed and cleverness on the mat. In Demetral, however, he will face one of the hardest contenders he has ever met.

A good preliminary bout between two local boys will precede the main event. Dr. H. E. Hoke will act as referee.

RINGSIDE

ST. LOUIS.

St. Louis, March 17.—Battling Nelson, formerly lightweight champion, knocked out Pierce Matthews, St. Louis lightweight, tonight in the eighth round. This was the first fight in which Nelson has taken part since November, 1915.

THIS WOMAN HAD BEEN A SUFFERER FOR 20 LONG YEARS

MRS. AINSWORTH SAYS SHE HAS GREATLY IMPROVED SINCE TAKING TANLAC.

Mrs. H. J. Ainsworth, wife of a well known contractor, residing at 1719 Burnett street, in a recent statement regarding the benefits she has derived from the use of Tanlac, said:

"I had suffered from stomach trouble and indigestion for twenty-five years. After eating I would have a burning sensation and cramping in my stomach and suffer for hours. I had gas on my stomach, my heart would flutter, and at night I would lay awake for hours unable to go to sleep. I was tired and run-down and just dragged around all day. I didn't rest at all well and would get up in the mornings tired. I ached all over with rheumatism and would often have to lie down during the day and rest.

"From what I read in the Waco papers about Tanlac I decided there must be something to it and I have not been disappointed. The first bottle helped me and I have been improving right along. I don't have any aches or pains now, my food seems to be nourishing me, and the gas has stopped forming on my stomach. I sleep and rest well at night, and all that tired feeling is gone. I have gained some in weight and have new strength and energy, and gladly recommend Tanlac for what it has done in my case."

The food people eat does them absolutely no good unless they digest it. When you suffer from indigestion or other forms of stomach trouble, the food does you harm instead of good because food that is not digested stays in the stomach and ferments causing pains, ewelling, gas on the stomach, shortness of breath, bad taste in the mouth, dizziness and many other disagreeable symptoms. If this condition is permitted to run on for an indefinite period of time the entire system becomes saturated with poisons and various complications are apt to result.

Mrs. Ainsworth's troubles were relieved by Tanlac simply because it toned up her vital organs and enabled here to digest her food properly. In fact, there is not a single portion of the body that is not benefited by the helpful action of Tanlac, which begins its work by stimulating the digestive and assimilative organs, thereby enriching the blood and invigorating the whole system. Next, it enables the weak, worn-out stomach to thoroughly digest its food, permitting the assimilation of the nourishing products to be converted into blood, bone and muscle.

Tanlac is sold in Waco by Morrison's Old Corner Drug Store, under the personal direction of a special Tanlac representative.—Adv.

MARKET NEWS AND REPORTS

$1.50 PER BALE ADVANCE ON NEW YORK COTTON MARKET YESTERDAY

By Associated Press.

New York, March 17—There was an advance of over $1.50 per bale in the cotton market here this morning. May contracts, for instance, sold up to 17.97, or 32 points above last night's close, while October sold at 17.17, or 35 points net higher. The close was a few points off from the best under realizing, but the tone was very steady at a net advance of 19 to 33 points.

The market opened steady at an advance of 5 to 15 points on covering. Business was comparatively quiet early in the morning, but became more active as prices worked upward, with shorts urging buyers on the advance. There also was buying by trade interests of old-crop months, while there was a demand for the new crop from houses with Liverpool connections and from outside sources.

The cheerful tone of advices from Russia undoubtedly contributed to the advance, while much of the buying was believed to be covering by early week sellers on expectations that the railroad difficulties would be settled over Sunday. Stop orders were uncovered on the advance, which carried active positions 30 to 35 points net higher late in the morning. May closed at 17.85 and October at 17.12, or about 5 to 12 points off from the best. New crop deliveries led the advance, being influenced by reports of further rains in the eastern belt, and the forecast for frost in East Texas, extending nearly to the coast.

SPOT MARKET.

CHURCHES TODAY

Seventh and James Street Baptist.

Sunday school, 9:30 a. m.; preaching 11 a. m. by Rev. C. D. Daniel, and at 7:30 p. m. by Pastor Melton; subject, "Before the Court of Human Will." Special music at each service, N. V. Morgan, director.

Turner Street Baptist.

The pastor, Rev. W. T. Turner, will speak at 11 a. m. and 7:30 p. m. Morning theme, "I Magnify Mine Office;" evening, "What Do Ye More than Others?" The evening sermon will be preceded by a thirty-minute song and praise service led by J. O. Keller.

Columbus Street Baptist.

9:30 a. m., Sunday school, D. P. Wallace, superintendent. At the 11 o'clock hour there will be a sermon by Rev. G. J. Rousseau, subject, "The Relation of Religion to Life;" Mrs. Byars will sing a solo, "O, Jesus, Thou Art Standing." At the evening hour, 7:30, Mr. Rousseau will preach, and there will be a special number by Howell James, "One Sweetly Solemn Thought."

First Baptist.

Today at 11 a. m. and 7:45 p. m. there will be preaching at the First Baptist church, by the pastor, Rev. J. M. Dawson. The Glee Club of the University of Texas will sing at the evening service, beginning at 7:45. The pastor will preach on, "The First Invention," or "The Ministry of Music," which is the last sermon in the series of sermons on primal themes. At the morning hour the pastor's subject will be "A Drawing Church," and preceding the sermon a male quartet will sing and the offertory solo will be "Fear Ye Not, Oh Israel" (Dudley Buck), by Miss Crawley, and the anthem will be "Hark, Hark, My Soul" (Ambrose), by Miss Bolton and choir. The Bible school meets at 9:30 a. m., P. S. Durham, superintendent.

Provident Heights Baptist.

Pastor will preach at 11 a. m. and 7:45 p. m. Sunday school, 9:30 a. m.; B. Y. P. U. meets 6 o'clock p. m. Subject of sermon in the morning, "The Place of Prayer in a Revival;" evening subject, "Volunteers for Service."

Elm Street Methodist.

Sunday school, 9:30 a. m.—"watch us grow." 11 a. m. and 7:30 p. m., sermons by the pastor, E. V. Cox. "The Progress of the Church—the Greatest Work of the Church."

Morrow Street Methodist.

"Repentance After Death" will be the subject of Rev. H. L. Munger's sermon at the Morrow Street Methodist church at 7:45 p. m. today. In the morning at 11 o'clock the subject will be "The Lukewarm Christian." Sunday school 9:30 a. m.; Young People's society 6:45 p. m.; church corner of Morrow and North Eleventh streets.

Peniel Mission.

Rev. J. W. Daniel will preach at the mission tonight at 7:45. Rev. Daniel was at one time field evangelist for Buckner's Orphan Home. The public is invited to hear him. A street service will be held just before the indoor meeting. Mission on north side of square.

St. Paul's Episcopal.

Holy communion at 7:30 a. m.; 9:30 a. m., Sunday school; 11 a. m., morning prayer and sermon by the rector, Rev. W. P. Witsell; offertory anthem, "The Sun Shall Be No More Thy Light By Day" (Woodward). 4 p. m., confirmation lecture by the rector. 7:45 p. m., evening prayer and sermon by the rector; offertory anthem, "Sweet Is Thy Mercy" (Barnby).

Central Christian.

Musical service, 10:45 a. m.—
Anthem....."The Lost Sheep"
Prof. G. M. Smith and Choir.
Solo....."Rock of Ages, Cleft for Me"
Mrs. Walter Roach.
Sermon by pastor.
7:30 p. m.:
Anthem....."Mighty Jehovah"
Prof. C. D. Cook and Choir.
Duet....."Come Thou Fount"
Mrs. Roy Jacobs, Prof. Brierly.
Sermon by pastor.

Christian Science.

First Church of Christ, Scientist, Scott building, Eighth and Washington streets: Service today 11 a. m., subject, "Substance." Wednesday evenings, testimonial meeting at 8 o'clock. A free reading room, adjoining church auditorium, open daily, except Sunday and holidays, from 12 to 5 p. m. The public is cordially invited to attend all these services and to visit the reading room.

Second Presbyterian.

Regular services Sunday, Rev. J. J. Grier will preach at both services. Miss Mary Lou Epperson will sing at the morning service. Sunday schools: Main school at 9:30 a. m., North Waco, 3 p. m.; East Waco, at 4 p. m. Christian Endeavor, 6:45 p. m.

Central Presbyterian.

The Central Presbyterian congregation has arranged to hold all Sunday services at the Y. M. C. A. beginning with today. The Sunday school will meet at 9:30; morning and evening service at the usual hour; Christian Endeavor at 6:45. There will be a congregational meeting at the close of the 11 o'clock service to elect two trustees.

Christian Endeavor.

Miss Monnetta Stribling, recently returned from the district Endeavor convention held at Westminster College, Tehuacana, will conduct the Christian Endeavor service at the Second Presbyterian church at 6:45 p. m. Sunday.

If your lights are dim and your starter weak, it is a sure sign of a dead battery. Ring 3311 for a service battery. Waco Storage Battery Co.—

COTTON SEED OIL.

By Associated Press.

New York, March 17.—Cotton seed oil market was only moderately active, but prices were firm on outside buying due to strength in lard and other greases as well as evidences of a good absorbing demand. Closing prices were 3 to 11 points net higher. Tenders 500 barrels; sales 11,400.

SHOW OF STRENGTH IN NEW ORLEANS COTTON ON SATURDAY

By Associated Press.

New Orleans, March 17.—In the face of the railroad labor situation cotton today made a pronounced show of strength, rising nearly $1.50 a bale on the most active months in the contract market. Buying was not large in volume, but the demand was met by only scanty offerings. Recent sellers appeared to want their cotton back and to even up over Sunday, while buyers for long account stood ready to increase their commitments, even though they were willing to concede that a nation-wide strike would be a bear influence against cotton values. The steady tone was carried to the close, which was at a net gain for the day of 21 to 28 points. At the topmost levels prices were 24 to 29 up.

LIVESTOCK.

By Associated Press.

WHEAT MARKET SEES LABOR CRISIS UNCERTAIN AND BECOMES NERVOUS

By Associated Press.

Chicago, March 17.—Notwihtstanding that the railway labor crisis led to much nervousness and irregularity in the wheat market today, prices in the late dealings showed considerable strength owing largely to assertions that the government was preparing measures to prevent cessation of traffic even if the president's appeal to the contending forces to get together failed. The close was unsettled, ranging from 1c decline to ⅜c advance, with May at $1.84 to $1.84⅛ and July at $1.54¾ to $1.55⅛. Corn finished 1⅛c off to ⅛c up, oats down ¼@⅜c, and provisions at gains of 7½@30c.

Uncertainty over the strike situation made the wheat market average moderately lower during the first hour, but afterwards the advantage was mostly with the bulls. Offerings of May wheat were moderately lower during the first hour, but afterwards the advantage was mostly with the bulls.

Offerings of May wheat were notably scarce and there was some buying of this option, with the demand coming to a great extent from houses that often act for seaboard interests.

Corn and oats were almost devoid of feature.

Scarcity of offerings gave an upward slant to provisions.

CHICAGO GRAIN TABLE.

Rowell's Easy Payment Store

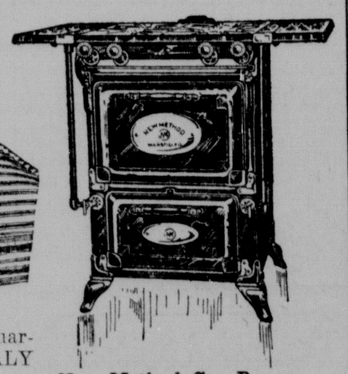

—Thousands of homes have been furnished by this pioneer Easy Payment Furniture Store. Every day some saddened heart is relieved of its burden by receiving from Ray Rowell's big store some useful piece of FURNITURE, bought by father, mother, son or daughter to sweeten up the home. Drop in some day and allow us to show you an immense stock of GOOD FURNITURE. For many years I have sold the famous Belding-Hall Refrigerators, and I know by test and experience that they are the equal of any in the world. NEW METHOD Gas Ranges are the WOMAN'S FRIEND, because they save gas and won't smoke. This store is the home of the Sealy Mattress and Leggett and Platt Springs, both guaranteed for TWENTY YEARS. Remember that I occupy my own building, just out of the high rent district, and I invite you to walk a block and save a dollar.

Belding-Hall Refrigerators.

Investigate the 20-year guarantee given with every SEALY Mattress.

New Method Gas Ranges.

EXCHANGE YOUR OLD FURNITURE FOR NEW. Rowell's Exchange Department manager will gladly call at your home and quote highest price possible on your furniture, and sell you new furniture on EASY TERMS to take its place. INVESTIGATE. Now is your opportunity to get rid of the many old pieces you have wanted to discard and replace them with new, clean, up-to-date Furniture. This is not a swapping proposition. We simply accommodate our patrons by accepting obsolete pieces of furniture as payment on new purchases, allowing them more than they could possibly sell it for. Our lowest cash prices are always given on exchange bills.

RAY ROWELL
The Furniture Man

Legal Notices

SHERIFF'S SALE—The State of Texas, County of McLennan: Notice is hereby given that by virtue of a certain order of sale, issued out of the honorable 74th district court of McLennan county, of the 10th day of March, 1917, by R. V. McClain, Clerk of said court, for the sum of five hundred and fifty-four and 40-100 dollars, and costs of suit, under a judgment, in favor of W. B. Hays and Ida M. Hays, in a certain cause in said court, No. 1424, and styled W. B. Hays et al vs. C. E. Gedeon et al, placed in my hands for service, I, S. S. Fleming, as sheriff of McLennan county, Texas, did, on the 10th day of March, 1917, levy on certain real estate, situated in McLennan county, Texas, described as follows, to-wit:

Being lots Nos. 19 and 20, in block No. 5, of the Hays Brothers Sunset Hill addition to the city of Waco, McLennan County, Texas, and levied upon as the property of Mrs. C. E. Gideon and husband, W. E. Gideon, and that on the first Tuesday in April, 1917, the same being the 3d day of said month, at courthouse door of McLennan county, in the city of Waco, Texas, between the hours of 10 a. m. and 4 p. m. by virtue of said levy and said order of sale, I will sell above described real estate at public vendue for cash, to the highest bidder, as the property of said Mrs. C. E. Gideon and husband, W. E. Gideon.

And, in compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in the Waco Morning News, a newspaper published in McLennan county.

Witness my hand, this 10th day of March, 1917. S. S. FLEMING,
Sheriff, McLennan County, Texas.
By F. N. Oliver, Deputy.

WILL ASK COUNTY FOR TICK VATS TO FIGHT PLAGUE

FARMERS AND BUSINESS MEN HOLD MEETING IN WACO YESTERDAY.

At a meeting of prominent farmers and business men of the county yesterday afternoon it was decided to again ask the county commissioners of McLennan county to construct vats for fighting the ticks in this county.

The name chosen for the organization was the McLennan County Agricultural association. W. W. Woodson was made permanent chairman and H. D. Driscoll permanent secretary, to hold office for one year. Meetings will be held on the third Saturday of each month, Chamber of Commerce, 2:30 o'clock.

It was on suggestion of F. E. Goodman that it was decided to go in a body before the county commissioners and ask for the dipping vats, and Charles Durham suggested that Dr. L. J. Allen of Fort Worth go with them on this mission, the suggestion prevailing.

On suggestion of M. Falkner of Waco, it was decided to have a report on the kilns for drying sweet potatoes, for the next meeting.

W. W. Woodson explained why it had been decided to wait awhile before bringing the Holstein cattle to Waco, showing that as soon as tick eradication is further along this will be practical.

George A. Connally of the Caufield community, near McGregor, talked very interestingly of the benefits of the organization or club in his community, saying farmers had profited wonderfully in the exchange of ideas and methods, and that results were visible on the farms of members.

Wacoan Is Enjoying Life of the Marines

Expressing great satisfaction with the life of a marine in the service of the United States, a letter has been written by Frank Durnett, who left Waco about five months ago for this service.

The letter was written to Sergeant Robinson of the recruiting station at 421½ Austin street, and the writer declares that the statements made by Mr. Robinson have been borne out completely. Durnett is aboard the United States steamship Seattle. He states that the life of a marine has built him up greatly, that he enjoys the drills, swimming and general routine greatly, and advises young men who want to serve their country and see the world to enlist. Special emphasis is laid upon the fact that the young men in the service have much liberty. Mention is made of stops at points in Haiti and Cuba, and Durnett stated that the return trip will be made by way of the Panama canal.

Waco Bar Association Decides Banquet Soon

At a meeting yesterday afternoon of the Waco Bar association executive committee it was decided to have a banquet in connection with the next regular meeting of the association. This will be Tuesday night, April 3. Speakers of note will be invited to deliver addresses.

The following committees were appointed yesterday afternoon: Committee on ethics, C. A. Boynton, Walter Cocke, E. C. Street, W. M. Sleeper, Robert Rogers; legislative committee, J. D. Williamson, Marshall Surratt, W. D. Naman, E. G. Senter, John Maxwell; grievance committee, O. H. Cross, J. N. Gallagher and D. C. Woods.

Woodmen Attendance to Invade Waco Next Week

Next week the Woodmen of the head camp and the Woodmen circle, the last named organization composed of the women of the order, will swoop down upon Waco in large numbers.

It is estimated by Head Consul R. H. McDill of Dallas and Head Escort S. J. Flood of Waco that the attendance may reach from 5,000 to 7,000.

Sessions of the camp will be held at the Cotton Palace coliseum. The city will be suitably decorated, while strings of lights will be hung from the city to the Cotton Palace, out South Eighth and Clay.

Paul Poiret

The World's Greatest Fashion Genius Contributes His Latest Models for This Event

The Paul Poiret Original Models will be a feature at the Sanger Store Wednesday and all this season, for we have secured the exclusive right to sell the Original Paul Poiret Models in this city.

No name in all the realm of Fashion, in all the long history of Dress, has ever reached so pre-eminent a renown as that of Paul Poiret. His word is the inspiration for the best dressed women of the Continent. The reflection of his art has been felt throughout the world, and his influence has dominated the style changes for the last ten years.

We feel that we have scored a remarkable achievement in the securing of the exclusive right to handle Paul Poiret original models in Waco.

Millinery At Popular Prices

An Interesting Collection At $7.00, $9.00, $12.00 and $15.00

All clever new designs; Mushrooms, Sailors, Turbans; shapes—large, medium and small; colors—black, navy, brown, chartreuse and white.

Also a complete line of Misses' and Children's Hats at popular prices. .

Paul Poiret Dresses, Paul Poiret Suits, Paul Poiret Coats

The Original Garments from This Master Designer on Exhibition Beginning Wednesday

On the second floor you will find a special exhibition platform reserved for the exclusive display of Paul Poiret apparel. The most fascinating garments that we have ever presented. Models that are especially adapted to the American woman—models bearing the wonderful personality of Poiret and the best of all is the fact that these exclusive garments are here at prices that suit the average American purse. High Class to the last degree, up-to-the-minute in style, but not high priced.

We Have Also Secured a Limited Number of the Famous Paul Poiret Booklets---The Les Modeles De Paul Poiret Printemps

Which is the Paul Poiret Album de Luxe. It is a wonderful book on Fashions. It shows the gem of Poiret's genius at its prime. It brings to the American woman the opportunity of discovering how she can wear clothes that bear the stamp of exclusiveness and individuality at a price that is not above what would ordinarily be expended. We have only a limited number of these books and they will be given away only upon request. Ask for your copy Wednesday in our Apparel Department on the second floor.

CONTEST FOR BOYS TO CLOSE MONDAY

REV. M'GUIRE MAKES IMPORTANT ANNOUNCEMENT AS TO CLOSING TIME.

The contest for boys conducted by Rev. D. A. McGuire will close tomorrow. All papers must be turned over to S. R. Hankins or Rev. D. A. McGuire by 12 o'clock tomorrow. The winners will be announced Wednesday evening at 7:45 o'clock at the Clay Street Methodist church. The judges are A. C. Patton, John A. Erhard, Prof. W. S. Allen, Mrs. R. B. Spencer and Mrs. James R. Wright. A ten minutes' talk will be made by John A. Erhard and by Rev. D. A. McGuire.

Amicable vs. J. Y. Webb Postponed for One Week

An order has been entered in the Seventy-fourth district court, postponing until next week the case of the Amicable Life Insurance company vs. J. Y. Webb et al., which was set for hearing yesterday. The plaintiff asks that defendants be cited for contempt, alleging that they have violated a restraining order issued by Judge Erwin J. Clark.

CALLS ENDEAVOR CONFERENCE.

Miss Everal Tarpley, president of the Christian Endeavor society at the North Waco Christian church, has called a conference of the officers of that society, together with a committee representing the Waco Christian Endeavor union.

Crouch Grain Co., Waco, Has No Connection With Grain Co. Temple

Some confusion is said to have arisen in connection with the publication regarding the troubles of the A. B. Crouch Grain company of Temple, some associating the H. H. Crouch Grain company of Waco with the matter.

The two concerns are entirely separate, and A. B. and H. H. Crouch are not related, either in business or otherwise. The H. H. Crouch Grain company of Waco has been in existence for about sixteen years and is prospering. H. H. Crouch has just returned from Lynn and Collin counties, where he has large wheat acreage, and reports the outlook excellent for a fine yield.

Katy Receiver Passes Thru Waco on Special

Charles W. Whitehead, assistant to Receiver C. E. Schaff of the M., K. & T. railroad, passed through Waco yesterday afternoon on the southbound Limited train at 1:30 o'clock.

Mr. Whitehead was in his private car, attached to the Limited. He made no comment on the strike situation, further than to say that the railroads were expecting the strike. Mr. Whitehead formerly was in Texas, and is an old-time friend of District Passenger Agent W. A. Morrow of the Katy.

Adv. JOE DILLARD.

CALOMEL WHEN BILIOUS? NO! STOP! ACTS LIKE DYNAMITE ON LIVER

I guarantee "Dodson's Liver Tone" will give you the best Liver and Bowel cleansing you ever had.

Stop using calomel! It makes you sick. Don't lose a day's work. If you feel lazy, sluggish, bilious, or constipated, listen to me!

Calomel is mercury or quicksilver, which causes necrosis of the bones. Calomel, when it comes into contact with sour bile, crashes into it, breaking it up. This is when you feel that awful nausea and cramping. If you are "all knocked out," if your liver is torpid and bowels constipated or you have headache, dizziness, coated tongue, if breath is bad or stomach sour, just try a spoonful of harmless Dodson's Liver Tone.

Here's my guarantee—Go to any drug store and get a 50c bottle of Dodson's Liver Tone. Take a spoonful tonight and if it doesn't straighten you right up and make you feel fine and vigorous by morning I want you to go back to the store and get your money. Dodson's Liver Tone is destroying the sale of calomel because it is real liver medicine; entirely vegetable, therefore it cannot salivate or make you sick.

I guarantee that one spoonful of Dodson's Liver Tone will put your sluggish liver to work and clean your bowels of that sour bile and constipated waste which is clossing your system and making you feel miserable. I guarantee that a bottle of Dodson's Liver Tone will keep your entire family feeling fine for months. Give it to your children. It is harmless; doesn't gripe and they like its pleasant taste.

Two Fatal Losses Caused by Fires

A house belonging to the Texas Lumber and Loan company and occupied by T. V. Meers, 1728 North Twelfth street, was totally destroyed by fire yesterday morning. The contents of the house and the house itself was a total loss, total valuation being $3,500, and insurance only $2,500.

The house occupied by Rev. Miller, 1515 Bagby street, was also destroyed by fire early Friday night between 10 and 11 o'clock. House and contents were a total loss.

Vote Bond Election for Riesel Schools

A bond election for the issuing of school bonds to the amount of $12,000 forty years, for the purpose of erecting a new school building in Riesel, was held Friday. The bond issue carried by a vote of 76 to 8. A maintenance tax of 50c was carried by the same majority. The new building is to be erected on the site of the old one, one of the finest sites for the purpose in the country, it being upon a hill which is well drained.
